**ABOUT THIS INSTRUMENT**

We manufacture Heavy-Duty Stainless Steel Curved Straight Edge Nail Clippers Finger for salon, podiatry, brow, lash and nail work — made from bar stock to finished instrument in house. Instruments of this type cut and shape nails and hard material. From the pattern: a curved working end for reach around structures, a straight working end for direct, in-line access, and a heavy pattern built for load.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$7.00, falling to \$5.00 at 5 pieces — about 29% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

ABOUT THIS INSTRUMENT

Stainless Steel Cuticle Pushers & Cutter Double — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut and shape nails and hard material.

We work the instrument by hand at the finishing stage — box locks, hinges and

tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$2.10, falling to \$1.00 at 3 pieces — about 52% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.
