**WI-70000943****2 Poole Suction Tube 16FR (5.3mm) Curved and Straight****\$14.99** per pieceTrade price from **\$13.79**

Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Pack of 2 Poole Suction Tube 16FR (5.3mm) Curved & Straight with 10mm Working End Tip Length Abdominal Surgical Diagnostic Instruments.

Poole Suction Tube is use to aspire large fluid collections during surgery, especially from the abdominal cavity and other large spaces of the body. Its principal use is to suction large collections of fluids from cavities where other tubes would struggle, such as the abdomen & cesarean procedures. Poole suction tube features a straight, bullet-like working end with multiple holes. The holes permit to drain a large volume of fluids with 8.0 to 10.0mm working end lengths. This tube is available in both straight and curved variations. It has a bottom connecting olive to attach the tube to a suction

system. Manufactured in premium grade stainless steel to ensure durability.

POOLE SUCTION TUBE FEATURES

- 10" (25.4cm) & 8.75" (22.2cm) Overall Length Ensuring Deep Surgical Reach.
- 10.0mm Working Ends Promoting Deep Suction.
- Bullet-like Straight Working Tip.
- Multiple Holes for Greater Volume Uptake.
- Straight and Curved Profiles.
- Removable Outer Tube.
- Bottom Connecting Olive Ensuring Secure Attachment.
- Reusable.
- Made with Premium Quality Stainless Steel.

**WI-70002291****6 Dental Aspirating Syringe C-W Type 2.2cc Dentist Surgical Instruments****\$41.99** per pieceTrade price from **\$38.63**

Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Pack of 6 Pieces Self-Aspirating Local Anaesthetic Syringe 2.2ml C-W Type Dental Anesthetic Syringe with One Thumb Ring & Finger Rests Surgical Dental Instruments.

Dental Anesthetic Syringe High-Quality self-aspirating local anaesthetic delivery system. Self Aspirating Syringe features a threaded tip, barrel, rod/plunger with a harpoon attached that embeds itself into the rubber stopper of the carpule. The syringe handle and thumb rings are designed for a natural fit. The tip of the harpoon is designed for aspiration every time. These are performance instruments. Several models of syringes are available for local anesthetic delivery. Made with high-quality German grade Stainless Steel, 2.2 cc inch thread.

SELF ASPIRATING DENTAL SYRINGE FEATURES

PERFECT FOR ANESTHETIC CARTRIDGES: Dental Anesthetic Syringe Self-Aspirating used in conjunction with a needle and a 2.2 cc prefilled anesthetic syringe cartridge for injection of local anesthetic solutions in the oral cavity.

EFFICIENT DESIGN: dental aspirating syringes that are lightweight yet sturdy and are designed to minimize hand stress during aspiration.

ERGONOMIC: Equipped with thumb ring, finger rest and a shorter plunger length to reduce hand stress during dental aspiration.

MADE OF QUALITY STAINLESS STEEL: Forged from corrosion-resistant

8-Pcs Stainless Steel Tissue Punch Set Surgical Bur

\$40.00 per piece

Trade price from **\$33.00**
Minimum order 1 piece

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture 8-Pcs Stainless Steel Tissue Punch Set Surgical Bur for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type carry irrigation or clear fluid and debris from the operating field. Supplied as a set — the contents can be adjusted to your list.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at \$40.00, falling to \$33.00 at 1 piece — about 18% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Adson Suction Tube 6" with Finger Valve & Obturator 11 FR (3.6mm)

\$8.99 per piece

Trade price from **\$8.27**
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Adson Suction Tube 6" (15.2cm) Curved Tip with Finger Valve and Obturator 11 Fr. (3.6mm) Diameter Premium Quality Stainless Steel ENT, General Surgery and Neurosurgical Instruments.

This is a specialized device used to aspire debris, residual particles, blood and other fluids from the operating site to provide an enhanced view of the surgical field. Adson Suction Tube features a 3.6mm (11 Fr.) diameter tip for suctioning fluid collections in small areas. The tube has an angled profile to reach difficult areas, such as the maxillary antrum.

Adson Suction Tube has a finger cut-off valve to place rest the finger on and a grip handle for a better hold and an inferior port that attaches to the

suctioning machine or system with safety. This suction tube is available in several different French measurements on a 6" or 8" working length. Manufactured with premium grade stainless steel to ensure the highest quality instruments in your medical facility with druable functionality.

ADSON SUCTION TUBE FEATURES

- Crafted with 6" (15.2cm) Overall Length
- 3.6mm (11 Fr.) Diameter Tip for Accessing Narrow Cavities.
- Curved Profile to Reach Difficult Areas.
- Finger Valve Promoting Precise Suction Control.

Clutton Urethral Dilator Bougie Reusable Urology Instrument for Urethral

\$6.50 per piece

Trade price from **\$3.50**
Minimum order 50 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Clutton Urethral Dilator Bougie Reusable Urology Instrument for Urethral is a cannulae & suction we forge, grind and finish in our own Sialkot workshop. Instruments of this type carry irrigation or clear fluid and debris from the operating field. The name tells you what you are getting: full reusability — clean, autoclave and use again.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$6.50, falling to \$3.50 at 50 pieces — about 46% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

ABOUT THIS INSTRUMENT

Complete Frazier Suction Tubes Ball Tip 6PCS Surgical Instrument is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type carry irrigation or clear fluid and debris from the operating field.

Every piece is hand-finished and inspected before it leaves the bench:

joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$18.00, falling to \$10.00 at 5 sets — about 44% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Dental Anesthetic N-Tralig Intraligament Gun Syringe 1.8cc Window Barrel Premium Quality Stainless Steel Local Anesthetic Pistol Injection Dentist Tools.

Intraligament Gun Syringe is a dental device used for controlled anesthesia injections into the periodontal ligament, featuring positive ratchet action to prevent cartridge breakage. N-Tralig Intraligament syringe delivers precisely 0.2 cc of anesthesia per ratchet and offer controlled anesthesia to one tooth at a time along. Some models have a removable 30° angled barrel hub adapter utilized to facilitate injections into challenging areas of the oral cavity. Intraligament gun style syringe is designed to be used with standard dental needles, specifically 30

gauge short and extra-short. The ergonomic handle ensures secure grip, smooth injections, and minimal discomfort in oral surgeries, extractions, and restorative treatments. The robust construction enables repeated sterilization through autoclaving without compromising the quality of the product.

TRALIG INTRALIGAMENTAL ANESTHETIC DENTAL SYRINGE FEATURES

- Used for Controlled Anesthesia Injections Into Periodontal Ligament.
- Positive Ratchet Action Prevents Cartridge Breakage.
- Delivers 0.2cc of Anesthesia Per Ratchet.
- Offers Controlled Anesthesia to One Tooth at a Time.

Double Ended Uterine Dilator Set German

\$12.00 per piece

Trade price from **\$10.00**
Minimum order 2 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Double Ended Uterine Dilator Set German is a cannulae & suction we forge, grind and finish in our own Sialkot workshop. Instruments of this type carry irrigation or clear fluid and debris from the operating field. The name tells you what you are getting: two working ends on one handle, halving what you carry.

Supplied as a set — the contents can be adjusted to your list. Forging, milling,

heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$12.00, falling to \$10.00 at 2 pieces — about 17% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable

Hemorrhoid Suction Ligature Set 3 PCS

\$30.00 per piece

Trade price from \$25.00
Minimum order 1 set

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Hemorrhoid Suction Ligature Set 3 PCS is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type carry irrigation or clear fluid and debris from the operating field. Supplied as a 3-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than ours. Forging, milling, heat

treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$30.00, falling to \$25.00 at 1 set — about 17% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Intraligamental Syringe Pen Style 1.8ml Straight

\$15.99 per piece

Trade price from \$14.71
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Pen Style Intraligamental Syringe 1.8ml Straight Tip High-quality Stainless Steel Dental Implants Anesthetic Syringe.

Pen Style Intraligamental Syringe is designed for delivering local anaesthesia directly into the periodontal ligament, providing more targeted and effective pain relief for specific dental procedures. This syringe used to deliver “PDL” injections directly into the ligaments and tendons of the mouth. This pen-like device can be used in place of traditional injections, which are painful and can cause damage to surrounding tissue.

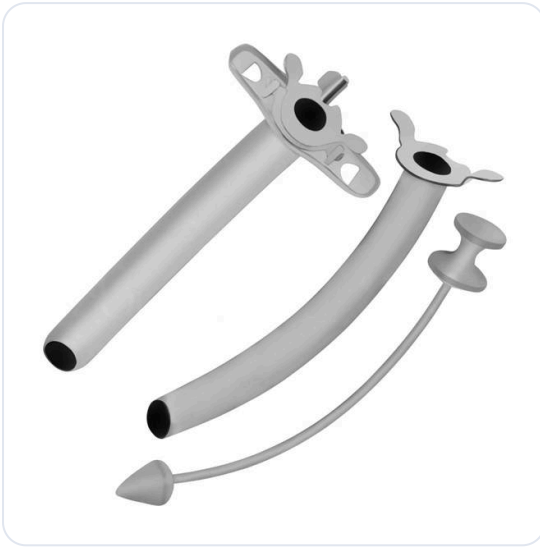

Intraligamental dental syringe can help reduce tooth decay, gum disease and other oral health issues. The dental syringe has a precise mechanism for measuring and delivering the

appropriate amount of anesthesia, ensuring the patient experiences minimal discomfort. Made of high-quality stainless steel which ensuring durability and resistance to corrosion. This dental instrument is fully autoclavable, making it easy to sterilize and maintain.

INTRALIGAMENTAL SYRINGE PEN STYLE FEATURES

- 4.5" (11.4cm) Overall Length.
- Straight Tip.
- 1.8ml Capacity.
- Squeeze Dispensing Mechanism.
- Slip-resistant Grip.
- Syringe Compatible With Regular Cartridge.
- Rust-resistant and Autoclavable.

Jackson Trachea Tube Size #0 (O.D. 5mm) Regular Length 1 1/2" (38mm) Original Model with Wing Lock Premium Quality Stainless Steel ENT Tracheostomy Surgical Instruments.

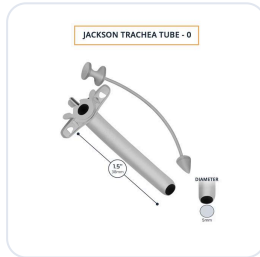

Tracheostomy Jackson tube is a durable medical device made from surgical-grade stainless steel, designed to maintain an open airway in patients with compromised breathing. Jackson mainly used for long-term tracheostomy care and airway obstruction, reducing the need for sedation during mechanical ventilation. The uncuffed design minimizes tissue irritation for non-ventilated patients, and the removable inner cannula allows for easy cleaning without removing the entire tube, thus reducing pain and

infection risks often associated with oral intubation.

Jackson Tracheal Tubes are designed for various surgical needs, available in sizes #00 to #10 with diameters from 4mm to 14mm. Features a locking mechanism to maintain placement during coughing and a pilot to prevent initial tracheal injury. Manufactured from high-quality stainless steel for long-lasting reliability. Jackson tracheostomy metal tubes are easy to clean and can be reused after sterilization.

Laborde Tracheal Dilator Stainless Steel Surgical Instrument Reusable Medical

\$40.00 per piece

Trade price from **\$27.00**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Laborde Tracheal Dilator Stainless Steel Surgical Instrument Reusable Medical is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type carry irrigation or clear fluid and debris from the operating field. The name tells you what you are getting: full reusability — clean, autoclave and use again.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$40.00, falling to \$27.00 at 10 pieces — about 32% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Poole Suction Tube Curved 16FR (5.33mm) Outer Diameter with 10mm Working End Tip Length Abdominal Surgical Diagnostic Instruments.

Poole Suction Tube is use to aspire large fluid collections during surgery, especially from the abdominal cavity and other large spaces of the body. Its principal use is to suction large collections of fluids from cavities where other tubes would struggle, such as the abdomen & cesarean procedures. Poole suction tube features a straight, bullet-like working end with multiple holes. The holes permit to drain a large volume of fluids with 8.0 to 10.0mm working end lengths. This tube is available in both straight and curved variations. It has a bottom connecting olive to attach the tube to a suction

system. Manufactured in premium grade stainless steel to ensure durability.

POOLE SUCTION TUBE FEATURES

- 10" (25.4cm) Overall Length Ensuring Deep Surgical Reach.
- 10.0mm Working Ends Promoting Deep Suction.
- Bullet-like Straight Working Tip.
- Multiple Holes for Greater Volume Uptake.
- Straight and Curved Profiles.
- Removable Outer Tube.
- Bottom Connecting Olive Ensuring Secure Attachment.
- Reusable.
- Made with Premium Quality Stainless Steel.

Poole Suction Tube Stainless Steel Surgical Aspiration

\$3.50 per piece

Trade price from **\$2.50**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Poole Suction Tube Stainless Steel Surgical Aspiration is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type carry irrigation or clear fluid and debris from the operating field.

Every piece is hand-finished and inspected before it leaves the bench:

joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$3.50, falling to \$2.50 at 10 pieces — about 29% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Rectal Hemorrhoid Suction Ligature Instrument Set

\$30.00 per piece

Trade price from **\$25.00**
Minimum order 1 set

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Rectal Hemorrhoid Suction Ligature Instrument Set is a cannulae & suction we forge, grind and finish in our own Sialkot workshop. Instruments of this type carry irrigation or clear fluid and debris from the operating field. Supplied as a set — the contents can be adjusted to your list.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$30.00, falling to \$25.00 at 1 set — about 17% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Saliva Ejector Suction 6mm Short Handpiece Tip 45 Degree Angled

\$9.99 per piece

Trade price from **\$9.19**
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Oral Surgery Saliva Ejector Suction 6mm Short Handpiece 45 Degree Angled Tip 5" (12.7cm) Long with 2" (5.1cm) Working End – High Quality Strainless Steel Surgical Aspirator for Dental Implant Surgery.

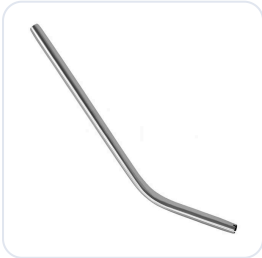

Dental Oral Saliva Ejector Suction Handpiece with a 6mm tip is engineered for effective moisture control in dental procedures. Its compact design enables easy maneuverability, and the 45-degree angled tip enhances suction efficiency while improving patient comfort. This handpiece is compatible with standard suction tubing and easily connects for immediate operation.

The smooth metal surface allows for easy sterilization and hygiene maintenance. Ideal for use during

cleanings, fillings, and minor surgical procedures, it minimizes fluid accumulation and keeps the working field dry. Manufactured with German-grade precision, this tool is reliable for daily clinical use. The vented tip effectively prevents grabbing of the tongue, cheek, and soft tissue, ensuring patient comfort and minimal irritation. Made from durable, autoclavable materials, is perfect for dentists, hygienists, and oral surgeons seeking reliable, hygienic fluid evacuation.

SALIVA EJECTOR SUCTION TIP FEATURES

- 5" (12.7cm) Overall Length.
- 2" (5.1cm) Working End
- 45-degree 6mm Angled Tip for Efficient Saliva and Fluid Removal.

Premium Quality Self-Aspirating Dental Syringes 1.8ml C-W Type Anesthetic One Thumb Ring with Finger Rests Stainless Steel Surgical Dental Instruments.

Self-Aspirating Dental Syringes (1.8ml C-W Type) are stainless steel instruments designed for local anesthetic injection in the oral cavity, minimizing intravascular injection risks. Their self-aspirating mechanism uses negative pressure to confirm the needle's position, featuring a thumb ring, finger rest, and plunger to reduce hand stress. Made from autoclavable, corrosion-resistant stainless steel, these syringes are suitable for general dentistry and oral surgery requiring precise anesthesia administration.

SELF ASPIRATING DENTAL SYRINGE FEATURES

PERFECT FOR ANESTHETIC

CARTRIDGES: Aspirating syringe dental used in conjunction with a needle and a 1.8cc prefilled anesthetic syringe cartridge for injection of anesthetic solutions in the oral cavity.

EFFICIENT DESIGN: Aspirating dental syringes that are lightweight yet sturdy and are designed to minimize hand stress during aspiration.

ERGONOMIC: Equipped with thumb ring, finger grip and a shorter plunger length to reduce hand stress during dental aspiration.

MADE OF QUALITY STAINLESS STEEL:

Forged from corrosion-resistant surgical stainless steel. These popular

ABOUT THIS INSTRUMENT

This is our pattern of Tracheal Dilator Stainless Steel Tracheostomy Dilator, made for general and specialty operating theatre use. Instruments of this type carry irrigation or clear fluid and debris from the operating field.

We work the instrument by hand at the finishing stage — box locks, hinges and

tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$25.00, falling to \$21.00 at 10 pieces — about 16% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Von Eicken Antrum Cannula 6" Long Curved 2.5mm Bulbous Tip

\$39.99 per piece

Trade price from \$36.79
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Von Eicken Antrum Cannula 6" (15.2cm) Long Curved 2.5mm Bulbous Tip with Luer Lock/Cut-Off Hole Premium Quality Stainless Steel Nasal Suction Pathological Rhinology Instruments.

Killian (Von Eicken) Antrum Cannula with Luer Lock/Cut-Off is a specially designed tool used in the examination and analysis of the nasal cavity in the field of pathology. Antrum Cannula features a curved shaft for accurate aspiration and sampling of the desired nasal mucosa. Bulbous tip of sinus suction cannula allows an atraumatic suction dissection or removal of synechia.

The tapered tip facilitates controlled irrigation or aspiration while minimizing trauma to surrounding tissues. Surgeons connect a syringe with fluid

to the cannula with the help of a hub, which makes an easy connection to the irrigation syringe. V. Eicken antrum cannula is available with a variety of different shaft curvatures to suit surgical needs. The curved shaft not only aids in accurate tissue sampling but also enhances overall surgical precision. Crafted from high-quality stainless steel, this instrument is durable, corrosion-resistant. Antrum Cannula is suitable for repeated sterilization to ensure longevity and reliability in any medical environment.

VON EICKEN ANTRUM CANNULA FEATURES

- Crafted with 6" (15.2cm) Overall Length.
- Long Curved Shaft Profile.
- 2.5mm Bulbous Tip.

Yankauer Suction Tube Handle Suction Tip Connector

\$5.00 per piece

Trade price from **\$3.00**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture Yankauer Suction Tube Handle Suction Tip Connector for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type carry irrigation or clear fluid and debris from the operating field. The steel is heat treated and passivated for corrosion resistance, then each

instrument is checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at \$5.00, falling to \$3.00 at 10 pieces — about 40% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.
