✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 3 Jennings Mouth Gag 5" (14cm) Ratchet Mouth Opening Retractor German Grade Stainless Steel Surgical Dental Anesthesia Tonsillectomy Instrument.

Jenning mouth opening retractor is a specialized device that Dentists, ENT & Maxillofacial surgeons widely use for mouth opening when working in the oral cavity or to force the mouth open when it cannot open naturally because of forwarding dislocation of the jaw joint's intraarticular cartilage pad. Ratchet keeps the mouth open to the desired degree and create upper and oral pharyngeal space, and stabilize the patient's head during the surgical procedure or tonsillectomy.

Jennings dental mouth gag features inward wire projections design that easily accommodates to the face contour. The ergonomically designed plier grip handle prevent the slippage as it includes a ratchet lever for adjusting the mouth's aperture. Jennings mouth gag available in various sizes to accommodate pediatric and adult patients.

JENNINGS DENTAL MOUTH GAG FEATURES

- Inward Wire Projections to Hold the Palate & Tongue.
- Ratcheted System to Control the Degree of Aperture.
- Non-Slip Pressing Lever for Mouth Opening
- Ergonomic Grip Handle Ensuring Maximum Control.

Set of 3 Sims Vaginal Retractor Speculum Double Ended Small, Medium & Large German Grade Stainless Steel Gynecology Instrument

SIMS' vaginal speculum is a double-bladed surgical instrument used for examining the vagina and cervix. Sims' speculum inserted into the vagina to retract posterior vaginal wall. It gives more exposure to the vaginal walls than Cusco's Speculum and therefore is preferred for gynecological surgeries. it is possible to slide the instrument around the vaginal wall to enable better visualization. The groove in the middle of Sims' speculum allows free flow of secretions and blood to the outside, thereby keeping the area dry. Sims' double bladed vaginal speculum available in various sizes.

SIMS VAGINAL SPECULUM FEATURES

BEVELED BLADES FOR BETTER VISUALIZATION: SIMS Vaginal Speculum is a manual speculum that is held by the surgeon to visualize the cervix. It is double-bladed with a flat handle in between widely used to open the vaginal canal for easy access and a better view during surgical procedures.
LONG HANDLE FOR COMFORTABLE GRIP: The versatile groove in the middle of the instrument allows free blood flow and secretions, thereby keeping the area clean and dry. The variations in styles and sizes make this instrument perfect for various vaginal dimensions.
LIGHTWEIGHT: The smooth and lightweight design decrease user

Minimum order 21 pieces

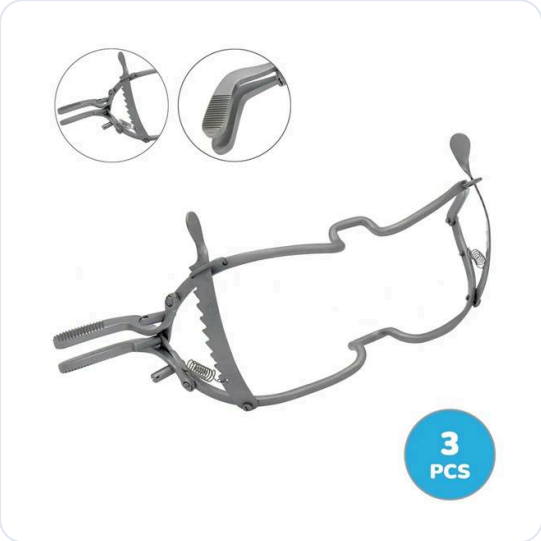

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Set of 4 Premium Quality Stainless Steel Graves Vaginal Speculums Small, Medium, Large & X-Large OB/GYN Pelvic Examination Surgical Instruments

Graves Vaginal Speculum is a gynecological instrument used for performing pelvic examinations, pap smears, and examining the cervix. It is a double-blade duckbill speculum inserted with the blades closed. The blades are then opened by an external lever and screw. The Graves Speculum has wider blades than the Pederson Speculum. The practitioner can best determine which type and size speculum is most appropriate for the patient. Graves Speculum is most commonly utilized for routine and in-office minor procedures.

GRAVES VAGINAL SPECULUM FEATURES

GRAVES SPECULA/GRAVES SPECULUM: The Graves Vaginal Speculum is used to observe inside the vagina and/or perform procedures when necessary. This item is ideal for hospitals and specialty clinics. Graves vaginal speculum features a slightly wider traditional blade design
EASY TO USE: The Graves Speculum is user-friendly and easy to use. The design includes a broad grip handle for a secure grip on the instrument.
ADJUSTABLE: The smooth & lightweight design adds to the comfort of the surgeon. Moreover, this Speculum comes with a screw lock that fixes the instrument in different positions. This allows the surgeon to

4 Killian Nasal Speculum Set 6″ Long with Blade Size 2″, 2.5″, 3″ & 3.5″ (Small, Medium, Large & X-Large) Nasal Rhinology Adenoidectomy Septum Surgical Instruments

The Killian Septum Nasal Speculum is a medical tool used by the doctors in retracting the nasal tissue for optimal visualization of the nasal cavity for examination and treatment of Nose diseases. This is preferably used in rhinoplasty procedures.

The unique design with tapered blades, single spring plier handles, and optional screw lock mechanisms to secure the blades in an open position makes it well suited for nasal surgical procedures. This speculum is placed with closed cone blades in the nares. Then, use the handles to open them slowly. The retracting edges of the blades with a blunt outline prevent tissue injury. In addition, the two blades have a large cone so you can view the nasal cavity clearly. Crafted from 100% high-grade surgical stainless steel and can be reused after sterilization.

KILLIAN NASAL SPECULUM FEATURES

SEPTUM NASAL SPECULUM: Killian is the perfect Nasal Speculum that assists surgeons to examine and treat diseases in the nose. Killian Nasal Speculum is preferably used in rhinoplasty highly specific for plastic surgery procedures. The premium quality speculum is ideal for many medical offices and hospitals. It is suitable for a wide range of patients and procedures/exams.

6 Jennings Mouth Gag 5" Surgical Dental Anesthesia Instrument

$69.99 per piece

Trade price from **$64.39**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 6 Jennings Mouth Gag 5" (14cm) Ratchet Mouth Opening Retractor German Grade Stainless Steel Surgical Dental Anesthesia Tonsillectomy Instrument.

Jenning mouth opening retractor is a specialized device that Dentists, ENT & Maxillofacial surgeons widely use for mouth opening when working in the oral cavity or to force the mouth open when it cannot open naturally because of forwarding dislocation of the jaw joint's intraarticular cartilage pad. Ratchet keeps the mouth open to the desired degree and create upper and oral pharyngeal space, and stabilize the patient's head during the surgical procedure or tonsillectomy.

Jennings dental mouth gag features inward wire projections design that easily accommodates to the face contour. The ergonomically designed plier grip handle prevent the slippage as it includes a ratchet lever for adjusting the mouth's aperture. Jennings mouth gag available in various sizes to accommodate pediatric and adult patients.

JENNINGS DENTAL MOUTH GAG FEATURES

- Inward Wire Projections to Hold the Palate & Tongue.
- Ratcheted System to Control the Degree of Aperture.
- Non-Slip Pressing Lever for Mouth Opening
- Ergonomic Grip Handle Ensuring Maximum Control.

Alm Retractor Surgical Tool for Tissue Separation Wound Exposure

$33.00 per piece

Trade price from **$17.00**
Minimum order 12 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture Alm Retractor Surgical Tool for Tissue Separation Wound Exposure for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $33.00, falling to $17.00 at 12 pieces — about 48% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

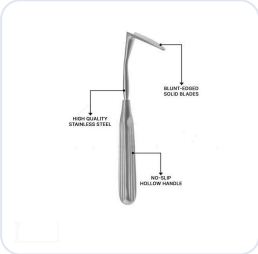

Alm Surgical Retractor Precision Instrument for Controlled Tissue Retraction — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at $34.90, falling to $19.90 at 2 pieces — about 43% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Premium Quality Aufricht Retractor 6.5" (16.5cm) Single Ended Nasal Speculum with Hollow Grip Handle Surgical ENT & Diagnostic Instruments

Aufricht Nasal Speculum is a single end surgical retractor with slightly angled solid blade widely used in ENT and plastic surgical procedures. The blade features a downward angle that allows better visualization of extra operative space or delicate structures. It is also ideal for holding nostrils during nasal surgeries. Aufricht helps in actively retracting and exposing tissues and structures in various areas of the face and head.

The Aufricht retractor is used in Rhinoplasty (Nose Surgery), Blepharoplasty (Eyelid Surgery), Facelift (Rhytidectomy), Brow Lift (Forehead Lift), Cheek and Midface Lift, Maxillofacial Surgery, Orbital Surgery, & Craniofacial Surgery. The specific use of the Aufricht retractor may vary depending on the surgical technique and the patient's unique needs. Aufricht nasal retractor instruments are built to last thanks to its premium grade stainless steel construction.

AUFRICHT NASAL RETRACTOR SPECULUM FEATURES

- Carfted with 6.5" (16.5cm) Overall Length.
- 45mm Long Slightly Downward Angled Solid Blade
- Single Ended Retractor commonly used in Rhinoplasty.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

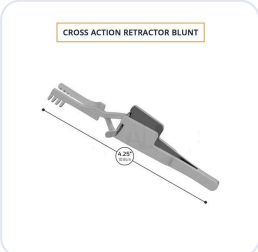

Austin Cheek Retractor Right Angled 80mm Blade is a retractor we forge, grind and finish in our own Sialkot workshop. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: an angled shank that keeps the hand clear of the sightline.

The 80mm size shown is our standard; other sizes in the same pattern are made to order. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at $5.00, falling to $3.50 at 1 piece — about 30% off the single-unit price. Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Balfour Self Retaining Abdominal Retractor 10″ Spread with Fenestrated Side Blades and Solid Center Blade Standard Size Stainless Steel Surgical Veterinary Instrument

Balfour retractor is a self retaining abdominal wall retractor with various deep and shallow blades that can be attached and removed as needed, used in many laparotomy procedures. The Balfour Retractors 10″ are used during abdominal surgeries to hold the wound or incision open for surgery. They provide access to the surgical site amid tightly packed organs and tissues. They play a vital role in cesarean sections, laparotomy, liver, and gastric surgeries.

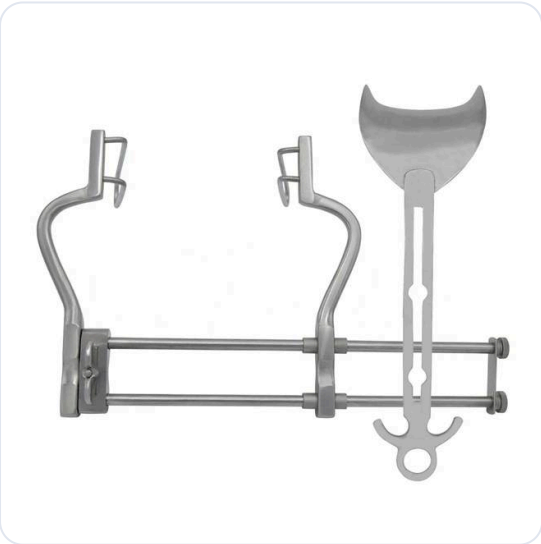

BALFOUR ABDOMINAL RETRACTORS FEATURES

- Wire round blades to protect soft tissues from damage.
- Two lateral and one central solid blade for wider access to tissues and better surgical view.
- Dual sliding bars to keep the instrument at desired place and direction.
- Ergonomic design for superior control.
- Reusable
- Screw locks for less user fatigue and easy handling.

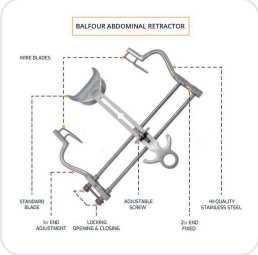

PACKAGE INCLUDE:

- 1 Pc Balfour Abdominal Retractor 10″ Spread – Self Retaining

Balfour Retractor Abdominal Surgical Retractor German

$32.00 per piece

Trade price from **$21.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture Balfour Retractor Abdominal Surgical Retractor German for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $32.00, falling to $21.00 at 10 pieces — about 34% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Balfour Retractor Self Retaining Abdominal General is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: a self-retaining mechanism, so it holds position without an assistant.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $32.00, falling to $22.00 at 10 pieces — about 31% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

ABOUT THIS INSTRUMENT

Balfour Retractor Stainless Steel Abdominal Surgery Retractor is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $35.00, falling to $28.00 at 10 pieces — about 20% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Barraquer Wire Speculum Solid Blade 10mm

$8.99 per piece

Trade price from **$8.27**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

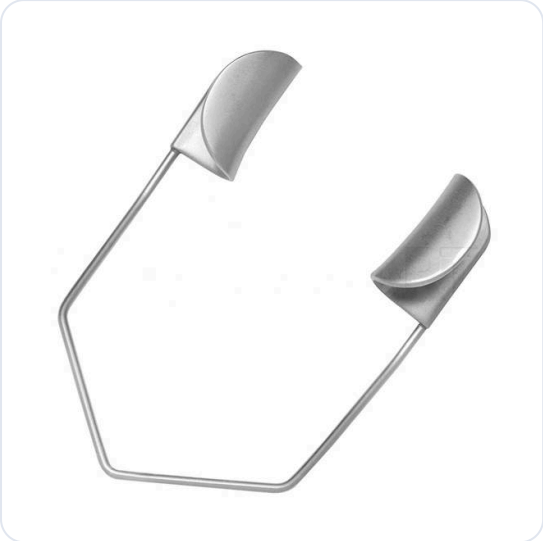

Premium Quality Barraquer Wire Speculum with Solid Blades 10mm Small Stainless Steel Eyelids Holding ENT Ophthalmic Surgical Instrument. Good for Both Humans and Animals Veterinary Ophthalmology Surgery Instruments

The Barraquer Wire Speculum is used in phacoemulsification and other ophthalmic surgical procedures. This ophthalmic device helps the surgeons to statically separate the upper and lower eyelids, especially during surgeries that require great exposure of the eyeball. Barraquer Eye Speculum features a pair of blades that easily slide under the eyelids' conjunctiva with a V-shaped wire structure that angles backward. The surgeons can accommodate the device against the facial contour with comfort.

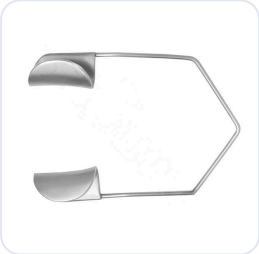

The Barraquer Eye Speculum with solid blades have a curved outline and prevent eyelashes to project into the surgical field. We have Barraquer eye speculums in both adult and pediatric sizes.

BARRAQUER WIRE SPECULUM FEATURES

- 10mm Small Size
- Solid Blades for Maximum Protection.
- V-shaped Lightweight Spring Style.
- Easy to Adjust along with facial contour of the patient.
- Rust Free, East to Clean and Reusable.

Pederson Electrosurgical Vaginal Speculum Small Insulated Blue Coated with Smoke Extractor

LEEP/LLETZ Pederson Speculum is an incredible surgical instrument used during OB/GYN electrosurgical procedures to open vaginal walls. This model is specifically modified for electrosurgical applications comes with integrated Smoke tube/Smoke Extractor. The narrow blades are more comfortable for your smaller patients or those with a narrow vaginal canal. This Electrosurgical Vaginal Speculum built in smoke tubes on all duckbill specula is reusable after sterilization. Can be used with any LLETZ or LEEP system because of the nylon coating that makes it nonconductive.

BLUE PEDERSON VAGINAL SPECULUM FEATURES

PREMIUM QUALITY PEDERSON BLUE COATED OB GYN SPECULUM: The LLETZ LEEP Pederson Speculum Blue Coated is made of quality materials.
EASY TO USE: The Insulated Blue Coating Pederson Speculum is user friendly, easy to clean, and autoclavable.
MADE OF QUALITY STAINLESS STEEL: Forged from corrosion-resistant surgical stainless steel with non-conductive coating. These popular floor grade speculum instruments are built to last.
COMFORTABLE FOR PATIENTS: The Pederson Vaginal Speculum is a smooth double blade duckbill speculum that can be inserted with the blades

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Blue Coated Vaginal Speculum Stainless Steel OB GYN Surgical — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $30.00, falling to $15.00 at 2 pieces — about 50% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Blunt Sharp Skin Hook Stainless Steel Surgical

$2.30 per piece

Trade price from **$1.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Blunt Sharp Skin Hook Stainless Steel Surgical is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible. From the pattern: blunt tips for atraumatic handling, and sharp points for precise penetration.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $2.30, falling to $1.00 at 10 pieces — about 57% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Bookwalter Retractor System Complete Set

$1,200.00 per piece

Trade price from **$900.00**
Minimum order 1 set

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

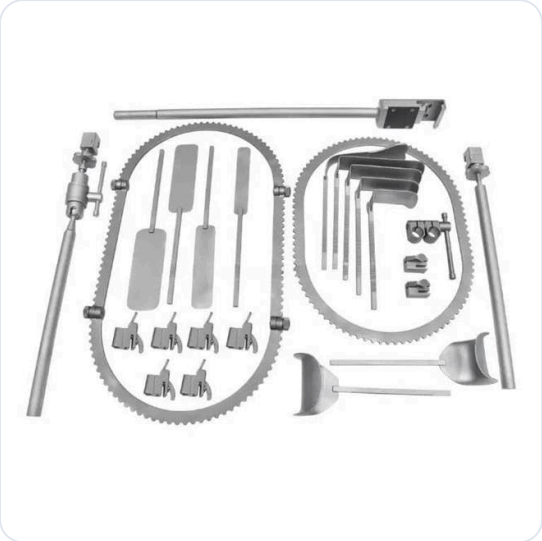

ABOUT THIS INSTRUMENT

We manufacture Bookwalter Retractor System Complete Set for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible. Supplied as a set — the contents can be adjusted to your list.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $1200.00, falling to $900.00 at 1 set — about 25% off the single-unit price. Minimum order 1 set, and the price moves with quantity.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Collin Vaginal Speculum Large 40mm x 110mm Blade Stainless Steel Obstetrical & Gynecology SurgicalMedical Instruments

Collin Speculum is a gynecological instrument used for performing pelvic examinations, Pap Smears, DNC, DNE, biopsies, or examining the cervix as well as other gynecological procedures. It is a double-blade duckbill speculum inserted with the blades closed. There is no handle with the Collin speculum so the Hands-free design offers the advantage of an open-sided speculum that has multiple positioning for optimal exposure & blade that are opened laterally/horizontally versus vertically, unlike other specula by an external lever and screw. Available in small, medium and large size variations to accommodate a variety of surgical procedures.

COLLIN VAGINAL SPECULUM FEATURES

COLLIN SPECULUM LARGE: Widely used for performing a variety of Pap smears, pelvic, uterus, uterine and cervix examinations. The Collin Speculum comes with special duck shaped spatulas that allow easy insertion into the vagina.
SAFE & SECURE: Collin Vaginal Speculum includes smooth jaws with blunt tip which help to slide through the narrow opening. The smooth outer curves of the instrument also prevent damage to surrounding tissues.

Cooley Mitral Valve Heart Retractor Set Open

$70.00 per piece

Trade price from **$55.00**
Minimum order 5 sets

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Cooley Mitral Valve Heart Retractor Set Open is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible. Supplied as a set — the contents can be adjusted to your list.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $70.00, falling to $55.00 at 5 sets — about 21% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Cooley Mitral Valve Retractor Set Cardiovascular Surgical

$70.00 per piece

Trade price from **$55.00**
Minimum order 5 sets

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

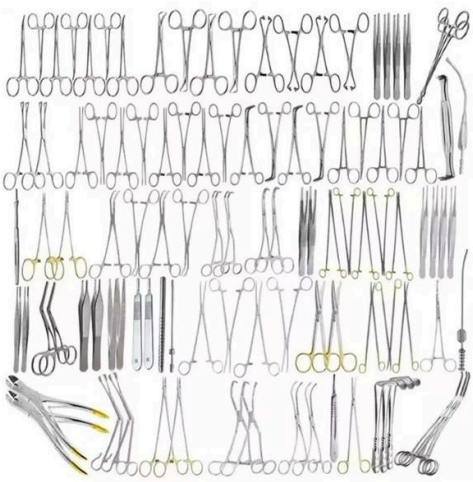

ABOUT THIS INSTRUMENT

Cooley Mitral Valve Retractor Set Cardiovascular Surgical is a retractor we forge, grind and finish in our own Sialkot workshop. Instruments of this type hold a wound or cavity open so the operating field stays visible. Supplied as a set — the contents can be adjusted to your list.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at $70.00, falling to $55.00 at 5 sets — about 21% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item

Crile Thyroid Retractor 4.5" Double Ended

$11.99 per piece

Trade price from **$11.03**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

German Grad Stainless Steel Crile Retractor 4.5 Inches (11.4cm) Double Ended Stainless Steel Medical Orthopedic Surgical Instruments

Crile Retractor is a top-notch hand-held surgical tool that is mostly utilized to hold back organs or tissues underneath the surgical sites. It has a whole body and right-angle blades to stabilize the proper position once inserted for the incision. The Crile Retractor features double-ended, curved blades that can be used for a wide range of procedures.

The overall 4 1/2-inch size makes it an ideal tool for retracting small or delicate tissues, with a comfortable handle that allows for a secure grip. With its versatility and precision, the crile retractor is a valuable addition to any surgical setting. The smaller models are used on the surface to hold back skin and tissue, while the larger ones are designed to retract muscles, organs and bones in deeper cavities.

CRILE THYROID RETRACTOR FEATURES:

- Double Ended Curved Blades: 4 X 15 mm & 6 X 20 mm.
- Smooth Flat Handle for a Secure Grip.
- Corrosion-Resistant.
- Reusable.
- Crafted with German Grade Stainless Steel.

PACKAGE INCLUDE:

- 1 Pc Crile Thyroid Retractor 4.5" (11.4cm) – Double Ended

Cusco Vaginal Speculum with Side Screw – Large

$11.99 per piece

Trade price from **$11.03**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

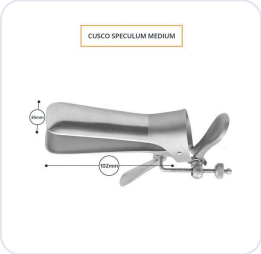

High Quality Cusco Vaginal Speculum Large Side Screw Model with Folding Handles Reusable Vaginal Speculum Gynecology Surgical Instruments.

This Vaginal Speculum was named after French surgeon Édouard-Gabriel Cusco (1819–1894). It is the most popular Gynecological speculum. Cusco speculum is bivalved (two blades) which opens like a duck beak used for examination of, or procedures within, the vaginal canal. Cusco being self-retaining means you do not require the help of an assistant or your second hand to keep the speculum in place. Cusco Speculum is preferred for some procedures like cryotherapy since it protects both the anterior and posterior vagina wall. It also acts as the vaginal wall retractor. The Cusco Vaginal Speculum is available in various sizes of blades to accommodate a wide range of cases.

CUSCO VAGINAL SPECULUM FEATURES:

CUSCO VAGINAL SPECULA/CUSCO SPECULUM: The Cusco is a bivalved self-retaining speculum used for vaginal and cervical examinations. It has a jaw that opens up like a duck bill.
EASY TO USE: The Cusco Vaginal Speculum is user-friendly and easy to use. The design includes a 2 blades with side screw handle for a secure grip on the instrument.
ADJUSTABLE: The smooth & lightweight design adds to the comfort of the surgeon. Moreover, this Speculum comes with a side screw

Deaver Grip Retractor 3" x 12" Curved Blade

$19.99 per piece

Trade price from **$18.39**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Deaver Retractor 3"x12" with Hollow Grip Handle Precision Stainless Steel Surgical Instrument Ideal for Abdominal or Thoracic Procedures.

DEAVER is a handheld curved balde surgical retractors made for retracting the deeper body tissues from the abdomen and chest during verious surgeries. These retractors frequently used by surgeons to widen surgical incisions and hold the large organs contained inside the abdominal cavity during a wide range of general surgery procedures. The retractor has a very unique deep curved blade design and comes in different model. This particular shape allows surgeons to hold heavy tissues, such as the liver, stomach and kidneys, away from the surgical field.

Deaver retractor features a hollow grip handle that can easily retract the body tissue with its 3"x12" precise design. Deaver surgical retractor offers ample surface area, facilitating effective handling and control across a variety of tasks, ensuring versatility and adaptability in diverse settings. Manufactured with premium grade stainless steel make this retractor a reliable tool for frequent use in clinical settings. Deaver Retractors are available in a wide range of working end sizes and widths and can be reused after sterilization.

DEAVER RETRACTORS FEATURES

- Crafted with 3" (7.6cm) Wide x 12" (30.5cm) Long Blade Length.
- Flat Curved Blade For Retracting Multiple Tissue Layers.

Deaver Retractor 2" X 13" (51mm X 330mm) with Solid Flat Handle Precision Stainless Steel Surgical Instrument Ideal for Abdominal or Thoracic Procedures.

DEAVER is a handheld curved balde surgical retractor made for retracting the deeper body tissues from the abdomen and chest during verious surgeries. These retractors frequently used by surgeons to widen surgical incisions and hold the large organs contained inside the abdominal cavity during a wide range of general surgery procedures. The retractor has a very unique deep curved blade design and comes in different model. This particular question mark shape allows surgeons to hold heavy tissues, such as the liver, stomach and kidneys, away from the surgical field.

Deaver retractor features a flat handle which has a bottom hook. Surgeons and assistants can use this hook to rest their fingers and avoid fatigue during lengthy procedures. This surgical retractor offers ample surface area, facilitating effective handling and control across a variety of tasks, ensuring versatility and adaptability in diverse settings. Manufactured with premium grade stainless steel make this retractor a reliable tool for frequent use in clinical settings. Deaver Retractors are available in a wide range of working end sizes and widths and can be reused after sterilization.

Deaver Retractor Abdominal Surgical Retracting Instrument

$7.20 per piece

Trade price from **$4.50**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Deaver Retractor Abdominal Surgical Retracting Instrument — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $7.20, falling to $4.50 at 10 pieces — about 38% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

WI-35104527

Deaver Retractor Hand Held Surgical Instrument Medical

$7.50 per piece

Trade price from **$6.30**

ABOUT THIS INSTRUMENT

Deaver Retractor Hollow Handle Stainless Steel Surgical Abdominal Retractor is a retractor we forge, grind and finish in our own Sialkot workshop. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $9.00, falling to $6.00 at 10 pieces — about 33% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

WI-36252940

Deaver Retractor Stainless Steel Surgical

ABOUT THIS INSTRUMENT

Deaver Retractor Stainless Steel Surgical Hand Held Retractor Medical is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at $7.50, falling to $6.10 at 10 pieces — about 19% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Doyen Abdominal Retractor 10" (25.4cm) 3.5" (8.9cm) x 2" (5.1cm) Curved Blade with Hook Style Grip Handle Premium Quality Stainless Steel Laparotomies Surgical Instrument.

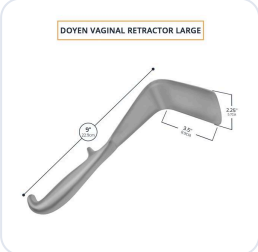

Doyen Abdominal Retractor is a handheld surgical tool designed to hold back abdominal organs, offering surgeons an unobstructed view during procedures. It minimizes trauma to nearby tissues and is commonly used in laparotomies, bowel surgeries, and organ transplants, as well as in abdominal hysterectomies, C-sections, and ectopic pregnancies. It features a 90-degree angled, blunt, concave blade (3.5" wide) and a hooked handle for a secure grip. The broad, curved blade with blunt edges reduce tissue trauma and ideal for holding back the abdominal wall and bladder for clear access in pelvic surgeries. Made of stainless steel, it is reusable and designed for stability during deep abdominal procedures.

DOYEN ABDOMINAL RETRACTOR FEATURES

- 10 Inches (25.4 cm) in Overall Length.
- Concave Upper Surface.
- Curved Blade 3.5 Inches (8.9 cm) X 2 Inches (5.1 cm)
- Hook Style hollow Grip Handle for firm grip and maximum control.
- Suitable for Abdominal Hysterectomies, Cesarean Section Deliveries, and Procedures for Ectopic Pregnancies.

Doyen Vaginal Retractor Anti-Acid Stainless Steel

$10.00 per piece

Trade price from **$5.00**
Minimum order 1 piece

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Doyen Vaginal Retractor Anti-Acid Stainless Steel is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $10.00, falling to $5.00 at 1 piece — about 50% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Eastman Retractor Hand Held Surgical Tissue

$6.00 per piece

Trade price from **$3.90**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Eastman Retractor Hand Held Surgical Tissue — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at $6.00, falling to $3.90 at 10 pieces — about 35% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Trade price from **$18.39**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Fergusson-Ackland Mouth Gag 8" (20.3cm) Stronge Curve Ackland Jaws Plier Grip with Spring Handle Premium Quality Stainless Steel Oral Dental ENT Surgical Instruments.

Fergusson Ackland Jaws Mouth Gag is a specialized oral surgery tool that dentists, ENT and maxillofacial surgeons commonly use to separate the inferior and superior dental arches, in order to broaden the mouth opening. This oral dental instrument features serrated tooth plates that easily interlock with incisors, canines of premolars. In addition, the device is available different sizes to accommodate a variety of oral dental procedures.

This dental mouth gag features a plier grip style handle with a spring system and ratcheted stems. As a result, surgeons can press the device to adjust the ratchet ring at the desired position to control the jaws opening and leaving both hands of the surgeon free to operate. Manufactured in premium grade stainless steel to ensure the highest quality product and performance.

FERGUSSON-ACKLAND MOUTH GAG FEATURES

- 8" (20.3cm) Overall Length.
- Stronge Curve Ackland Jaws.
- Serrated Tooth Plates to Fit Against the Teeth.
- Ratcheted System for Self-Retaining Retractions.
- Plier Grip Style Handle Ensuring Maximum Control.

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pediatric Gelpi Retractor 3.5" (8.9cm) with Sharp Tips and Grip Lock German Grade Stainless Steel Surgical, Veterinary, Orthopedic & Spinal Surgeries Instruments.

Gelpi Retractors is self-retaining retractor used by the surgeons to retract and hold back organs efficiently during critical surgeries, such as spinal procedures. This retractor commonly used for retraction of deep and superficial tissues. Its unique shape makes it ideal for retracting bulkier tissues as well as hard to reach incision sites. Frequently used during gynecological, neurological as well as general orthopedic surgeries.

Gelpi self-retaining retractor have a ratchet mechanism that allows you to adjust the distance between the two ends to accommodate different tissue thicknesses and provides better control over the retraction. The retractor has fine, pointed tips for precise tissue manipulation with minimal tissue trauma. The sharp tips ensure a secure grip of the tissue without causing excessive damage or slippage. The small size retractor used for a shallower or smaller incision. The longer retractors work better for deeper surgical sites, for access to posterior structures, for larger incisions, or for obese patients. The finger ring handles ensure precise control.

GELPI SELF-RETAINING RETRACTOR FEATURES

- Sharp Pointed Tips for Precise Tissue Manipulation.

Green Retractor

$36.61 per piece

Trade price from **$33.68**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Green Retractor is an instrument we forge, grind and finish in our own Sialkot workshop. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for action and finish.

Listed at $36.61, falling to $33.68 at 21 pieces - about 8% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Guttman Gynecological Speculum Reusable Vaginal Surgical — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: full reusability — clean, autoclave and use again.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $20.00, falling to $15.00 at 5 pieces — about 25% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Heister Mouth Gag 5″ (13cm) Serrated Jaws with Screw-Lock Mechanism Premium Quality Stainless Steel Dental, ENT, Oral & Maxillofacial Surgical Instrument.

Mouth gags are devices used to hold the mouth open. Heister Mouth Gag is a specialized device that dentists, ENT & oral surgeons can use to keep the mouth from closing under anaesthesia to gain maximum exposure of the surgical site. Heister also used in a wide range of surgical and dental procedures for opening the mouths of patients who could not do so themselves. This dental retractor features outer serrated jaws that interlock with the teeth. The straight arms of this mouth gag allow for a broad opening angle to achieve maximum exposure. The manual screw-lock mechanism allows for rotation of the screw to enlarge the opening as needed. Fully autoclavable and crafted from high-quality stainless steel ensuring durability and sustained performance. 100% satisfaction gauranteed.

HEISTER MOUTH GAG FEATURES

- Crafted with 5″ (13cm) Overall Length.
- Outer Serrated Jaws Promoting Strong Teeth Fixation.
- Straight Arms for Higher Surgical Precision.
- Screw-Lock Mechanism to Adjust the Arms Opening.
- Reusable.

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Hintermann K-Wire Distractor/Retractor Portable PK Mirror Stain is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $40.00, falling to $33.00 at 1 piece — about 18% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Jenning Mouth Gag 5" Surgical Dental Anesthesia Instrument

$11.99 per piece

Trade price from **$11.03**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Premium Quality Jenning Mouth Gag 5" (14cm) Ratchet Mouth Opening Retractor German Grade Stainless Steel Surgical Dental Anesthesia Tonsillectomy Instrument.

Jenning mouth opening retractor is a specialized device that Dentists, ENT & Maxillofacial surgeons widely use for mouth opening when working in the oral cavity or to force the mouth open when it cannot open naturally because of forwarding dislocation of the jaw joint's intraarticular cartilage pad. Ratchet keeps the mouth open to the desired degree and create upper and oral pharyngeal space, and stabilize the patient's head during the surgical procedure or tonsillectomy.

Jennings dental mouth gag features inward wire projections design that easily accommodates to the face contour. The ergonomically designed plier grip handle prevent the slippage as it includes a ratchet lever for adjusting the mouth's aperture. Jennings mouth gag available in various sizes to accommodate pediatric and adult patients.

JENNINGS DENTAL MOUTH GAG FEATURES

- Inward Wire Projections to Hold the Palate & Tongue.
- Ratcheted System to Control the Degree of Aperture.
- Non-Slip Pressing Lever for Mouth Opening
- Ergonomic Grip Handle Ensuring Maximum Control.

Jolles Retractor Stainless Steel Surgical Tissue Retracting Instrument

$57.00 per piece

Trade price from **$41.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Jolles Retractor Stainless Steel Surgical Tissue Retracting Instrument is a retractor we forge, grind and finish in our own Sialkot workshop. Instruments of this type hold a wound or cavity open so the operating field stays visible. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at $57.00, falling to $41.00 at 10 pieces — about 28% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

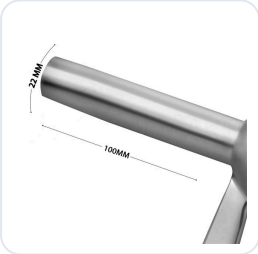

Jolles Retractor Stainless Steel Surgical Tissue Retractor Reusable Medical is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: full reusability — clean, autoclave and use again.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $57.00, falling to $41.00 at 10 pieces — about 28% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Killian Nasal Speculum Medium 6" (15.2cm) Long with Blade Size 2.5" (6.4cm) Nasal Rhinology Adenoidectomy Septum Surgical Instruments

The Killian Septum Nasal Speculum is a medical tool used by the doctors in retracting the nasal tissue for optimal visualization of the nasal cavity for examination and treatment of Nose diseases. This is preferably used in rhinoplasty procedures.

The unique design with tapered blades, single spring plier handles, and optional screw lock mechanisms to secure the blades in an open position makes it well suited for nasal surgical procedures. This speculum is placed with closed cone blades in the nares. Then, use the handles to open them slowly. The retracting edges of the blades with a blunt outline prevent tissue injury. In addition, the two blades have a large cone so you can view the nasal cavity clearly. Crafted from 100% high-grade surgical stainless steel and can be reused after sterilization.

KILLIAN NASAL SPECULUM FEATURES

SEPTUM NASAL SPECULUM: This is the perfect Nasal Speculum that assists surgeons to examine and treat diseases in the nose. Killian Nasal Speculum is preferably used in rhinoplasty highly specific for plastic surgery procedures. The premium quality speculum is ideal for many medical offices and hospitals. It is suitable for a wide range of patients and procedures/exams.

$11.99 per piece

Trade price from **$11.03**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Killian Nasal Speculum Large 6" (15.2cm) Long with Blade Size 3" (7.6cm) Nasal Rhinology Adenoidectomy Septum Surgical Instruments

The Killian Septum Nasal Speculum is a medical tool used by the doctors in retracting the nasal tissue for optimal visualization of the nasal cavity for examination and treatment of Nose diseases. This is preferably used in rhinoplasty procedures.

The unique design with tapered blades, single spring plier handles, and optional screw lock mechanisms to secure the blades in an open position makes it well suited for nasal surgical procedures. This speculum is placed with closed cone blades in the nares. Then, use the handles to open them slowly. The retracting edges of the blades with a blunt outline prevent tissue injury. In addition, the two blades have a large cone so you can view the nasal cavity clearly. Crafted from 100% high-grade surgical stainless steel and can be reused after sterilization.

KILLIAN NASAL SPECULUM FEATURES

SEPTUM NASAL SPECULUM: This is the perfect Nasal Speculum that assists surgeons to examine and treat diseases in the nose. Killian Nasal Speculum is preferably used in rhinoplasty highly specific for plastic surgery procedures. The premium quality speculum is ideal for many medical offices and hospitals. It is suitable for a wide range of patients and procedures/exams.

Kocher Langenbeck Retractor 21cm

$8.00 per piece

Trade price from **$4.00**
Minimum order 1 piece

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Kocher Langenbeck Retractor 21cm is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible. The 21cm size shown is our standard; other sizes in the same pattern are made to order.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $8.00, falling to $4.00 at 1 piece — about 50% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

WI-70003169

Kocher Retractor 22.5cm

$34.96 per piece

Trade price from **$32.16**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

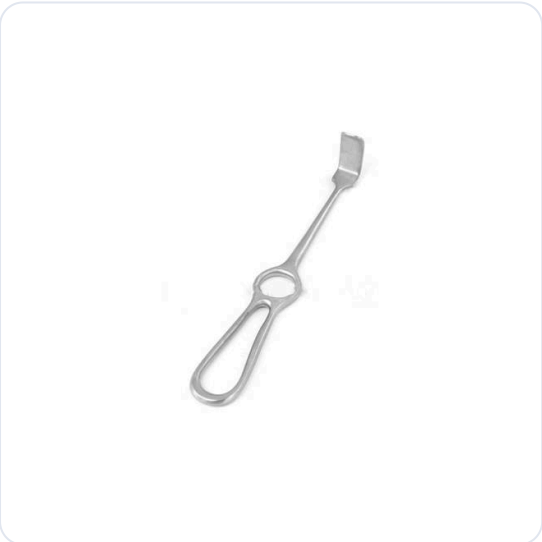

ABOUT THIS INSTRUMENT

Kocher Retractor 22.5cm is an instrument we forge, grind and finish in our own Sialkot workshop. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for action and finish.

Listed at $34.96, falling to $32.16 at 21 pieces - about 8% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Kogan Cervical Speculum Reusable Gynecological Instrument

$35.00 per piece

Trade price from **$12.00**
Minimum order 50 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture Kogan Cervical Speculum Reusable Gynecological Instrument for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: full reusability — clean, autoclave and use again.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $35.00, falling to $12.00 at 50 pieces — about 66% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Kogan Endocervical Speculum Gynecological Surgical Instrument for Cervical Examination

$39.00 per piece

Trade price from **$24.00**
Minimum order 5 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

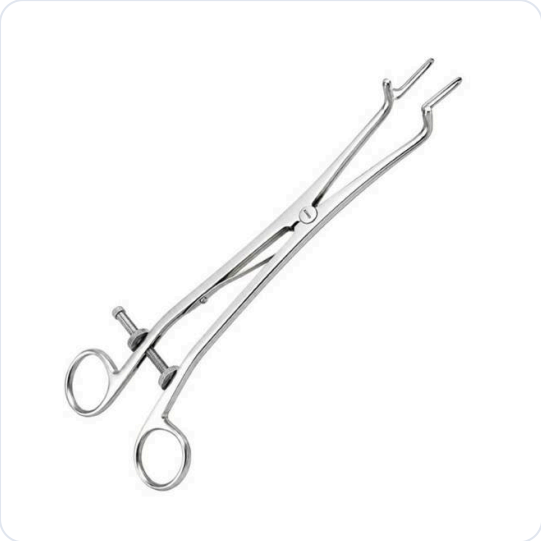

ABOUT THIS INSTRUMENT

Kogan Endocervical Speculum Gynecological Surgical Instrument for Cervical Examination is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $39.00, falling to $24.00 at 5 pieces — about 38% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Langenbeck Retractor 8.25" (21cm) L-shaped Blunt Blade 11mm x 60mm with Finger Ring Handle Premium Quality Stainless Steel Hand Held Retractor for Various Surgical Orthopedic Procedures.

Langenbeck Retractor Ring Handle is a handheld surgical instrument designed for pulling back and holding soft tissues, muscles, and organs to facilitate site exposure during surgery. It aids in tissue retraction by holding back skin, fat, and muscle, providing surgeons with a clear view of deep or narrow operative fields. This tool is utilized in various specialties, including general surgery, orthopedics, plastic surgery, and ENT procedures. The L-shaped working end features a single blunt blade with a ring handle, designed as a teardrop or finger ring loop at the end of a slender handle. This design enhances stability, enabling the surgeon or assistant to hook a finger through the loop for a firmer hold under high tension. Made with premium quality stainless steel, it ensures stability and longevity and is fully autoclaveable for reuse.

LANGENBECK RETRACTOR RING HANDLE FEATURES

- 8.25 Inch (21cm) Overall Length.
- 7/16" (11mm) Wide X 2 3/8" (60mm) Long Blade.
- Single Blunt Blade.
- L-shaped Working End.
- Ergonomically Designed Teardrop Ringed Handle.
- Easy to Clean and Reuse.

Lead Hand Retractor Small 9.5" (24.1cm) Child Size Premium Quality Hand Stable Base Plate For Surgical Intervention Orthopedic Proceedures.

Lead Hand retractor is a specialized orthopedic surgical instrument used to stabilize the hand and wrist during various procedures. It provides a secure and consistent platform for surgeons to perform precise work like tendon repairs, fracture fixations, and joint reconstructions, eliminating the need for an assistant to hold the hand. Lead hand retractors offer secure hand stabilization, versatile size options, and enhanced surgical precision. Lead retractor is ergonomically designed with smooth surfaces and comfortable grips, allowing surgeons to easy handling and positioning. Made from lead material ensures durability, corrosion resistance making them suitable for multiple uses in sterile settings.

USE IN HAND AND WRIST SURGERIES

- **Tendon Repair**: Stabilizes Hand for Precise Tendon Repair.
- **Fracture Fixation**: Provides Stable Base for Fixing Fractured Bones.
- **Joint Reconstruction**: Facilitates Reconstruction of Damaged Joints.
- **General Hand Surgeries**: Aids in Other Surgical Procedures.
- **Dupuytren's Contracture Release**: Provides Access and Stability to Affected Area.

Lieberman K-Wire Speculum Reusable Eye Surgery Tool

$13.00 per piece

Trade price from **$4.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

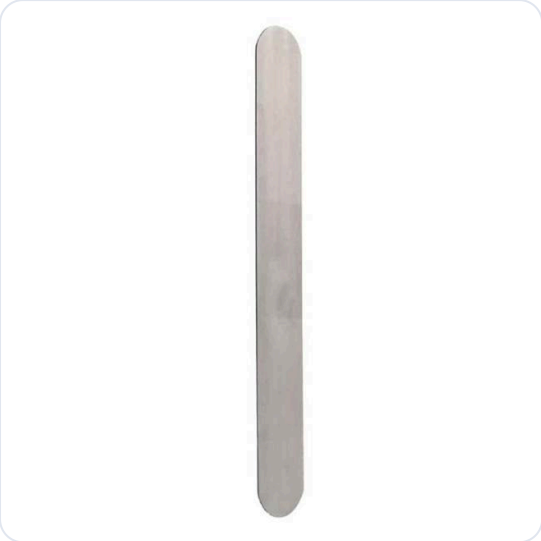

ABOUT THIS INSTRUMENT

Lieberman K-Wire Speculum Reusable Eye Surgery Tool is a retractor we forge, grind and finish in our own Sialkot workshop. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: full reusability — clean, autoclave and use again.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $13.00, falling to $4.00 at 10 pieces — about 69% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Navy Retractor Double End Surgical Retracting Instrument

$6.00 per piece

Trade price from **$3.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Navy Retractor Double End Surgical Retracting Instrument is a retractor we forge, grind and finish in our own Sialkot workshop. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: two working ends on one handle, halving what you carry.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at $6.00, falling to $3.00 at 10 pieces — about 50% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

O'sullivan-O'connor Self Retaining Abdominal Retractor Large with 3 Interchangeable Blades – Complete Set

O'Sullivan O'Connor Abdominal Retractor is frequently used for midline incisions needs to be held open and may also be applied in hysterectomies. It features a retractor frame with wingnuts and blades. The retractor can remain in position because of its self-retaining mechanism thanks to its individual ratchet locks that hold the blades in place to decrease user fatigue. The blades have blunt tips that help hook onto tissues without damaging them.

O'SULLIVAN-O'CONNOR RETRACTOR SET FEATURES:

- 3 Interchangeable Blades.
- 2 Fixed Blades with Retractor Frame.
- Blunt Tips To Prevent Soft Tissue Damage.
- Ratchet Locks To Decrease User Fatigue.
- Ergonomic Design For Superior Control.
- Reusable
- Made with German Stainless Steel

BLADE SIZES:

- 2 Small Size Blade = 1 3/4" x 3 1/4" (4.4cm X 8.3cm)
- 1 Big Size Blade = (2 3/4" x 4 1/4") (7cm X 10.8cm)

Pederson Speculum Smoke Tube |

$7.00 per piece

Trade price from **$4.00**
Minimum order 1 piece

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Pederson Speculum Smoke Tube | — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $7.00, falling to $4.00 at 1 piece — about 43% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Pederson Vaginal Speculum Extra Narrow Small Premium Quality Stainless Steel OB/GYN Surgical Instruments for Pelvic Examination.

Double bladed Pederson speculum is a gynecological instrument used for performing pelvic examinations, pap smears, and examining the cervix. It is a double-blade duckbill speculum inserted with the blades closed. The blades are then opened by an external lever and screw. The blades of the Pederson speculum are more narrow than the blades of the graves speculum. The practitioner can best determine which type and size speculum is most appropriate for the patient. Pederson speculum is most commonly utilized for routine and in-office minor procedures.

EXTRA NARROW PEDERSON SPECULUM FEATURES:

PEDERSON SPECULA/PEDERSON SPECULUM: The Pederson vaginal speculum is used to observe inside the vagina and/or perform procedures when necessary. This item is ideal for hospitals and specialty clinics, with its slightly thinner traditional blade, is particularly useful with young or nulliparous women.
EASY TO USE: The Pederson speculum is user-friendly and easy to use. The design includes a broad grip handle for a secure grip on the instrument.
ADJUSTABLE: The smooth & lightweight design adds to the comfort of the surgeon. Moreover, this Speculum comes with a screw lock that

Richardson Retractor Abdominal Wound Retractor General Surgery

$6.20 per piece

Trade price from **$3.90**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

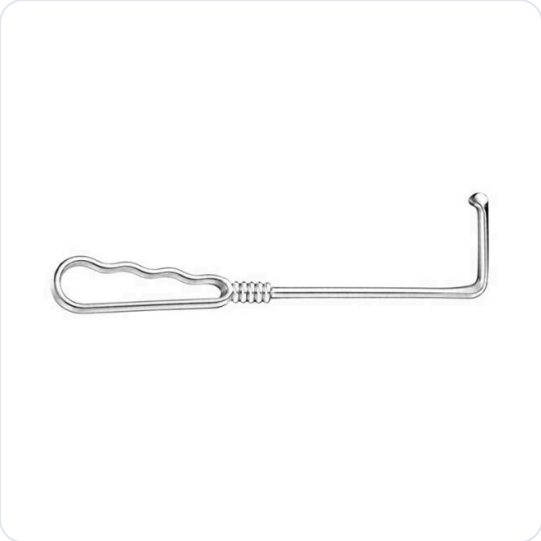

ABOUT THIS INSTRUMENT

Richardson Retractor Abdominal Wound Retractor General Surgery is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $6.20, falling to $3.90 at 10 pieces — about 37% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Roux Double Ended Retractor Surgical Instrument for Tissue

$5.00 per piece

Trade price from **$2.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Roux Double Ended Retractor Surgical Instrument for Tissue — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: two working ends on one handle, halving what you carry.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $5.00, falling to $2.00 at 10 pieces — about 60% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Senn-Miller Retractor 6 3/8" (16.2cm) Sharp 3 Prongs Premium Quality Stainless Steel Double End Sharp & Solid with Center Flat Handle Hand Held Surgical Retractors.

Senn-Miller Retractor is a double-end hand held retractor also known as Senn Mueller or Senn Retractor which is commonly used to hold and open the tissues or muscle in small surgical sites during general surgeries. It is often used in plastic surgery, small bone and joint procedures, or thyroidectomy and dissection of neck tissue. This retractor features a central flat handle and two different working ends. The one end is L-shaped solid blade (20mmx7mm) while other side has three prongs (7mm Wide) facing opposite directions. Senn Miller Retractor is available in Sharp or Blunt prongs profile. Overall length is 16.2cm (6 3/8"). These features make this instrument well-suited for multiple surgical practices. Crafted from premium grade stainless steel. Fully autoclavable, build to last long with reusable properties.

SENN-MILLER RETRACTOR FEATURES

- Hand Held Surgical Retractor with 6 3/8" (16.2cm) Overall Length.
- Double Ended with Two Different Ends.
- Three Sharp Prongs For Safely Retracting Heavy Tissues.
- Dynamic L-Shaped Working End For Slicing Underneath Wound Edges.
- Ergonomic Central Handle For Maximum Surgical Control.

Skin Hook Blunt Sharp Stainless Steel Surgical Retractor

$2.30 per piece

Trade price from **$1.45**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture Skin Hook Blunt Sharp Stainless Steel Surgical Retractor for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible. From the pattern: blunt tips for atraumatic handling, and sharp points for precise penetration.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $2.30, falling to $1.45 at 10 pieces — about 37% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Skin Hook Blunt Sharp Stainless Steel Surgical Retractor Dermatology is a retractor we forge, grind and finish in our own Sialkot workshop. Instruments of this type hold a wound or cavity open so the operating field stays visible. From the pattern: blunt tips for atraumatic handling, and sharp points for precise penetration.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $2.30, falling to $0.90 at 10 pieces — about 61% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

This is our pattern of Stainless Steel Malleable Retractor Surgical Flexible Tissue Retractor, made for general and specialty operating theatre use. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $10.00, falling to $4.20 at 10 pieces — about 58% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

WI-35207039

Stainless Steel Malleable Retractor Tissue Handling Instrument

$12.00 per piece

Trade price from **$6.20**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Stainless Steel Malleable Retractor Tissue Handling Instrument — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $12.00, falling to $6.20 at 10 pieces — about 48% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture Stainless Steel Navy Double-Ended Surgical Tissue Retractor for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: two working ends on one handle, halving what you carry.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $6.00, falling to $3.00 at 10 pieces — about 50% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

WI-28897656

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

This is our pattern of Stainless Steel Self Retaining Surgical Retractor Set, made for general and specialty operating theatre use. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: a self-retaining mechanism, so it holds position without an assistant.

Supplied as a set — the contents can be adjusted to your list. We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $1800.00, falling to $1400.00 at 1 set — about 22% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

We manufacture Thompson Retractor System Complete Surgical Retractor for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $1800.00, falling to $1500.00 at 1 set — about 17% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Thompson Stainless Steel Abdominal Retractor Set

$1,100.00 per piece

Trade price from **$850.00**
Minimum order 1 set

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

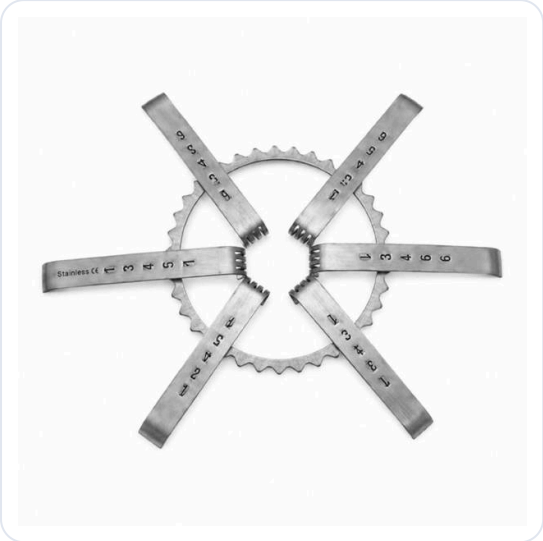

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture Thompson Stainless Steel Abdominal Retractor Set for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible. Supplied as a set — the contents can be adjusted to your list.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $1100.00, falling to $850.00 at 1 set — about 23% off the single-unit price.

Minimum order 1 set, and the price moves with quantity. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Volkman Retractor 8.5" (21.6cm) 3 Sharp Prongs with Ring Handle German Grade Stainless Steel Surgical Orthopedic Instruments.

This hand-held retractor used for exposing and retracting the surgical site. Volkmann hook retractor allows surgeons to manipulate tissues during distal limb surgeries, especially those involving small joints, soles, and palms surgical procedures. Volkmann surgical retractor features a hook-type working end with deep curve to reach narrow spaces with ease. Volkman consists of 1 to 6 prong tips that are available in blunt and sharp profiles. Which allows surgeons to retract single tendons or large slices of skin.

Volkmann Retractor has an ergonomic handle with central ring and a hollow distal portion. This unique pattern ensures a firm gripping and avoids slippage. Multiple prongs gives surgeons fexibiliy to pick the tool depending on the type of tissue being treated. Made with premium quality stainless steel, Volkman Retractors are perfect to be a part of your amazing orthopedic surgery kit. This retractor is sterilizable to become reusable.

VOLKMAN RETRACTOR FEATURES

- Crafted with 8.5" (21.6cm) Overall Length.
- Deep Curve Sharp Profile Hook End.
- Three Prong Hook For Grasping Small Or Large Slices Of Tissue.
- Long Shank For Reaching Narrow Anatomical Spaces.

Premium Quality Weitlaner Retractor 2×3 Prong Sharp 4.5" (11.4cm) Stainless Steel Ratchet Lock Finger Ring Handle Self Retaining Retractor for Surgical Veterinary Orthopedic Procedures.

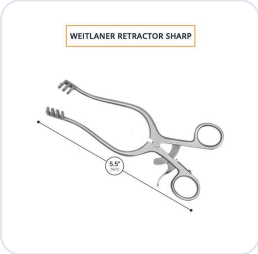

Weitlaner Retractor is a self-retaining, finger ring retractor with a cam ratchet lock used for retracting or holding back tissue and exposing a surgical site. Weitlaner has curved shanks that lead to blades that have sharp or blunt, outward curving prongs. The prongs interdigitate when the instrument is closed. The weitlaner self retaining retractor is a popular instrument, most commonly used in basic plastic surgery, large bone and joint procedures, and mastoid surgeries. It is also useful with small, deep incisions and soft tissue dissection at a superficial level. It holds shallow incisions in orthopedic surgery, in neurosurgical procedures like craniotomy it hold the skin of scalp. It is also used in cardiac surgery like implantation of pericardial pacemaker.

WEITLANER RETRACTOR SHARP FEATURES

- Dual Sharp/Sharp Outward Curving Prongs for Ideal Manipulation.
- Curved Blades for Better Tissue Access.
- Hooked Prongs for Secure Grip.
- Self Retaining Retractor.
- Ratchet Locking Mechanism.
- Finger Ring Handle for Comfortable Grip.
- Resuable.

Weitlaner Self Retaining Retractor Stainless Steel Surgical Tissue

$80.00 per piece

Trade price from **$73.20**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

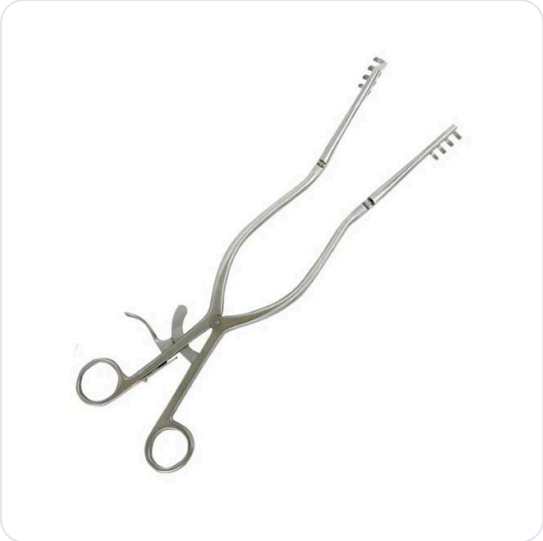

ABOUT THIS INSTRUMENT

We manufacture Weitlaner Self Retaining Retractor Stainless Steel Surgical Tissue for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: a self-retaining mechanism, so it holds position without an assistant.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $80.00, falling to $73.20 at 10 pieces — about 8% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Weitlaner Self-Retaining Retractors Stainless Steel Autoclavable Weitlaner — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: a self-retaining mechanism, so it holds position without an assistant.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $24.99, falling to $19.99 at 1 piece — about 20% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.
