ABOUT THIS INSTRUMENT

We manufacture Dolphin Nose Dissecting Forceps Instrument Set for electrosurgical and diathermy use — made from bar stock to finished instrument in house. Instruments of this type grasp, hold and transfer tissue, dressings or small components without crushing them. Supplied as a set — the contents can be adjusted to your list.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at \$65.00, falling to \$50.00 at 1 unit — about 23% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

ABOUT THIS INSTRUMENT

European Material Non-Stick Bipolar Forceps is part of our electro surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grasp, hold and transfer tissue, dressings or small components without crushing them. The name tells you what you are getting: a non-stick surface that resists tissue adhesion.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at \$10.00, falling to \$7.00 at 10 pieces — about 30% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

ABOUT THIS INSTRUMENT

Insulated Blue Gynecology Speculum ElectroSurgical is a retractor we forge, grind and finish in our own Sialkot workshop. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: an insulated shaft for electrosurgical use.

The steel is heat treated and passivated for corrosion resistance, then each

instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at \$8.85, falling to \$4.65 at 10 pieces — about 47% off the single-unit price.

ABOUT THIS INSTRUMENT

Private Label Bayonet Bipolar Forceps is part of our electro surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grasp, hold and transfer tissue, dressings or small components without crushing them.

Forging, milling, heat treatment, hand finishing and passivation all happen

under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$10.00, falling to \$7.00 at 10 pieces — about 30% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.
