ABOUT THIS INSTRUMENT

Tonsillectomy Surgical Instruments Set of 30 Pcs ENT Tonsil is an instrument set we forge, grind and finish in our own Sialkot workshop. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table. Supplied as a 30-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than ours. The steel is heat treated and

passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at \$250.00, falling to \$190.00 at 1 set — about 24% off the single-unit price. Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.
