Set of 10 (XS, S,M, L, XL) Stainless Steel Dental Impression Trays Solid Upper & Lower Denture Instruments.

Dental impression trays are special devices that dentists use to place the impression material in to get an impression from the teeth and alveolar processus. These trays use to carry the material inside the mouth plus control the whole impression process. These are an essential part of several procedures in dentistry i.e. for diagnostic reasons, impressions for use in prosthetics for fixed or mobile restorations, impressions in oral surgery, impressions in orthodontics, implantology, maxillofacial surgery and many other dentistry disciplines. We have Perforated and Non-Perforated metal trays for the traditional dental putty to create a cast of the patient's mouth.

Pack of 10 German Grad Stainless Steel Crile Retractor 4.5 Inches (11.4cm) Double Ended Stainless Steel Medical Orthopedic Surgical Instruments

Crile Retractor is a top-notch hand-held surgical tool that is mostly utilized to hold back organs or tissues underneath the surgical sites. It has a whole body and right-angle blades to stabilize the proper position once inserted for the incision. The Crile Retractor features double-ended, curved blades that can be used for a wide range of procedures.

The overall 4 1/2-inch size makes it an ideal tool for retracting small or delicate tissues, with a comfortable handle that allows for a secure grip. With its versatility and precision, the crile retractor is a valuable addition to any surgical setting. The smaller models are used on the surface to hold back skin and tissue, while the larger ones are designed to retract muscles, organs and bones in deeper cavities.

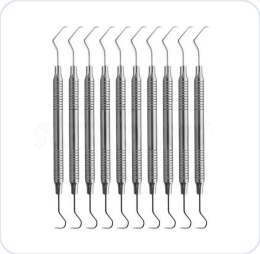

CRILE THYROID RETRACTOR FEATURES:

- Double Ended Curved Blades: 4 X 15 mm & 6 X 20 mm.
- Smooth Flat Handle for a Secure Grip.
- Corrosion-Resistant.
- Reusable.
- Crafted with German Grade Stainless Steel.

10 Pcs Graves Vaginal Speculum Extra Large

$129.99 per piece

Trade price from **$119.59**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 10 Graves Vaginal Speculum Extra Large 15.0cm x 4.0cm Premium Quality Stainless Steel Pelvic Examination Gynecology Surgical Instrument

Graves Vaginal Speculum is a gynecological instrument used for performing pelvic examinations, pap smears, and examining the cervix. It is a double-blade duckbill speculum inserted with the blades closed. The blades are then opened by an external lever and screw. The Graves Speculum has wider blades than the Pederson Speculum. The practitioner can best determine which type and size speculum is most appropriate for the patient. Graves Speculum is most commonly utilized for routine and in-office minor procedures.

GRAVES VAGINAL SPECULUM FEATURES

GRAVES SPECULA/GRAVES SPECULUM: This Vaginal Speculum is used to observe inside the vagina and/or perform procedures when necessary. This item is ideal for hospitals and specialty clinics. Graves vaginal speculum features a slightly wider traditional blade design
EASY TO USE: The Graves Speculum is user-friendly and easy to use. The design includes a broad grip handle for a secure grip on the instrument.
ADJUSTABLE: The smooth & lightweight design adds to the comfort of the surgeon. Moreover, this Speculum comes with a screw lock that fixes the instrument in different positions. This allows the surgeon to

Pack of 10 Halsted Mosquito Forceps 5″ (12.7cm) Straight & Curved Serrated Jaws Hemostat Clamps Locking Forceps High-Quality Stainless Steel Surgical Dental Instruments Tool

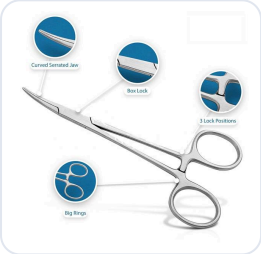

Halsted Mosquito Hemostatic Forceps are versatile, ratcheted, finger ring forceps used to clamp off smaller vessels that control the flow of blood and other clamping tasks in general surgical procedures. The ratcheted finger ring handle of Halstead Forceps provides a secure, locking grip to halt blood flow. A toothed variation is available for grasping delicate tissue in skin grafting, biopsies, or ophthalmologic procedures. They are not appropriate for use with large vessels or arteries.

Mosquito forceps are known for their fine tips, and short, fully serrated jaws. They are available curved or straight. The standard length for this instrument is 5 inches, although does offer some with a length of 5-1/2 inches. Halsted Mosquito Forceps are very similar to Hartmann Mosquito Forceps, however, the Hartmann style is finer and more delicate.

Pack of 10 Halsted Mosquito Forceps 5" (12.7cm) Straight Serrated Jaws Hemostat Clamps Locking Forceps High-Quality Stainless Steel Surgical Dental Instruments Tool

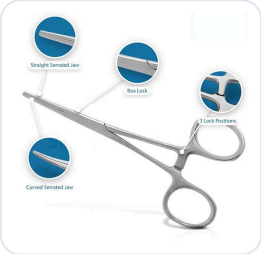

Halsted Mosquito Hemostatic Forceps are versatile, ratcheted, finger ring forceps used to clamp off smaller vessels that control the flow of blood and other clamping tasks in general surgical procedures. The ratcheted finger ring handle of Halstead Forceps provides a secure, locking grip to halt blood flow. A toothed variation is available for grasping delicate tissue in skin grafting, biopsies, or ophthalmologic procedures. They are not appropriate for use with large vessels or arteries.

Mosquito forceps are known for their fine tips, and short, fully serrated jaws. They are available curved or straight. The standard length for this instrument is 5 inches, although does offer some with a length of 5-1/2 inches. Halsted Mosquito Forceps are very similar to Hartmann Mosquito Forceps, however, the Hartmann style is finer and more delicate.

HALSTED MOSQUITO FORCEPS FEATURES

10 PCS HEMOSTAT FORCEPS SET: 5" straight mosquito forceps are ideal for personal or professional use as fishing forceps or in electronic repair, crafting, medical, model building, or any operation that requires a delicate touch. The large finger loops, precision tips, and serrated self-locking jaws are ideal

10 Pcs Pederson Vaginal Speculum Set – Large

$94.99 per piece

Trade price from **$87.39**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 10 Pederson Vaginal Speculum Large Premium Quality Stainless Steel Pelvic Examination Gynecology Surgical Instrument

Pederson vaginal speculum is a gynecological instrument used for performing pelvic examinations, pap smears, and examining the cervix. It is a double-blade duckbill speculum inserted with the blades closed. The blades are then opened by an external lever and screw. The blades of the Pederson speculum are more narrow than the blades of the graves speculum. The practitioner can best determine which type and size speculum is most appropriate for the patient. Pederson speculum is most commonly utilized for routine and in-office minor procedures.

PEDERSON VAGINAL SPECULUM FEATURES:

PEDERSON SPECULA/PEDERSON SPECULUM: The Pederson vaginal speculum is used to observe inside the vagina and/or perform procedures when necessary. This item is ideal for hospitals and specialty clinics, with its slightly thinner traditional blade, is particularly useful with young or nulliparous women.
EASY TO USE: The Pederson speculum is user-friendly and easy to use. The design includes a broad grip handle for a secure grip on the instrument.
ADJUSTABLE: The smooth & lightweight design adds to the comfort of the surgeon. Moreover, this Speculum comes with a screw lock that

100 Pairs EMT Heavy Duty Bandage Shears Set 7.25″

$119.99 per piece

Trade price from **$110.39**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 100 Pairs Assorted Rainbow Colors Heavy Duty EMT EMS Bandage Scissors 7.25″ (**18.4 cm**). These Top Quality Utility Trauma Shears Set has Stainless Steel Blades and Plastic Handles considered perfect First Aid Paramedic Nursing tool for fast removal of clothing from patients, dressings, and other restrictive items

EMT EMS BANDAGE SHEARS FEATURES

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.

SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable

11 Assorted Orthodontic Dental Set

$77.24 per piece

Trade price from **$71.06**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

11 Assorted Orthodontic Dental Set is an instrument we forge, grind and finish in our own Sialkot workshop. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for action and finish.

Listed at $77.24, falling to $71.06 at 21 pieces - about 8% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Pack of 11 Pcs Heavy Duty Lister Bandage Scissor & Trauma Shears Assorted Rainbow Colors. Ideal for EMS, Nurse, Medic, Police and Firefighter. Strong, Sharp and reusable perfect EMS supplies and gift idea.

EMT BANDAGE SCISSORS SHEARS FEATURES

HEAVY DUTY CONSTRUCTION: EMT Shears feature high-quality stainless steel blades with razor sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel, but also the blades have a non-stick surface which resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics or even a penny!
PREMIUM QUALITY PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are designed to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to

11 Pcs Starter Rubber Dam Kit

$21.99 per piece

Trade price from **$20.23**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

11 Pcs Starter Rubber Dam Kit with Frame Ainsworth Punch Plier, Brewer Rubber Dam Forceps & Clamps Premium Quality Endodontic Dental Instruments.

Dental dam or rubber dam is used in dentistry to isolate the operative site (one or more teeth) from the rest of the mouth. Rubber Dam used mainly in endodontic, fixed prosthodontics (crowns, bridges), and general restorative treatments. Its purpose is both to prevent saliva from interfering with the dental work (e.g. contamination of oral micro-organisms during root canal therapy, or to keep filling materials such as composite dry during placement and curing), and to prevent instruments and materials from being inhaled, swallowed or damaging the mouth. In dentistry, the use of a rubber dam is sometimes referred to as isolation or moisture control. Rubber dam also protects the patient's airway from any materials which may fall into it during treatment.

Our 11 Pcs starter rubber dam kit comprises of all necessary tools used by dental professionals & Students. Made of medical grade stainless steel ensures high quality and performance.

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 12 Adson Bayonet Dressing Forceps 8.25" (21cm) with Serrated Tips Stainless Steel ENT Otology Surgical Instruments

Adson Bayonet Forceps are thumb forceps used for holding dressing materials such as cotton and gauze during surgical procedures, changing dressings, or packing wounds. They have a wide thumb grasp for increased precision and control. The bayonet style handle allows these forceps to be used in areas with a compromised view. The serrations on the handles give a strong grip for efficient and swift packing. In addition, the serrations prevent slips during delicate movements. Moreover, the bayonet design gives a more convenient vision of the jaws for accuracy. These ear forceps made from the German grade stainless steel that you can depend on for years of efficient performance.

ADSON BAYONET DRESSING FORCEPS FEATURES

- Bayonet Shaft Design For Optimal Visualization.
- Long Serrated Jaws For Better Access & Grip
- Serrated Handles For Non-slip Grips.
- Lightweight
- Made with High Quality Stainless Steel

PACKAGE INCLUDE:

- 12 Pcs Adson Bayonet Dressing Forceps 8.25" (21cm) – Serrated Tips

$17.99 per piece

Trade price from **$16.55**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 12 Pcs Dental Mouth Mirror #5 with Handle 6.5" (16.5cm) Stainless Steel Dentist Tool for Teeth Cleaning Inspection ENT Surgical Dental Instruments.

A mouth mirror is a small, handheld dental instrument used by dentists and dental hygienists during dental examinations and procedures. It typically consists of a metal handle and a circular mirror attached at an angle. The mirror allows the dental professional to view the teeth, gums, and other oral structures from various angles and positions inside the mouth, helping them to identify problems such as cavities, tartar buildup, gum disease, and other issues. The mirror also aids in providing better visibility and access to areas that may be difficult to see directly. Additionally, it can be used to retract soft tissues and improve lighting within the oral cavity during procedures.

DENTAL MOUTH MIRROR FEATURES:

- Overall Length 6.5" (16.5cm).
- Plain Surface Mirror.
- Detachable Non-Slip Grip Handle.
- Perfect of Intraoral Examination, Diagnostic and Treatment Procedures.
- Can Be Sterilized and Reusable.
- Made With High Quality Stainless Steel.

Pack of 12 Pcs Straight & Curved Iris Scissors 3.5" & 4.5" German Grade Stainless Steel Dental Surgical Veterinary Instruments

Iris Scissor is a specialized instrument that was originally used to dissect the delicate tissues of the eye during ocular surgeries. It is now commonly preferred by surgeons for sharp dissection of sensitive tissue in Neuro, Plastic and general surgeries. Iris Scissor comes with pointy tips that are ideal for sharp dissection of tissues. Available in Straight and Curved variations.

IRIS SCISSORS FEATURES

IRIS SCISSORS: The straight, curved blades are designed for clean dissection and deep tissue access. Iris Scissors have adjustable screw, long body shank with big ring handles. They are great for sutures + dissection studies as well as for many other procedures like ophthalmic, often used in emergency rooms and for OB/GYN and dermatologic procedures as well.
STAINLESS STEEL CONSTRUCTION: The german grade stainless steel construction ensures maximum durability and dependability. You can reuse these scissors over time as they will not bend or tarnish on you. High quality stainless steel, excellent international quality standard.
ULTRASONIC CLEANED + AUTOCLAVABLE: To add even more value to our durable, long lasting iris scissors, they are ultrasonic cleaned and fully autoclavable. You can reuse these durable instruments for many

12 Pcs Jackson Trachea Tubes Set Size #00 – #10

$139.99 per piece

Trade price from **$128.79**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 12 Jackson Trachea Tube Size #00 (O.D. 4mm) – #10 (O.D. 10mm) Regular Length, Original Model with Wing Lock Premium Quality Stainless Steel ENT Tracheostomy Surgical Instruments.

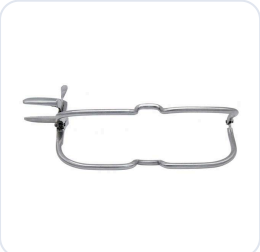

Tracheostomy Jackson Tube is a durable medical device made from surgical-grade stainless steel, designed to maintain an open airway in patients with compromised breathing. Jackson mainly used for long-term tracheostomy care and airway obstruction, reducing the need for sedation during mechanical ventilation. The uncuffed design minimizes tissue irritation for non-ventilated patients, and the removable inner cannula allows for easy cleaning without removing the entire tube, thus reducing pain and infection risks often associated with oral intubation.

The 12 piece Jackson Trachea Tube set includes reusable metal tubes in sizes #00 to #10, each comprising an outer cannula, an inner cannula, and an obturator. This set accommodates various patient anatomies and allows for progression to larger sizes as a stoma matures. Manufactured from high-quality stainless steel for long-lasting reliability. Jackson tracheostomy metal tubes are easy to clean and can be reused after sterilization.

JACKSON TRACHEA TUBES FEATURES

- Crafted with Regular Length.
- Original Model with Wing Lock.

Pack of 12 Jennings Mouth Gag Set 6.5" (16.5cm) Ratchet Mouth Opening Retractor German Grade Stainless Steel Surgical Dental Anesthesia Tonsillectomy Instrument.

Jenning mouth opening retractor is a specialized device that Dentists, ENT & Maxillofacial surgeons widely use for mouth opening when working in the oral cavity or to force the mouth open when it cannot open naturally because of forwarding dislocation of the jaw joint's intraarticular cartilage pad. Ratchet keeps the mouth open to the desired degree and create upper and oral pharyngeal space, and stabilize the patient's head during the surgical procedure or tonsillectomy.

Jennings dental mouth gag features inward wire projections design that easily accommodates to the face contour. The ergonomically designed plier grip handle prevent the slippage as it includes a ratchet lever for adjusting the mouth's aperture. Jennings mouth gag available in various sizes to accommodate pediatric and adult patients.

JENNINGS DENTAL MOUTH GAG FEATURES

- Inward Wire Projections to Hold the Palate & Tongue.
- Ratcheted System to Control the Degree of Aperture.
- Non-Slip Pressing Lever for Mouth Opening
- Ergonomic Grip Handle Ensuring Maximum Control.

12 Pcs Rainbow Littauer Spencer Stitch Scissors 4.5"

$59.99 per piece

Trade price from **$55.19**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

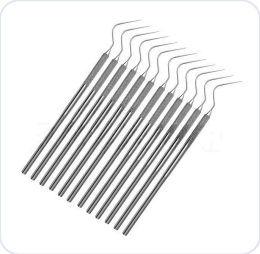

Pack of 12 Littauer Suture Stitch Scissors 4.5" Size Multi Titanium Rainbow Stitch Removal Scissors with Hook Stainless Steel Medical Surgical Veterinary Instruments

Spencer Stitch Scissors are primarily used for suture removal. These scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. The hook also holds the suture so it does not slip off the blade of the scissors prior to cutting. This pair of Rainbow Spencer Stitch Scissors has a 4.5" length, with smaller, more delicate tips that are perfect for removing smaller sutures. This product is straight with smooth, blunt/blunt tips. The stainless steel construction and OR quality make the Suture Scissors ideal for hospitals and specialty clinics.

RAINBOW SPENCER STITCH SCISSORS FEATURES

4.5" RAINBOW SPENCER SUTURE SCISSORS: The suture scissors are primarily used for suture removal for medical, surgical and veterinary applications. They measure 4.5" and have smaller tips designed to perfectly remove smaller sutures.
SMALL HOOK ON BLADE FOR EASY OPERATION: These suture scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. This effective design ensures that the suture does not slip off the scissors prior to cutting.

12 Pcs Self-Aspirating Dental Anesthetic Syringe Set CW Type 1.8CC

$76.99 per piece

Trade price from **$70.83**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 12 Self-Aspirating Dental Syringes 1.8ml C-W Type Anesthetic One Thumb Ring with Finger Rests Premium Quality Stainless Steel Surgical Dental Instruments.

Self-Aspirating Dental Syringes (1.8ml C-W Type) are stainless steel instruments designed for local anesthetic injection in the oral cavity, minimizing intravascular injection risks. Their self-aspirating mechanism uses negative pressure to confirm the needle's position, featuring a thumb ring, finger rest, and plunger to reduce hand stress. Made from autoclavable, corrosion-resistant stainless steel, these syringes are suitable for general dentistry and oral surgery requiring precise anesthesia administration.

SELF ASPIRATING DENTAL SYRINGE FEATURES

PERFECT FOR ANESTHETIC CARTRIDGES: Aspirating syringe dental used in conjunction with a needle and a 1.8cc prefilled anesthetic syringe cartridge for injection of anesthetic solutions in the oral cavity.
EFFICIENT DESIGN: Aspirating dental syringes that are lightweight yet sturdy and are designed to minimize hand stress during aspiration.
ERGONOMIC: Equipped with thumb ring, finger grip and a shorter plunger length to reduce hand stress during dental aspiration.
MADE OF QUALITY STAINLESS STEEL: Forged from corrosion-resistant surgical stainless steel. These popular

$3.00 per piece

Trade price from **$2.00**
Minimum order 25 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

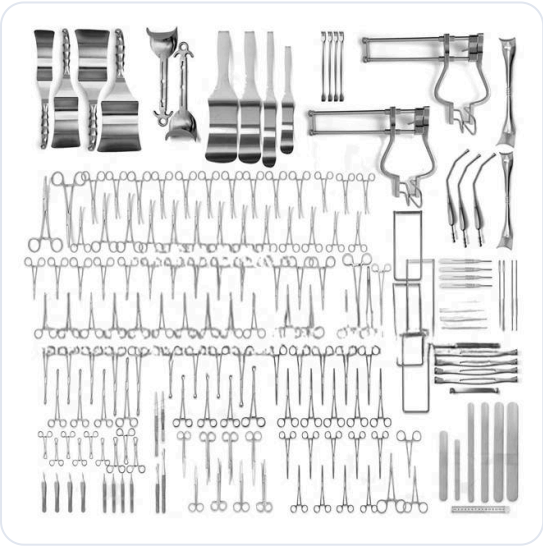

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

128Hz Stainless Steel Tuning Fork Reflex Hammer Balancing — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $3.00, falling to $2.00 at 25 pieces — about 33% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

129 Pcs Bowel Resection and Basic Laparotomy Instruments Set

$409.99 per piece

Trade price from **$377.19**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

129 Pcs Bowel Resection and Basic Laparotomy Set Stainless Steel Abdominal Surgery Pack Kit. This set includes everything designed for a surgical incision into the abdominal cavity, for diagnosis or in preparation for major surgery.

A laparotomy is a surgical incision (cut) into the abdominal cavity. This operation is performed to examine the abdominal organs and aid diagnosis of any problems, including abdominal pain. In many cases, the problem – once identified – can be fixed during the laparotomy. In other cases, a second operation is required. Another name for laparotomy is abdominal exploration.

Small bowel resection is used to treat: A blockage in the intestine caused by scar tissue or congenital (from birth) deformities. Bleeding, infection, or ulcers caused by inflammation of the small intestine from conditions such as Crohn disease and Cancer.

BOWEL RESECTION + BASIC LAPAROTOMY SET PACK INCLUDES

Bowel Resection Set

- 6-Piece HALSTED Mosquito Forceps 5″ Curved
- 2-Piece ROCHESTER Carmalt Forceps 8″ Straight
- 1-Piece WILLIAMS Tissue Forceps 6-1/2″

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

13 PCS Minor Surgical Instrument Set is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table. Supplied as a 13-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than ours. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at $17.00, falling to $15.00 at 1 set — about 12% off the single-unit price. Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

13 Pcs Stainless Steel Basic Minor

$12.00 per piece

Trade price from **$9.00**
Minimum order 1 set

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

13 Pcs Stainless Steel Basic Minor — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $12.00, falling to $9.00 at 1 set — about 25% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

$24.00 per piece

Trade price from **$21.00**
Minimum order 10 sets

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

13 Pcs Stainless Steel Minor Surgery Kit Sets is an instrument set we forge, grind and finish in our own Sialkot workshop. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table. Supplied as a 13-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than ours. Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $24.00, falling to $21.00 at 10 sets — about 12% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

13 PCS Stainless Steel Surgical Practice Instrument is an instrument set we forge, grind and finish in our own Sialkot workshop. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $8.00, falling to $4.00 at 1 set — about 50% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

14 Pcs Ingrown Toenail Removal Surgery Set

$89.99 per piece

Trade price from **$82.79**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 14 Pcs Toenail Removal Surgery Set Stainless Steel Ingrown Nails Removal Podiatry Surgical Instruments Kit

An ingrown toenail occurs when the top corner or side of your toenail grows into the flesh next to it. Ingrown toenails are common in large or great toes. An ingrown big toenail is a common problem resulting from various etiologies including poorly fitted footwear, nails trimming, obesity and hyperhidrosis.

The surgical procedure is used for lateral nail removal with the greatest success. It limits the excision and amount of nail removed, leaving less area of tender nail bed exposed. Our Toe Nail Removal Set comprises of all the necessary tools to perform the toenail surgery procedure. All podiatry tools are made of surgical grade stainless steel used by professionals.

TOENAIL REMOVAL SURGERY SET INCLUDES

Waqar International's Toe Nail Removal Pack or Toe Nail Surgery Pack contains;

145 Pcs Abdominoperineal Bowel Resection Basic Laparotomy Set

$419.99 per piece

Trade price from **$386.39**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

High Quality Stainless Steel 145 Instruments Huge Pack of Abdominoperineal Resection, Bowel Resection and Basic Laparotomy Set Kit. This combo set includes everything designed for a surgical incision into the abdominal cavity, for diagnosis or in preparation for major surgery.

A laparotomy is a surgical incision (cut) into the abdominal cavity. This operation is performed to examine the abdominal organs and aid diagnosis of any problems, including abdominal pain. In many cases, the problem – once identified – can be fixed during the laparotomy. In other cases, a second operation is required. Another name for laparotomy is abdominal exploration. Abdominoperineal resection surgery used to remove the anus, the rectum, and part of the sigmoid colon through an incision made in the abdomen.

Small bowel resection is used to treat: A blockage in the intestine caused by scar tissue or congenital (from birth) deformities. Bleeding, infection, or ulcers caused by inflammation of the small intestine from conditions such as Crohn disease and Cancer. Manufactured from medical grade stainless steel for long-term use. Highly polished finish for aesthetic and corrosion resistance.

ABDOMINOPERINEAL, BOWEL RESECTION + BASIC LAPAROTOMY SET PACK INCLUDES

15 Pcs Basic Rubber Dam Kit

$23.99 per piece

Trade price from **$22.07**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

15 Pcs Basic Rubber Dam Kit with Frame, Ivory Light and Ainsworth Rubber Dam Punch Premium Quality Endodontic Dental Instruments.

Dental dam or rubber dam is used in dentistry to isolate the operative site (one or more teeth) from the rest of the mouth. Rubber Dam used mainly in endodontic, fixed prosthodontics (crowns, bridges), and general restorative treatments. Its purpose is both to prevent saliva from interfering with the dental work (e.g. contamination of oral micro-organisms during root canal therapy, or to keep filling materials such as composite dry during placement and curing), and to prevent instruments and materials from being inhaled, swallowed or damaging the mouth. In dentistry, the use of a rubber dam is sometimes referred to as isolation or moisture control. Rubber dam also protects the patient's airway from any materials which may fall into it during treatment.

Our 15 Pcs basic rubber dam kit comprises of all necessary tools used by dental professionals. Made of medical grade stainless steel ensures high quality and performance.

15 PCS BASIC RUBBER DAM KIT INCLUDED

- 1 Ivory Light Weight Forceps
- 1 Rubber Dam Frame 6"
- 1 Ainsworth Rubber Dam Punch 6.5"
- 1 Rubber Dam Clamp #00 for Anterior
- 1 Rubber Dam Clamp #27 for Molars (General)

Pack of 15 Pcs Sinus Lift Instruments Set Premium Quality Stainless Steel Maxillary Sinus for Dental Implant Placement

Sinus Lift instruments used during a sinus lift implantology procedure to separate/reflect the Schneiderian membrane from the maxillary bone and to elevate the membrane. This sinus lift Set helps dental professionals to elevate the sinus membrane and create space for bone grafting in the maxillary sinus, ultimately allowing for the placement of dental implants in patients with insufficient bone height. These instruments are specifically designed to carefully separate and lift the sinus membrane without perforating it, while also preparing the site for bone grafting. The use of specialized instruments effectively reduces the likelihood of complications such as membrane perforation or graft displacement. Made of high-quality stainless steel, are designed to last and can withstand repeated use after proper sterilization.

15 SINUS LIFT INSTRUMENTS SET INCLUDES

- 1 Langenbeck Retractor
- 1 Olsen Needle Holder 5.5″ (14cm) Gold Rings
- 1 Iris Scissors Curved. 4.5″ (11.4cm) Gold Rings
- 1 7A Elevator
- 1 U of Minnesota Retractor

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

15 Pcs Starter Rubber Dam Kit with Frames, Ainsworth Punch, Dental Invory Lightweight Rubber Dam Forceps & Stokes Rubber Dam Clamp Premium Quality Endodontic Dental Instruments.

Dental dam or rubber dam is used in dentistry to isolate the operative site (one or more teeth) from the rest of the mouth. Rubber Dam used mainly in endodontic, fixed prosthodontics (crowns, bridges), and general restorative treatments. Its purpose is both to prevent saliva from interfering with the dental work (e.g. contamination of oral micro-organisms during root canal therapy, or to keep filling materials such as composite dry during placement and curing), and to prevent instruments and materials from being inhaled, swallowed or damaging the mouth. In dentistry, the use of a rubber dam is sometimes referred to as isolation or moisture control. Rubber dam also protects the patient's airway from any materials which may fall into it during treatment.

Our 15 Pcs starter rubber dam kit comprises of all necessary tools used by dental professionals. Made of medical grade stainless steel ensures high quality and performance.

15 PCS STARTER RUBBER DAM KIT INCLUDED

- 1 Pc Ivory Light Rubber Dam Clamp Forceps 6.7″
- 1 Pc Ainsworth Rubber Dam Punch 6.5″

$320.00 per piece

Trade price from **$317.00**
Minimum order 1 set

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

16 PCS Plastic Surgery Instrument Set Breast Augmentation is an instrument set we forge, grind and finish in our own Sialkot workshop. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table. Supplied as a 16-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than ours. We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $320.00, falling to $317.00 at 1 set — about 1% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

ABOUT THIS INSTRUMENT

We manufacture 16PCS Stainless Steel Breast Augmentation Instrument Set for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table. Supplied as a 16-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than ours. Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $320.00, falling to $317.00 at 1 set — about 1% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

$26.99 per piece

Trade price from **$24.83**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Rubber Dam Kit Starter of 18 Pcs with Frame Punch Clamps Dental Instruments

Dental dam or rubber dam is a thin, 6-inch (150 mm) square sheet, usually latex or nitrile, used in dentistry to isolate the operative site (one or more teeth) from the rest of the mouth. It is used mainly in endodontic, fixed prosthodontics (crowns, bridges), and general restorative treatments. Its purpose is both to prevent saliva from interfering with the dental work (e.g. contamination of oral micro-organisms during root canal therapy, or to keep filling materials such as composite dry during placement and curing), and to prevent instruments and materials from being inhaled, swallowed or damaging the mouth. In dentistry, the use of a rubber dam is sometimes referred to as isolation or moisture control.

RUBBER DAM KIT INCLUDED

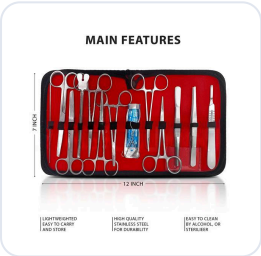

- 14 Pcs Rubber Dam Clamps # – 00 – 0 – 1 – 2 – 2A – 7 – 8 – 8A – 9 – 13A – 14 – 14A – 212 – 202
- 2 Pcs Rubber Dam Frames
- 1 Pc Ainsworth Plier Punch Plier
- 1 Pc Ivory Stoke Forceps Clamp Plier

Medical Grade Stainless Steel | Guaranteed High Quality Instrument both in Material & Function

BENEFITS OF USING RUBBER DAM:

Using a rubber dam for dental procedures can provide multiple advantages.

197-Piece Laparotomy Surgical Instruments Set

$250.00 per piece

Minimum order 10 sets

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

197-Piece Laparotomy Surgical Instruments Set is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table. Supplied as a set — the contents can be adjusted to your list.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $250.00. Minimum order 10 sets, and the price moves with quantity.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

✓ OEM / private-label marking

Pack of 2 Full Gold Halsted Hemostat Mosquito Forceps 5" (12.7cm) Straight Serrated Jaws Full Gold Plated Finish Hemostat Locking Clamp Forceps High-Quality Stainless Steel Surgical Dental Instruments Tool.

Waqar International brings new collection of full gold Halsted Mosquito forceps, they are primarily used to clamp small blood vessels and control bleeding during surgical procedures. Halsted hemostat used to grasp and manipulate delicate tissues. These forceps are characterized by their long, thin jaws that taper to a fine tip and are often serrated for a firm grip with minimal tissue trauma. The halsted mosquito locking clamp is ideal for small animal surgeries and certain dental procedures requiring fine manipulation. Can also use to extract splinters, debris, or small objects.

Halsted forceps, with a fully serrated jaw and 5-inch working length, features ratcheted handles that can be locked in multiple positions for constant pressure. Forged from durable stainless steel and have large finger loops with serrated jaws that are ideal for grasping and holding small objects securely. Easy to clean and store in any tackle box, backpack, belt, pocket + other outdoor gear.

FULL GOLD HALSTED MOSQUITO FORCEPS FEATURES

- 5" (12.7cm) Overall Length.
- Fully Gold Plated.
- Fine Serrated Jaws for Firm Grip and Minimal Tissue Trauma.

$74.99 per piece

Trade price from **$68.99**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 2 Gruenwald Nasal Forceps 4.5" (11.3cm) Shaft Through-Cutting 2.5mm x 12mm Straight and 45° Upward Angled Oval Bite With Gold Plated Wide Ring Handle Premium Quality Stainless Steel ENT Surgical Instruments.

Gruenwald nasal forceps are specialized surgical instruments used in ENT procedures to cut and remove soft tissue, nasal polyps, cartilage, or bone fragments from the nasal cavity and sinuses. They are applied in Functional Endoscopic Sinus Surgery (FESS) for resecting diseased tissue, rhinoplasty and septoplasty for trimming obstructions, and turbinate reduction to improve airflow.

Two-piece Gruenwald nasal forceps set includes straight jaws for direct cutting alignment in the anterior nasal cavity and 45-degree upward jaws for an angled approach to enhance visibility and reach in deeper recesses. Wide finger ring gold plated handles provide exceptional control and comfort, reducing hand fatigue during prolonged procedures. Made with premium-grade stainless steel, these forceps are sterilized and can be reused.

GRUENWALD NASAL PUNCH FEATURES

- 4.5" (11.4cm) Shaft.
- Straight and 45-Degree Upward Angle 2.5×12mm Oval Bite
- Through-cutting Jaws for Precise Excision of Nasal Cartilage, Soft Tissue, and Bony Fragments.
- Angled Bayonet-style Shaft and Slender Punch Mechanism.

2 Pcs Mosquito Hemostat Locking Forceps 3.5" (8.9cm) Straight Curved Set – Stainless Steel Multipurpose Ideal Hemostats for Nurses, Fishing Forceps, Crafts and Hobby

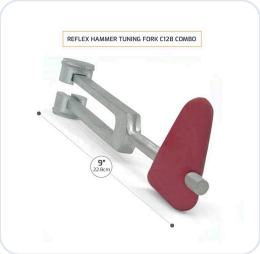

Hartmann Mosquito forceps feature fine tips, short, and fully serrated jaws, these Hartmann Mosquito Forceps can be used as a clamping instrument to halt blood flow so that cauterization or ligation can be performed. Hartmann Mosquito Forceps are used as both a hemostat and for fine tissue dissection in shallow wounds and procedures. They are also used for holding small, fine sutures. Hartmann Mosquito Forceps are shorter and heavier than Halsted Mosquito Forceps.

2 PCS MOSQUITO FORCEPS SET: 3.5" Straight Curved Hartman Mosquito Forceps are used as both a hemostat and for blunt tissue dissection. This Curved forceps are only 3.5" long, making them easy to work with in tight spaces. Ratcheted handles can be locked in multiple positions in order to maintain variable levels of constant pressure. Delicate hemostats have thin jaws with fine serrations

THREE LOCKING POSITIONS: The high grip and locking ratchet mechanism reduce the possibility of the vessels or collection of tissues sliding or moving during use. This hemostat has handles that can be held in place by a locking mechanism. The locking mechanism consists of a series of 3 interlocking teeth that allow the user to adjust the clamping force of the pliers. Once

2 Mayo Dissecting Scissors Set 9" (22.9cm) Straight & Curved

$18.99 per piece

Trade price from **$17.47**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

2 Pcs Mayo Dissecting Scissors Set 9" (22.9cm) Straight & Curved Semi Blunt Tips with Finger Ring Handles Premium Quality Stainless Steel Medical Veterinary Surgical Instrument.

Pack of 2 Mayo scissors includes straight and curved blades, premium surgical instruments for cutting dense tissues and non-tissue materials. Straight Mayo scissors, or "suture scissors," handle superficial tissues and heavy sutures, providing control for flat cutting. Curved Mayo scissors facilitate deeper tissue dissection, enhancing visibility and maneuverability around structures to cut thick tissues without hindering the surgical field. Premium grade stainless steel construction makes these scissors a reliable cutting device for surgeons used in several surgical procedures to dissect, cut and remove tissues from different body cavities and spaces. Fully autoclaved and reusable.

MAYO SCISSORS FEATURESS

- 9" (22.9cm) Overall Length.
- Available in Straight & Curved Profile.
- Thick Blades With Semi-blunt Tips.
- Perfect for Cutting Connective Tissues, Fascia, and Sutures.
- Finger Ring Handle for Superior Grip.
- Reusable.
- Made with Premium Gade Stainless Steel.

PACKAGE INCLUDE

- 1 Pc Mayo Dissecting Scissors 9" (22.9cm) Straight
- 1 Pc Mayo Dissecting Scissors 9" (22.9cm) Curved

2 NABATOFF Vein Stripper Set with Sterilizer Case

$39.99 per piece

Trade price from **$36.79**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 2 Premium Quality NABATOFF Vein Stripper Complete Set with Sterilization Case Medical Surgical Instruments

Nabatoff Vein stripper is a specialized surgical set that cardiovascular surgeons use to strip off varicose veins, in order to restore the blood flow in the lower limbs and prevent other venous pathologies. After the incision, the wire is inserted into the vein so it can be pulled out. Made with German grade stainless steel can be reused after sterilization.

Nabatoff is a complete set loaded in a oval shaped stainless steel sterilizing case that includes several tools such as traction cable, handle, probe tips and olive adaptors of different sizes. The sterilization case has circular fenestrations on the lid and sliding mechanism which allows the steam to flow in. The multiple olives probe tips have a blunt design to explore the lumen of veins and guide the traction cable.

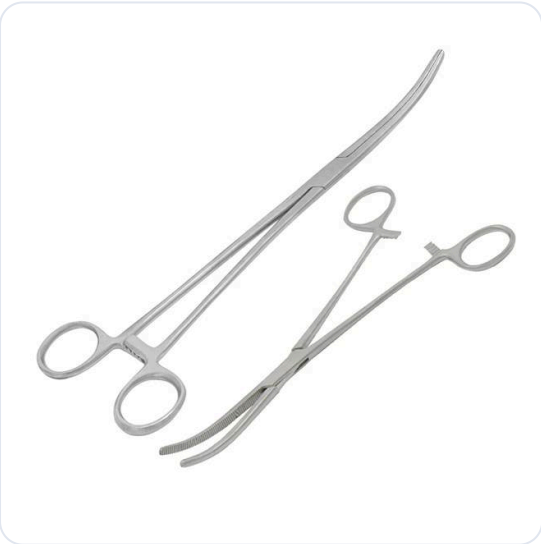

NABATOFF VARICOSE VEIN STRIPPER SET INCLUDES

- 2 Probe Tips
- 3mm, 9mm, and 15mm Olive adaptors
- Traction Cable
- Handle
- Sterilizing SS Box

PACKAGE INCLUDE:

- 2 Nabatoff Vein Stripper Complete Set

Set of 2 pcs Black EMT First Responder 7.5″ Stainless Steel Blades and Plastic Handle Shears + Black ELD Penlight with Pupil Gauge a perfect Medical ENT Holiday Gift idea.

- Be ready for all types of scenarios without having any hiccups. These premium quality 7 ½ inch coated EMT shears feature a high-quality fluoride coating that provides a non-stick surface for all of your cutting needs.
- These trauma shears are designed to handle the rigours of the field.
- The shears are ideal for use in the medical field for cutting bandages, clothing, tape and more without sticking.
- They are also tough and handy shears for the workshop.
- The Tactical Colored Penlight provides enough light to not damage the pupil to be able to tell what the condition the eye is in.
- The high impact plastic grips with large finger openings are specially created to stand up to rough treatment and autoclave temperatures, setting these medical scissors apart from all of the disposable shears on the market.
- Milled serrations allow for cutting through tough material, and the blunt tip keeps patients safe. Autoclavable to 290 F/143 C. 100% Quality Guarantee.

Pack of 2 Pcs Hartman Alligator Forceps 3.5'' & 5.5" Stainless Steel Set Surgical ENT Diagnostic Instruments

Alligator Ear Forceps are a non-ratcheted, finger ring, ENT instrument commonly used for debridement and removing debris from the ear. These forceps are named after the German physician Arthur. These Ear Forceps used for removing foreign bodies. A common name also is “Crocodile forceps”. Alligator forceps are surgical instruments that are great for grasping small objects or removing items from small cavities in the body.
The instrument has a long shaft that is set at a 45-degree angle to the grip, and a small set of serrated jaws at the tip. The jaws bear resemblance to the snout of an alligator, giving rise to the name of the tool. When not in use, the serrated jaws remain open and only close when the handles are squeezed. This function allows for the forceps to be inserted into a small cavity, partially open, and to then be closed on a lodged object, holding the object with a consistent application of pressure. The ability to fine tune the amount of pressure applied, combined with the long reach of the tool, makes the forceps ideal for removing foreign bodies or for moving sterile dressings in a hard-to-reach area after surgical procedures. This instrument is made from Premium Stainless Steel that is tarnish free, corrosion resistant and fully autoclavable. Very easy to clean and re use in the clinical environment.

Pack of 2 Pcs Hartman Alligator Forceps 3.5'' & 8" with Non-ratcheted Finger Ring Handles Premium Quality Stainless Steel Set Surgical ENT Diagnostic Instruments.

Alligator Ear Forceps are non-ratcheted, finger ring instruments used in ENT procedures for debridement and removing debris from the ear, named after German physician Arthur. Also known as “Crocodile forceps,” they are effective for grasping small objects in tight spaces. The forceps feature a long shaft at a 45-degree angle with serrated jaws resembling an alligator’s snout. Hartman Alligator forceps open when not in use and close upon squeezing the handles, allowing for precise pressure when removing foreign bodies. Made from premium stainless steel, they are tarnish-free, corrosion-resistant, and autoclavable, ensuring easy cleaning and reuse in clinical settings.

ALLIGATOR EAR FORCEPS FEATURES:

- Alligator Forceps Are Specialized for Cerumen Removal and Grasping Small Objects From Tight Spaces in the Body.
- Pointed and Small Design Offers High Precision and Flexibility During Clinical Procedures.
- Suitable for Veterinary Use, Particularly in Myringotomy Surgeries for Small Animals.
- Fully Autoclavable and Reusable.
- Instruments Meet National and International Quality and Safety

2 Pcs Metal Impression Trays Solid X-Large Upper & Lower

$8.99 per piece

Trade price from **$8.27**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 2 Dental Impression Trays Solid X-Large Full Arch Upper & Lower Stainless Steel Autoclavable Denture Instruments

Dental impression trays are special devices that dentists use to place the impression material in to get an impression from the teeth and alveolar processus. These trays use to carry the material inside the mouth plus control the whole impression process. We have Perforated and Non-Perforated metal trays for the traditional dental putty to create a cast of the patient's mouth.

PACK INCLUDES

- 1 Pc Impression Tray Solid – X-Large – Upper
- 1 Pc Impression Tray Solid – X-Large – Lower

IMPRESSION TRAYS FEATURES

- This is a 1 pair of solid impression trays upper and lower extra large size for full-arch.
- Our trays have soft edges with an undercut made with a welded wire for the better retention of alginate.
- Trays are made up of high-quality stainless steel and feel a little heavy in weight as compared to the others in the market. Its heavy body offers strong resistance to distortion when taking out the cast from the tray.
- Its highly polished surface makes it easy to remove the dry impression material.
- It is normal to get foggy when put inside the mouth. Its fogginess does not affect its retention to hold the impression material because

Pack of 2 Pc Rochester Pean Hemostat Forceps 8" (20.3cm) Straight & Curved Premium Quality Stainless Steel Hemostatic Artery Clamp Multipurpose Locking Tweezer Fishing Clamps Serrated Hemostats for Nurses, Fishing Forceps, Crafts and Hobby.

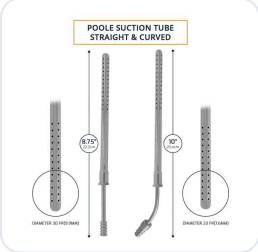

8-inch Pean (or Rochester-Pean) hemostat forceps are heavy-duty, locking surgical instruments with serrated jaws used to clamp larger blood vessels, heavy tissue, or pedicles to control bleeding, especially in deep wounds. They are also used in veterinary, fishing (hook removal), and hobby applications for securely holding or manipulating objects. Rochester-Pean 8-inch length is suitable for deeper, complex procedures, available in straight and curved tips, and features a ratcheting locking mechanism for secure hands-free use. Made from durable and autoclavable stainless steel, pean forceps serve as a versatile tool suitable for various activities, including medical applications, home use, workshop tasks, and outdoor activities.

FISHING HEMOSTAT PEAN FORCEPS FEATURES

- Sizes: 8 Inches (20.3 cm) Overall Length.
- Available in Straight and Curved Profile.
- Full Serrated Jaws for Secure Grip.
- 3 Steps Ratcheting Locking Mechanism.
- Designed as Hemostatic Artery Clamps.

2 Poole Suction Tube 23FR & 30FR Curved and Straight Set

$16.99 per piece

Trade price from **$15.63**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 2 Poole Suction Tube 23FR & 30FR Curved & Straight with 10mm Working End Tip Length Abdominal Surgical Diagnostic Instruments.

Poole Suction Tube is use to aspire large fluid collections during surgery, especially from the abdominal cavity and other large spaces of the body. Its principal use is to suction large collections of fluids from cavities where other tubes would struggle, such as the abdomen & cesarean procedures. Poole suction tube features a straight, bullet-like working end with multiple holes. The holes permit to drain a large volume of fluids with 8.0 to 10.0mm working end lengths.This tube is available in both straight and curved variations.It has a bottom connecting olive to attach the tube to a suction system. Manufactured in premium grade stainless steel to ensure durability.

POOLE SUCTION TUBE FEATURES

- 10″ (25.4cm) & 8.75″ (22.2cm) Overall Length Ensuring Deep Surgical Reach.
- 10.0mm Working Ends Promoting Deep Suction.
- Bullet-like Straight Working Tip.
- Multiple Holes for Greater Volume Uptake.
- Straight and Curved Profiles.
- Removable Outer Tube.
- Bottom Connecting Olive Ensuring Secure Attachment.
- Reusable.
- Made with Premium Quality Stainless Steel.

Pack of 2 Wartenberg Neurological 1 & 3 Head Pin Wheel – Strong Sensation Stainless Steel Neurological Diagnostic Pinwheel Set Chiropractic Surgical Instruments with Smooth Handle. Silver

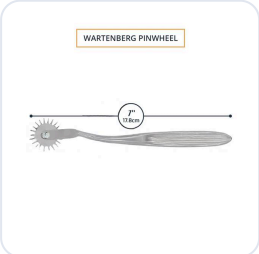

Wartenberg wheel also called a Wartenberg pinwheel or Wartenberg neurowheel, is a medical device for neurological use. The Wartenberg pin wheel is a precision machined stainless steel rotating spur (steel wheel option only) designed for neurological diagnostic purposes. It is designed to test nerve reactions as it glides across the skin. It was originally designed by Dr Robert Wartenberg to test nerve reactions (sensitivity) as it rolled systematically across the skin. Made with high quality stainless steel and a non-slip handle of approximately 6.5" in length. Fully Autoclavable.

WARTENBERG NEURO PINWHEEL FEATURES

2 WARTENBERG NEUROWHEEL SET : Set Of 2 Wartenberg Neurological Pin Wheel Pinwheel 1 & 5 Head Diagnostic Instruments. Glides over the skin easily. Each wheel can move individually with well balanced handle.
STRONG NERVE SENSITIVITY TEST: Designed to test nerve reactivity, pain perception, and sensory response. It create strong sensation, and rolling fan design, adaptable for testing nerve sensitivity by rolling the pointed tip back and forth on the skin.
EXCELLENT CRAFTSMANSHIP: Evenly-spaced sharp pins provide a stimulating feeling when rolled across

Pack of 20 Pederson Vaginal Speculum Large Premium Quality Stainless Steel Pelvic Examination Gynecology Surgical Instrument

Pederson vaginal speculum is a gynecological instrument used for performing pelvic examinations, pap smears, and examining the cervix. It is a double-blade duckbill speculum inserted with the blades closed. The blades are then opened by an external lever and screw. The blades of the Pederson speculum are more narrow than the blades of the graves speculum. The practitioner can best determine which type and size speculum is most appropriate for the patient. Pederson speculum is most commonly utilized for routine and in-office minor procedures.

PEDERSON VAGINAL SPECULUM FEATURES:

PEDERSON SPECULA/PEDERSON SPECULUM: The Pederson vaginal speculum is used to observe inside the vagina and/or perform procedures when necessary. This item is ideal for hospitals and specialty clinics, with its slightly thinner traditional blade, is particularly useful with young or nulliparous women.
EASY TO USE: The Pederson speculum is user-friendly and easy to use. The design includes a broad grip handle for a secure grip on the instrument.
ADJUSTABLE: The smooth & lightweight design adds to the comfort of the surgeon. Moreover, this Speculum comes with a screw lock that

20 Pcs Rubber Dam Clamps Set

$17.99 per piece

Trade price from **$16.55**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 20 Pcs Rubber Dam Clamps Set Stainless Steel Surgical Dental Endodontic Instruments

Rubber Dam Clamps are used to isolate the restorative site from the rest of the mouth when performing restorative, cosmetic, or endodontic procedures such as root canals. They help prevent saliva and blood from interfering with dental work, keep the patient's mouth open to improve visibility and ensure instruments are not inhaled and do not damage the mouth. Rubber dam clamps also help provide patient comfort, since a suction in the mouth is not needed.

Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture 21-Piece Precision Stainless Steel Suture Practice Kit A+ for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table. Supplied as a set — the contents can be adjusted to your list.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $10.00, falling to $7.00 at 25 pieces — about 30% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

ABOUT THIS INSTRUMENT

We manufacture 22 PCS Stainless Steel Dissecting Tool Set Medical Educational for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cover a complete procedure in one tray, so nothing is missing at the table. Supplied as a 22-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than ours. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at $8.00, falling to $4.00 at 1 set — about 50% off the single-unit price. Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

25 Pcs Dental Rubber Dam Kit

$39.99 per piece

Trade price from **$36.79**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

25 Pcs Comprehensive Dental Rubber Dam Kit with Frames, Ainsworth Punch, Ivory Light Rubber Dam Forceps & Stokes Rubber Dam Clamp Premium Quality Endodontic Dental Instruments.

Dental dam or rubber dam is used in dentistry to isolate the operative site (one or more teeth) from the rest of the mouth. Rubber Dam used mainly in endodontic, fixed prosthodontics (crowns, bridges), and general restorative treatments. Its purpose is both to prevent saliva from interfering with the dental work (e.g. contamination of oral micro-organisms during root canal therapy, or to keep filling materials such as composite dry during placement and curing), and to prevent instruments and materials from being inhaled, swallowed or damaging the mouth. In dentistry, the use of a rubber dam is sometimes referred to as isolation or moisture control. Rubber dam also protects the patient's airway from any materials which may fall into it during treatment.

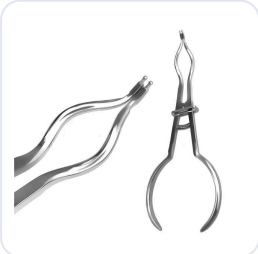

Our 25 Pcs dental rubber dam kit comprises of all necessary tools used by dental professionals. Made of medical grade stainless steel ensures high quality and performance.

28 Pcs Dermaplaning Cleaning Kit Including Disposable Scalpel Blades No. 22, 10 and 11 with Plastic Handle and Hemostat Blade Removal – Suitable for Dermaplaning and More – Sterile & Individually Foil Wrapped

This procedure helps to exfoliate the skin's top layers through a method of controlled surgical scraping. Dermaplaning can be performed on small areas of skin or on the entire face and can be used alone or in conjunction with other procedures such as a chemical peel, microdermabrasion, or fluorescent-pulsed light (FPL).

Dermaplaning, when performed prior to other treatments, can remove the "peach fuzz" which can trap excess dirt and oil. It is non-invasive and helps make other skin treatments more effective. Set of 2 high carbon steel scalpels #22 with plastic handle and blade guard. Can be used for crafts, surgery, in laboratories and much more. Individually foil wrapped to ensure sterility and prevent accidental punctures. These medical disposables are sterilized by gamma radiation, sterility is guaranteed if foil is not broken.

DERMAPLANING CLEANING KIT INCLUDES

- 10 Sterile carbon steel scalpel blades #10 Round (used for dermaplaning)
- 10 Sterile carbon steel blades number #11 (used for extractions)
- 2 Sterile Disposable Scalpel with Blade #10 (used for dermaplaning)
- 2 Sterile Disposable Scalpel with Blade #22 (used for dermaplaning)

Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 3 Pcs High Arch Dental Articulator Large Chrome Plated Adjustable Premium Quality Dental Lab Restorative Dentistry Full Arch Dental Tool Laboratory Supplies.

A high arch hinge articulator is a dental tool used to mount plaster casts of a patient's upper and lower jaws, mimicking jaw movements. The device functions as a mechanical hinge, mimicking jaw movements, and serves as a platform for mounting and holding dental casts for analysis and treatment planning. These dental articulators are ideal for simple restorative procedures and occlusal assessments, allowing technicians to work with models to create natural-fitting restorations. The high arch design of the hinge articulators allows for basic opening and closing movements, while also providing ample space for full-arch cases and complex restorations. These dental articulators made from chrome-plated material, offer durability and stability for plaster restoration models featuring stainless steel fittings for added strength and corrosion resistance.

HIGH ARCH DENTAL ARTICULATOR FEATURES

- Designed for Vertical Occlusion Relationship
- Helps Dentists Evaluate Occlusion and Plan Treatments.
- Used in Fabricating Restorations Like Crowns, Bridges, and Dentures.
- Upper and Lower Parts Easily Separate.

3 Pcs Adson Bayonet Dressing Forceps 8.25" Serrated

$17.99 per piece

Trade price from **$16.55**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 3 Adson Bayonet Dressing Forceps 8.25" (21cm) with Serrated Tips Stainless Steel ENT Otology Surgical Instruments

Adson Bayonet Forceps are thumb forceps used for holding dressing materials such as cotton and gauze during surgical procedures, changing dressings, or packing wounds. They have a wide thumb grasp for increased precision and control. The bayonet style handle allows these forceps to be used in areas with a compromised view. The serrations on the handles give a strong grip for efficient and swift packing. In addition, the serrations prevent slips during delicate movements. Moreover, the bayonet design gives a more convenient vision of the jaws for accuracy. These ear forceps made from the German grade stainless steel that you can depend on for years of efficient performance.

ADSON BAYONET DRESSING FORCEPS FEATURES

- Bayonet Shaft Design For Optimal Visualization.
- Long Serrated Jaws For Better Access & Grip
- Serrated Handles For Non-slip Grips.
- Lightweight
- Made with High Quality Stainless Steel

PACKAGE INCLUDE:

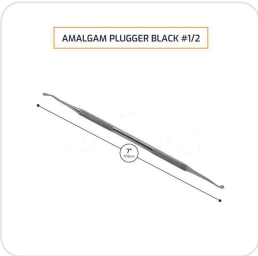

- 3 Pcs Adson Bayonet Dressing Forceps 8.25" (21cm) – Serrated Tips

Set of 3 Auvard Weighted Vaginal Speculums 9″ (22.9cm) Straight 75° Slightly Angled 2lbs, 2.5lbs & 3lbs Premium Quality Stainless Steel Surgical Obstetrical & Gynecology Instruments.

AUVARD Weighted Vaginal Speculum (Weight Vaginal Speculum) is the standard for posterior vaginal wall retraction in vaginal procedures. Single ended vaginal speculum is commonly used in OB/GYN procedures such as vaginal hysterectomy or dilation and curettage. It features a half-tube bent at a right angle with a spherical weight on the handle. The instrument is available in various weights and blade sizes to accommodate a wide range of cases. The weight holds the speculum in place to provide an open view.

AUVARD VAGINAL WEIGHTED SPECULUM FEATURES

- Crafted with 9″ (22.9cm) Overall Length.
- Single Ended Vaginal Speculum.
- 75° Slightly Right Angled Blades.
- Fixed Weight.
- Weight Used to Hold the Speculum in Place.
- Broad Jaw for Better Visualization.
- Smooth Edges to Prevent Soft Tissue Damage.
- Designed to Perfectly Fit the Hands.
- High Degree of Precision and Flexibility While Conducting the Clinical Procedure.
- High Degree of Aesthetic and Corrosion Resistance.
- Sterilizable / Reusable.

3 Pcs Babcock Intestinal Tissue Forceps Set 6.25", 8.25", 10"

$29.99 per piece

Trade price from **$27.59**
Minimum order 21 pieces

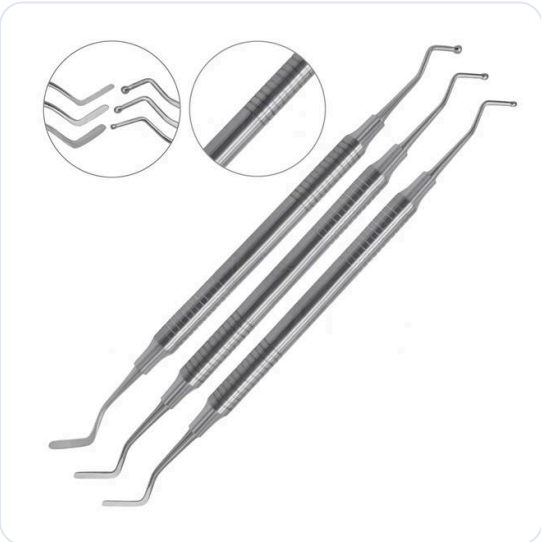

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 3 Pcs Babcock Intestinal Forceps Set 6.25", 8.25", 10" (9mm, 10mm, 15mm) Wide Jaws Stainless Steel Tissue Grasping Laparotomy and Intestinal Surgical Procedure Instrument.

Babcock forceps used for grasping, holding and encircling delicate structures such as ureters, fallopian tubes, bowel, ovaries, and appendix. They are frequently used with intestinal and laparotomy procedures, particularly useful for grasping tube-shaped structures. This instrument features circumferential, rounded edge triangular jaws, which ensure optimal grip on tubular tissues. In addition, the internal surface of the jaws features horizontal serrations for protecting the grasped tissues. When the instrument is closed the ridge fits into the groove securing the held structure from slipping. Babcock intestinal and tissue grasping forceps comes with long shafts for deep surgical access. Also, the ratchet mechanism allows for self-locking the jaws, which enables surgeons to grasp other devices.

Babcock tissue forceps are similar to Allis forceps, though they may be less traumatic due to round and wider grasping surface. The hypogastric connective tissues are perforated lateromedially. Crafted from 100% high-grade German surgical stainless steel and can be reused after sterilization.

Pack of 3 Barraquer Eye Speculum 10mm, 12mm, 15mm Solid Blades Set Stainless Steel Barraquer Wire Speculum Ophthalmic ENT Surgical Instrument. Good for both humans and for veterinary surgery

The Barraquer Eye Speculum with solid blades have a curved outline and prevent eyelashes to project into the surgical field. We have Barraquer eye speculums in both adult and pediatric sizes. The Barraquer Wire Speculum is used in phacoemulsification and other ophthalmic surgical procedures. This ophthalmic device helps the surgeons to statically separate the upper and lower eyelids, especially during surgeries that require great exposure of the eyeball. Barraquer Eye Speculum features a pair of blades that easily slide under the eyelids' conjunctiva with a V-shaped wire structure that angles backward. The surgeons can accommodate the device against the facial contour with comfort.

BARRAQUER WIRE SPECULUM FEATURES

- Solid Blades for Maximum Protection.
- V-shaped Lightweight Spring Style.
- Easy to Adjust along with facial contour of the patient.
- Rest Free, East to Clean and Reusable.
- Premium Quality Stainless Steel with Superior Craftsmanship.

SET INCLUDES:

$34.99 per piece

Trade price from **$32.19**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 3 Pieces Collin Vaginal Speculum Small, Medium and Larg Stainless Steel Obstetrical & Gynecology Surgical Instruments

Collin Vaginal Speculum is a gynecological instrument used for performing pelvic examinations, Pap Smears, DNC, DNE, biopsies, or examining the cervix as well as other gynecological procedures. It is a double-blade duckbill speculum inserted with the blades closed. There is no handle with the Collin speculum so the Hands-free design offers the advantage of an open-sided speculum that has multiple positioning for optimal exposure & blade that are opened laterally/horizontally versus vertically, unlike other specula by an external lever and screw. Available in small, medium and large size variations to accommodate a variety of surgical procedures.

COLLIN VAGINAL SPECULUM FEATURES

COLLIN SPECULUM: Widely used for performing a variety of Pap smears, pelvic, uterus, uterine and cervix examinations. The Collin Speculum comes with special duck shaped spatulas that allow easy insertion into the vagina.
SAFE & SECURE: Collin Vaginal Speculum includes smooth jaws with blunt tip which help to slide through the narrow opening. The smooth outer curves of the instrument also prevent damage to surrounding tissues.
