suture needles and don't let them slip during maneuvering. This versatile instrument used for multiple purposes in surgeries, can be used in all types of sutures.

Olsen Hegar is the most efficient ratchet instrument for holding suture needles come with a built-in scissor combination that cuts sutures smoothly & quickly which saves the time of the operators/surgeon.

Rainbow color coated Olsen Hegar Needle Holder is a lightweight instrument with a delicate design. The holding ends are well designed for a strong grip and durability. The finger ring-handle with ratchet allows a perfect hand grip. Olsen Hegar has cross serrated jaws to maintain enough grip on

RAINBOW COLOR OLSEN HEGAR NEEDLE HOLDER FEATURES

MULTI RAINBOW COLOR OLSEN HEGAR NEEDLE HOLDER: The Olsen Hegar Suture Needle Holder Driver is a ratcheted, finger ring instrument used in multiple types of surgical procedures. It is combined with a suture scissor for ease of use while suturing. It is used for driving the needle, then cutting the suture without changing instruments. It is very effective with larger, heavier suture needles because of its wide jaws. Due to its versatility, it is one of the most

ABOUT THIS INSTRUMENT

12cm TC Mayo Hegar Needle Holder — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

The 12cm size shown is our standard; other sizes in the same pattern are made to order. The steel is heat treated and

passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at \$6.00, falling to \$4.50 at 10 pieces — about 25% off the single-unit price. Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation

ABOUT THIS INSTRUMENT

12cm TC Needle Holder Tungsten Carbide Needle is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

The 12cm size shown is our standard; other sizes in the same pattern are made

to order. Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at \$6.00, falling to \$4.50 at 10 pieces — about 25% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Minimum order 1 set

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

13Pcs Basic Minor Surgery Instruments Set is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. Supplied as a 13-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than

ours. Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$25.00, falling to \$7.00 at 1 set — about 72% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

ABOUT THIS INSTRUMENT

We manufacture 14cm TC Olsen Hegar Surgical Needle Holder for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

The 14cm size shown is our standard; other sizes in the same pattern are made

to order. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at \$6.00, falling to \$4.50 at 10 pieces — about 25% off the single-unit price. Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

16 PCS Breast Augmentation Instrument Set Forceps Needle Holder

\$320.00 per piece

Trade price from **\$317.00**
Minimum order 1 set

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

16 PCS Breast Augmentation Instrument Set Forceps Needle Holder is a needle holder we forge, grind and finish in our own Sialkot workshop. Instruments of this type grip a suture needle firmly through the full arc of a stitch. Supplied as a 16-piece set.

We can add, drop or substitute items so the tray matches your protocol rather than ours. The steel is heat treated and

passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at \$320.00, falling to \$317.00 at 1 set — about 1% off the single-unit price. Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

ABOUT THIS INSTRUMENT
16cm Stainless Steel TC Needle Holder is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

The 16cm size shown is our standard; other sizes in the same pattern are made

to order. We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$8.00, falling to \$5.50 at 10 pieces — about 31% off the single-unit price.
Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

ABOUT THIS INSTRUMENT

20cm Tungsten Carbide Stainless Steel Reusable Needle — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type grip a suture needle firmly through the full arc of a stitch. From the pattern: tungsten carbide inserts for a longer cutting life, and full reusability — clean, autoclave and use again.

The 20cm size shown is our standard; other sizes in the same pattern are made

to order. Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$9.00, falling to \$7.50 at 10 pieces — about 17% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Anti-Acid Stainless Steel Deluxe Cushion Grip 3

\$6.00 per piece

Trade price from \$4.00
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Anti-Acid Stainless Steel Deluxe Cushion Grip 3 is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at \$6.00, falling to \$4.00 at 10 pieces — about 33% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable

Barraquer Needle Holder Locking Stainless Steel Microsurgery

\$8.00 per piece

Trade price from **\$3.50**
Minimum order 10 pieces

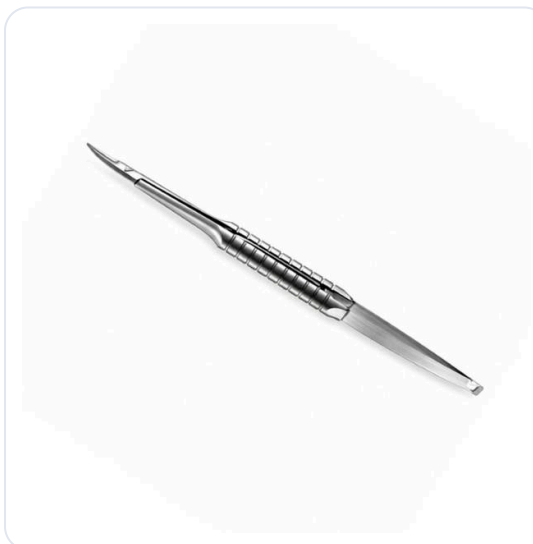

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture Barraquer Needle Holder Locking Stainless Steel Microsurgery for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type grip a suture needle firmly through the full arc of a stitch.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$8.00, falling to \$3.50 at 10 pieces — about 56% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

ABOUT THIS INSTRUMENT

This is our pattern of Barraquer Needle Holder with Lock Precision Eye Surgery, made for general and specialty operating theatre use. Instruments of this type grip a suture needle firmly through the full arc of a stitch.

Forging, milling, heat treatment, hand finishing and passivation all happen under

one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$8.00, falling to \$3.50 at 10 pieces — about 56% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

- ✓ OEM / private-label marking

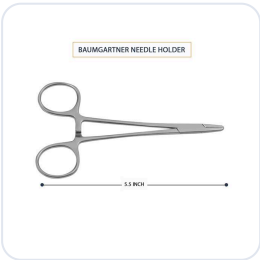

Baumgartner Needle Holder 5.5" (14cm) Straight Cross Serrated Jaws with Lock Finger Ring Handle Premium Quality Stainless Steel Surgical Instruments for Suture Needles.

"Baumgartner" Needle Holder is a surgical hand instrument designed for grasping and guiding heavy suture needles through tough tissues. It features short heavy jaws with serrated surfaces and a ratchet locking mechanism. Designed to securely holds medium-to-large needles, ensuring stability without twisting. Baumgartner needle holder facilitates access in narrow spaces, and its finger-ring ratchet system reduces hand fatigue while maintaining pressure on the needle. This needle holder is an essential tool for accurate tissue approximation and secure needle manipulation in various surgical

procedures Made from high-quality German-grade stainless steel, it offers outstanding corrosion resistance and durability for repeated use in medical environments.

BAUMGARTNER NEEDLE HOLDER FEATURES

- Overall 5.5" (14cm) in Size.
- Serrated Jaw Profile for a Secure Grip on Needles.
- Short Round/Blunt Jaws for Strong Clamping to Holds Medium-to-large Needles.
- Ratcheted Finger Ring Handles for Better Grip and Minimize Hand Fatigue.
- Suitable for Medical and Veterinary Surgical Procedures.
- Reusable and Ensures Safe Sterilization.

Crile Needle Holder with Gold Handles

\$1.98 per piece

Trade price from \$0.80
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Crile Needle Holder with Gold Handles — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type grip a suture needle firmly through the full arc of a stitch.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip

alignment and surface finish are checked on each unit, not on a sample. Listed at \$1.98, falling to \$0.80 at 10 pieces — about 60% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Crile Wood Needle Holder 6"

\$8.99 per piece

Trade price from \$8.27
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Crile-Wood Needle Holder 6" (15.2cm) Cross Serrated Inner Grooved Tempered Jaws with Ratcheted Finger Ring Handles Premium Quality Suturing Needle Driver for Various Medical or Veterinary Procedures.

Crile-Wood Needle Holder is a surgical instrument that securely grasps and guides suture needles in medical procedures, featuring fine, serrated jaws for firm hold and precision in tissue repair. Crile wood needle driver perfect to hold small to medium needles firmly without slipping. They are more delicately tapered than Mayo-Hegar, making them suitable for delicate surgeries and finer sutures (like 4-0 or finer). They feature a ratchet locking mechanism that secures the jaws, providing stability. Made with premium stainless steel that you can easily sterilize

to deliver an optimal performance and long-term use in procedures.

CRILE WOOD NEEDLE DRIVER FEATURES

- Overall 6" (15.2cm) in Size.
- Cross Serrated Inner Grooved Tempered Jaws.
- Ideal for Finer Suture Materials (Like 4-0 or Finer)
- Ratcheted Finger Ring Handles for Better Grip.
- Suitable for Delicated Medical and Veterinary Procedures.
- Reusable.
- Made with Premium Quality Stainless Steel.

PACKAGE INCLUDE:

- 1 Pc Crile-Wood Needle Holder 6" (15.2cm)

Crile Wood Needle Holder Fine Tip Surgical Suturing

\$1.50 per pieceTrade price from **\$1.20**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Crile Wood Needle Holder Fine Tip Surgical Suturing is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: a fine pattern for delicate tissue.

The steel is heat treated and passivated for corrosion resistance, then each

instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at \$1.50, falling to \$1.20 at 10 pieces — about 20% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation

Curved Needle Holder Locking Stainless Steel Surgical Instrument

\$15.00 per pieceTrade price from **\$8.00**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

This is our pattern of Curved Needle Holder Locking Stainless Steel Surgical Instrument, made for general and specialty operating theatre use. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: a curved working end for reach around structures.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$15.00, falling to \$8.00 at 10 pieces — about 47% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Laparoscopic Needle Holder 20" 5mm X 330mm Straight Jaws Stainless Steel
Laparoscopy Needle Driver with V-Type Gold Handle Laparoscopic Surgery Instrument

Laparoscopic Needle Holders are used to grasp and manipulate needles to enable free-hand suturing of wounds or surgical incisions within the body during laparoscopic procedures. Laparoscopic needle holders are ergonomic and autoclavable for easy and convenient usage during laparoscopic surgery. Our straight needle holders allow the surgeon to have better control of the needle while improving the visibility of the suture site.

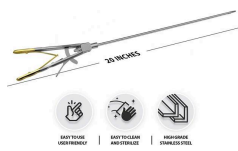

The Laparoscopic needle holder features delicate yet sturdy serrations, which securely grip the needle, providing excellent stability and control during

suturing. The jaws are carefully designed to minimize tissue trauma and ensure precise needle manipulation. They are multi-functional and precise to ensure safety and dependability during a laparoscopic procedure. Equipped with a ratchet mechanism, this needle holder allows for secure locking of needles, preventing slippage and ensuring consistent and reliable suturing. The ratchet can be easily activated and released with a simple thumb maneuver, allowing for efficient and seamless stitching.

LAPAROSCOPIC NEEDLE HOLDER FEATURES:

- 5mm X 330mm Straight Serrated Jaws.
- V-shaped Gold Handle

Mayo-Hegar needle holders have a wide cross-serrated round tips and a inner groove making them ideal for securing larger and heavy needles. Thick shank helps to hold the needle securely. This instrument is ideal for wound closing in several surgeries.

Mayo Hegar needle holder functions like hemostat and it has a unique clamp mechanism that'll lock the needle which allows the healthcare provider to

maneuver the hand through tissues. Mayo-Hegar needle holders are available in various sizes, small sizes can be used for oral, gyne or minor procedures, large size needle holders are used for deep suturing. They can be used for both human and animal surgeries.

MAYO HEGAR NEEDLE HOLDER FEATURES

- Crafted With 8" (20.3cm) Overall Length.
- Wide Cross-serrated Round Tips.
- Suitable for Larger and Heavy Sutures.
- Thick Shank to Securely Hold the Surgical Needles.
- Clamp Mechanism.
- Ergonomic Finger Ring Handles Ensure Comfortable Handling.
- Reusable.

Mayo Hegar Needle Holder Stainless Steel Autoclavable

\$3.50 per piece

Trade price from **\$2.20**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Mayo Hegar Needle Holder Stainless Steel Autoclavable is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip

alignment and surface finish are checked on each unit, not on a sample. Listed at \$3.50, falling to \$2.20 at 10 pieces — about 37% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Mayo Hegar Needle Holder Straight 18 cm Suture

\$2.25 per piece

Trade price from **\$1.00**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Mayo Hegar Needle Holder Straight 18 cm Suture is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: a straight working end for direct, in-line access.

The 18cm size shown is our standard; other sizes in the same pattern are made

to order. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at \$2.25, falling to \$1.00 at 10 pieces — about 56% off the single-unit price. Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Premium Grade Mayo Hegar Needle Holders Driver Sizes 5", 5.50", 6", 7" 8", 10", 12" in Standard & Tungsten Carbide Inserts Straight Serrated Tips with Ratchet Lock Handle Medical Surgical Veterinary Dental Instruments

Mayo Hegar Needle Holder is a hemostat like surgical instruments used by Surgeons and doctors to hold the suturing needle for wound closing during surgical procedures or sutures. This instrument is comprised of a handle, joint, and properly chamfered jaws to prevent accidentally cutting suture. Mostly, it has a clamp mechanism that locks the needle in place. Thus, it allows the healthcare provider to maneuver the hand through tissues. To attain a firm grip on the needle, the jaws are textured, increasing the applied force following the lever principle.

Mayo-Hegar Needle Holders are the most commonly used needle holders with easily adjust clamping force between three notched levels for a strong, sturdy hold. This is perfect for holding small items. Made with high-grade stainless steel body and easy to clean as it is autoclavable.

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Olsen Hegar Needle Holder Driver 5.5" (14cm) Suture Cutting Edges Straight Premium Quality Hemostat with Scissors and Locking Mechanism Medical Veterinary Surgical Instrument.

This is the most efficient ratchet instrument for holding suture needles come with a built-in scissor combination that cuts sutures smoothly & quickly which saves the time of the operators/surgeon.

Olsen Hegar Needle Holder is a lightweight instrument with a delicate design. The holding ends are well designed for a strong grip and durability. The finger ring-handle with ratchet allows a perfect hand grip. Olsen Hegar has cross serrated jaws to maintain enough grip on suture needles and don't let them slip

during maneuvering. This versatile instrument used for multiple purposes in surgeries, can be used in all types of sutures.

OLSEN-HEGAR NEEDLE HOLDER FEATURES

SUTURING NEEDLE HOLDER: The Olsen Hegar Suture Needle Holder Driver is a ratcheted, finger ring instrument used in multiple types of surgical procedures. It is combined with a suture scissor for ease of use while suturing. It is used for driving the needle, then cutting the suture without changing instruments. It is very effective with larger, heavier suture needles because of its wide jaws. Due to its versatility, it is one of the most commonly used surgical tools for both human and animal procedures.

Stainless Steel Mayo Hegar Needle Holder Reusable Surgical Suturing

\$3.50 per pieceTrade price from **\$1.90**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Stainless Steel Mayo Hegar Needle Holder Reusable Surgical Suturing is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: full reusability — clean, autoclave and use again.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at \$3.50, falling to \$1.90 at 10 pieces — about 46% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Stainless Steel Needle Holder Surgical Suture Instrument

\$10.00 per pieceTrade price from **\$6.00**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Stainless Steel Needle Holder Surgical Suture Instrument — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type grip a suture needle firmly through the full arc of a stitch.

We work the instrument by hand at the finishing stage — box locks, hinges and

tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$10.00, falling to \$6.00 at 10 pieces — about 40% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

This is our pattern of Stainless Steel Olsen Hegar, made for general and specialty operating theatre use. Instruments of this type grip a suture needle firmly through the full arc of a stitch.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip

alignment and surface finish are checked on each unit, not on a sample. Listed at \$3.45, falling to \$1.35 at 10 pieces — about 61% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Stainless Steel Surgical Needle Holder Driver Medical Instrument

\$1.90 per pieceTrade price from **\$0.90**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Stainless Steel Surgical Needle Holder Driver Medical Instrument — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type grip a suture needle firmly through the full arc of a stitch.

Forging, milling, heat treatment, hand finishing and passivation all happen under

one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$1.90, falling to \$0.90 at 10 pieces — about 53% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

ABOUT THIS INSTRUMENT

TC Crile Needle Holder is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

We work the instrument by hand at the finishing stage — box locks, hinges and

tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$8.00, falling to \$4.00 at 10 pieces — about 50% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

ABOUT THIS INSTRUMENT

TC Crile Needle Holder Stainless Steel Surgical Needle — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$8.00, falling to \$4.00 at 10 pieces — about 50% off the single-unit price. Larger quantities are priced on request.

Samples go out on request so you can check the steel and the finish before you place a real order.

Premium Grade T/C Mayo Hegar Needle Holder Driver Cross Serrated Tungsten Carbide Inserts Tip Straight Surgical Dental Medical Veterinary Instruments

Mayo Hegar Needle/Suture Holder is also known as a "Needle Driver" and functions as a hemostat. Surgeons and doctors use it to hold the suturing needle for wound closing during surgical procedures or sutures. This instrument is comprised of a handle, joint, and jaws. Mostly, it has a clamp mechanism that locks the needle in place. Thus, it allows the healthcare provider to maneuver the hand through tissues. To attain a firm grip on the needle, the jaws are textured, increasing the applied force following the lever principle.

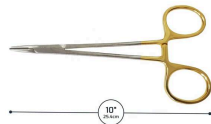

Mayo-Hegar Needle Holders are the most commonly used needle holders, the TC

Mayo Hegar Needle Holder has a finer tip than a standard Mayo Hegar and has a fine cross-serrated tip used to hold medium to larger suture needles. Easily adjust clamping force between three notched levels for a strong, sturdy hold. This is perfect for holding small items.

TC MAYO HEGAR NEEDLE HOLDER FEATURES:

10" TC MAYO HEGAR NEEDLE HOLDER: The OR Mayo Hegar Needle Holder have bigger rings for easy handling. T/C Mayo-Hegar needle holders are available in various sizes and can be used for Oral, GYN or minor procedures. It is very effective with larger, heavier suture needles because of its wide jaws.

Minimum order 500 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Troutman Lock-06 Needle Holder with Lock for Ophthalmology Delicate is a needle holder we forge, grind and finish in our own Sialkot workshop. Instruments of this type grip a suture needle firmly through the full arc of a stitch. The name tells you what you are getting: a fine pattern for delicate tissue.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$5.00, falling to \$3.00 at 500 pieces — about 40% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking
