ABOUT THIS INSTRUMENT

3.9" Razor Edge Sharp Stainless Steel Barber is part of our beauty instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut hair, nails or lash and brow work cleanly and hold their edge. The name tells you what you are getting: a sharp, keenly ground edge.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$5.00, falling to \$2.00 at 10 pieces — about 60% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

ABOUT THIS INSTRUMENT

We manufacture Hair Cutting Barber Scissors Straight Stainless Steel Sharp 5.0/5.5 for salon, podiatry, brow, lash and nail work — made from bar stock to finished instrument in house. We manufacture Stainless Steel Straight Cuticle Nail for salon, podiatry, brow, lash and nail work — made from bar stock to finished instrument in house. Instruments of this type cut hair, nails or lash and brow work cleanly and hold their edge. The name tells you what you are getting: a straight working end for direct, in-line access.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$2.99, falling to \$1.75 at 10 pieces — about 41% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.
