Pack of 10 Straight & Curved Iris Scissors 3.5" (8.89 cm) German Grade Stainless Steel Dental Surgical Veterinary Instruments

Iris Scissor is a specialized instrument that was originally used to dissect the delicate tissues of the eye during ocular surgeries. It is now commonly preferred by surgeons for sharp dissection of sensitive tissue in Neuro, Plastic and general surgeries. Iris Scissor comes with pointy tips that are ideal for sharp dissection of tissues. Available in Straight and Curved variations.

IRIS SCISSORS FEATURES

IRIS SCISSORS STRAIGHT+CURVED: The straight & curved blades are designed for clean dissection and deep tissue access .Iris Scissors have adjustable screw, long body shank with big ring handles. They are great for sutures + dissection studies as well as for many other procedures like ophthalmic, often used in emergency rooms and for OB/GYN and dermatologic procedures as well.
STAINLESS STEEL CONSTRUCTION: The german grade stainless steel construction ensures maximum durability and dependability. You can reuse these scissors over time as they will not bend or tarnish on you. High quality stainless steel, excellent international quality standard.
ULTRASONIC CLEANED + AUTOCLAVABLE: To add even more value to our durable, long lasting iris scissors, they are ultrasonic cleaned and fully autoclavable. You can reuse

Pack of 10 Pieces of Heavy Duty EMT EMS Utility Trauma Bandage Scissors 7.25" (Black) Shears Set First Aid Stainless Steel Blades and Plastic Handles Paramedic Nursing Tools

EMT SHEARS/SCISSORS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

100 Littauer Spencer Stitch Suture Scissors 4.5″

$274.99 per piece

Trade price from **$252.99**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 100 Spencer Suture Scissors 4.5″ (11.43cm) Stitch Removal Scissors Stainless Steel Hook Medical Surgical Veterinary Instruments

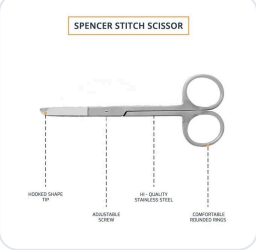

Spencer Stitch Scissors are primarily used for suture removal. These scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. The hook also holds the suture so it does not slip off the blade of the scissors prior to cutting. This pair of Spencer Stitch Scissors has a 4.5″ length, with smaller, more delicate tips that are perfect for removing smaller sutures. This product is straight with smooth, blunt/blunt tips. The stainless steel construction and OR quality make the Suture Scissors ideal for hospitals and specialty clinics.

SPENCER STITCH SCISSORS FEATURES

4.5″ SPENCER SUTURE SCISSORS: The suture scissors are primarily used for suture removal for medical, surgical and veterinary applications. They measure 4.5″ and have smaller tips designed to perfectly remove smaller sutures.
SMALL HOOK ON BLADE FOR EASY OPERATION: These suture scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. This effective design ensures that the suture does not slip off the scissors prior to cutting.
MADE OF HIGH QUALITY STAINLESS STEEL: Constructed of durable

11 Inch Stainless Steel Smooth Laser Scissors

$3.50 per piece

Trade price from **$2.50**
Minimum order 2 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

11 Inch Stainless Steel Smooth Laser Scissors — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The 11" size shown is our standard; other sizes in the same pattern are made to order.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $3.50, falling to $2.50 at 2 pieces — about 29% off the single-unit price. Larger quantities are priced on request.

Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

$1.50 per piece

Trade price from **$0.90**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

14cm Mayo Curved Surgical Scissors is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a curved working end for reach around structures.

The 14cm size shown is our standard; other sizes in the same pattern are made to order. We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $1.50, falling to $0.90 at 10 pieces — about 40% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

ABOUT THIS INSTRUMENT

We manufacture 14cm Stainless Steel Dressing Scissors Blunt Sharp Straight Surgical for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a straight working end for direct, in-line access, blunt tips for atraumatic handling, and sharp points for precise penetration.

The 14cm size shown is our standard; other sizes in the same pattern are made to order. Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $1.60, falling to $1.30 at 10 pieces — about 19% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

ABOUT THIS INSTRUMENT

17cm Mayo Surgical Scissors General Surgery Instrument is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The 17cm size shown is our standard; other sizes in the same pattern are made to order.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $5.50, falling to $4.50 at 25 pieces — about 18% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

17cm Mayo Surgical Shears Medical Stainless Steel General

$5.50 per piece

Trade price from **$4.50**
Minimum order 25 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

17cm Mayo Surgical Shears Medical Stainless Steel General is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The 17cm size shown is our standard; other sizes in the same pattern are made to order.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $5.50, falling to $4.50 at 25 pieces — about 18% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture 18cm Metzenbaum Scissors Stainless Steel Soft Tissue for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The 18cm size shown is our standard; other sizes in the same pattern are made to order.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $5.50, falling to $4.50 at 10 pieces — about 18% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

ABOUT THIS INSTRUMENT

We manufacture 18cm Stainless Steel Metzenbaum Dissecting Scissors Curved Straight Surgical for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a curved working end for reach around structures, and a straight working end for direct, in-line access.

The 18cm size shown is our standard; other sizes in the same pattern are made to order. Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $5.50, falling to $4.50 at 10 pieces — about 18% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

$12.99 per piece

Trade price from **$11.95**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Pack of 2 Curved Iris Scissors 3.5" (8.89 cm) German Grade Stainless Steel Dental Surgical Veterinary Instruments

Iris Scissor is a specialized instrument that was originally used to dissect the delicate tissues of the eye during ocular surgeries. It is now commonly preferred by surgeons for sharp dissection of sensitive tissue in Neuro, Plastic and general surgeries. Iris Scissor comes with pointy tips that are ideal for sharp dissection of tissues. Available in Straight and Curved variations.

IRIS SCISSORS FEATURES

IRIS SCISSORS CURVED: The curved blades are designed for better access to tissues. Scissor have 2 curved jaws, adjustable screw, long body shank with big ring handles. They are great for sutures + dissection studies as well as for many other procedures like ophthalmic, often used in emergency rooms and for OB/GYN and dermatologic procedures as well.
STAINLESS STEEL CONSTRUCTION: The german grade stainless steel construction ensures maximum durability and dependability. You can reuse these scissors over time as they will not bend or tarnish on you. High quality stainless steel, excellent international quality standard.
ULTRASONIC CLEANED + AUTOCLAVABLE: To add even more value to our durable, long lasting iris scissors, they are ultrasonic cleaned and fully autoclavable. You can reuse these durable instruments for many

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

2 Pcs Mayo Dissecting Scissors Set 8" (20.3cm) Straight & Curved Semi Blunt Tips with Finger Ring Handles Premium Quality Stainless Steel Medical Veterinary Surgical Instrument.

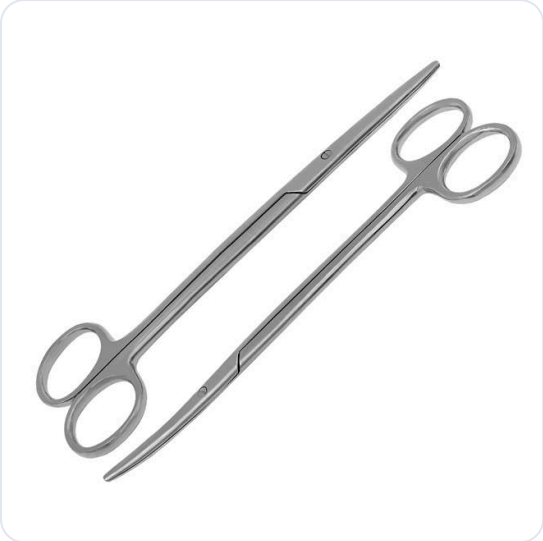

Pack of 2 Mayo scissors includes straight and curved blades, premium surgical instruments for cutting dense tissues and non-tissue materials. Straight Mayo scissors, or "suture scissors," handle superficial tissues and heavy sutures, providing control for flat cutting. Curved Mayo scissors facilitate deeper tissue dissection, enhancing visibility and maneuverability around structures to cut thick tissues without hindering the surgical field. Premium grade stainless steel construction makes these scissors a reliable cutting device for surgeons used in several surgical procedures to dissect, cut and remove tissues from different body cavities and spaces. Fully autoclaved and reusable.

MAYO SCISSORS FEATURESS

- 8" (20.3cm) Overall Length.
- Available in Straight & Curved Profile.
- Thick Blades With Semi-blunt Tips.
- Perfect for Cutting Connective Tissues, Fascia, and Sutures.

ABOUT THIS INSTRUMENT

This is our pattern of 25 Degree Potts Smith Stainless Steel Vascular Surgical Scissors, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $7.20, falling to $6.50 at 10 pieces — about 10% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item

3 Northbent Stitch Scissors 4.5" Rainbow Color Coated

$19.99 per piece

Trade price from **$18.39**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

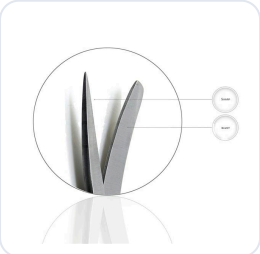

Pack of 3 Northbent Stitch Scissors 4.5" (11.43cm) Curved with Multicolor/Rainbow Titanium Coating – Premium Quality Instrument- Delicate Hook – Perfect for Suture Removal, First Aid, EMS Training and More

North Bent stitch scissors is primarily used for suture removal. The tip of the scissor is angled upward allowing it to easily slide under and lift the sutures prior to cutting. It is used to isolate and dissect sutures in a variety of procedures. Cuts sutures, both superficial and deep. It has a special design which enables it to isolate and cut different types of sutures. With ergonomic ring handles, this scissor includes short blades and a hook tip cutting edge to efficiently remove sutures in a single action.

NORTHBENT STITCH SUTURE SCISSOR FEATURES

4.50" CURVED RAINBOW NORTH BENT SUTURE SCISSOR: The North Bent suture scissors are primarily used for suture removal for surgical, medical and veterinary applications. They measure 4.50" and have smaller tips designed to perfectly remove smaller sutures.
SMALL HOOK ON BLADE FOR EASY OPERATION: These rainbow color north bent suture scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. This effective design ensures that the suture does not slip off the scissors prior to cutting.

Set of 3 Spencer Suture Scissors 3.5" 4.5" and 5.5" Stitch Removal Scissors Stainless Steel Hook Medical Surgical Veterinary Instruments

Spencer Stitch Scissors are primarily used for suture removal. These scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. The hook also holds the suture so it does not slip off the blade of the scissors prior to cutting. This set of Spencer Stitch Scissors has a all three (3.5", 4.5", 5.5") lengths, with smaller, more delicate tips that are perfect for removing sutures. This product is straight with smooth, blunt/blunt tips. The stainless steel construction and OR quality make the Suture Scissors ideal for hospitals and specialty clinics.

SPENCER STITCH SCISSORS FEATURES

3PCS SPENCER SUTURE SCISSORS: The suture scissors are primarily used for suture removal for medical, surgical and veterinary applications. They have smaller tips designed to perfectly remove smaller sutures.
SMALL HOOK ON BLADE FOR EASY OPERATION: These suture scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. This effective design ensures that the suture does not slip off the scissors prior to cutting.

4 PCS Embroidery Stork Scissors 4-Piece Leather Covers Anti-Acid

$2.85 per piece

Trade price from **$1.35**
Minimum order 50 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

4 PCS Embroidery Stork Scissors 4-Piece Leather Covers Anti-Acid — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $2.85, falling to $1.35 at 50 pieces — about 53% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

$10.00 per piece

Trade price from **$5.00**
Minimum order 10 sets

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

This is our pattern of 4 PCS Steel Surgical Instruments Kit, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. Supplied as a set — the contents can be adjusted to your list.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $10.00, falling to $5.00 at 10 sets — about 50% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Pack of 4 SuperCut Stevens Tenotomy Scissor 3.5", 4.5", 5" 5.5" Curved One Sharp & One Micro Fine Serration Blade Premium Quality Stainless Steel Narrow Blades Dissection Scissors for Ophthalmic, Neurosurgery and Plastic Surgery Procedures.

Stevens Tenotomy Scissor is a specialized surgical instrument used for dissecting delicate tissues. Commonly used to dissect tissues during neurological, ocular, and plastic surgeries. With round, pointy tips and narrow blades, the micro-serrated blade grasps tissues firmly and the razor sharp blade of the scissor slices through tissues with ease.

The short blades to shanks ratio help with increasing precision, accuracy and less user fatigue. Stevens supercut tenotomy scissors are in black color coded handle for easy identification and available in several variations and lengths. The straight version is ideal for superficial dissection while the curved blades help with deep dissection. Made with premium quality stainless steel ensures maximum durability and dependability. You can reuse Stevens tenotomy scissors over time as it is sterilizable and will not bend or tarnish on you.

STEVENS SUPERCUT TENOTOMY SCISSOR FEATURES:

- Curved Narrow Blades.
- One Razor Sharp Blade For Effortless Dissection.
- One Micro-Fine Serrated Blade For Secure Grip.

8 Inch Stainless Steel Silver Tailor Scissors Fabric

$7.25 per piece

Trade price from **$5.86**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

8 Inch Stainless Steel Silver Tailor Scissors Fabric is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The 8" size shown is our standard; other sizes in the same pattern are made to order.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $7.25, falling to $5.86 at 10 pieces — about 19% off the single-unit price. Larger quantities are priced on request.

Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

WI-26171217

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

This is our pattern of 9 Inch Industrial Multi-Purpose Tailor Shears Stainless Steel Heavy, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a heavy pattern built for load.

The 9″ size shown is our standard; other sizes in the same pattern are made to order. Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $3.50, falling to $2.50 at 3 pieces — about 29% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Angular Scissor 4.5″ with Safety Blunt Tips

$8.99 per piece

Trade price from **$8.27**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Angular Scissor 4.5″ (11.4cm) with Round Safety Tips – Premium Quality Stainless Steel Angular Safety Scissors for ENT, Plastic Surgery, Surgical Medical Veterinary Settings.

Angular scissors with safety tips are used in medical, surgical, grooming, and crafts settings for precision and preventing injury. They are commonly used in ENT surgery, plastic surgery, ophthalmology, dental procedures, and other surgical procedures. They are also used in grooming, particularly in nose and ear hair, and in sewing or embroidery projects. Their combination of angular blades and safety tips makes them ideal for controlled, precise cutting and minimizing the risk of accidental injury. Ergonomic handles offer a comfortable and secure grip, reducing hand fatigue during extended procedures. Made of high-quality stainless steel, offer a comfortable grip and are durable enough to withstand repeated sterilization processes, including autoclaving.

ANGULAR SAFETY SCISSORS FEATURES

- 4.5″ (11.4cm) Overall Length.
- Round Safety Blunt Tips.
- Angled Design for Precise Tissue Cutting.
- Provides Improved Access to Confined or Sensitive Areas.
- Commonly Used in Dental, ENT, Plastic Surgery, and Ophthalmologic Surgeries.
- Can also Use in Grooming, Sewing, and Embroidery.

We manufacture Anti-Acid Stainless Steel DIY for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $3.50, falling to $2.50 at 10 pieces — about 29% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Balloon Laser Angioplasty Tray Set Surgical Scissors Metal

$110.00 per piece

Trade price from **$95.00**
Minimum order 1 set

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Balloon Laser Angioplasty Tray Set Surgical Scissors Metal is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. Supplied as a set — the contents can be adjusted to your list.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $110.00, falling to $95.00 at 1 set — about 14% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item

Blunt Sharp Operating Scissors Surgical Cutting Tool

$1.10 per piece

Trade price from **$0.70**
Minimum order 80 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture Blunt Sharp Operating Scissors Surgical Cutting Tool for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: blunt tips for atraumatic handling, and sharp points for precise penetration.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $1.10, falling to $0.70 at 80 pieces — about 36% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

ABOUT THIS INSTRUMENT

Curved Horizontal Vitreoretinal Scissors for Retina Eye Surgery is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a curved working end for reach around structures.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $108.00, falling to $85.00 at 1 piece — about 21% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

ABOUT THIS INSTRUMENT

This is our pattern of Curved Metzenbaum Scissors Stainless Steel Surgical Dissecting Tool, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a curved working end for reach around structures.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $1.90, falling to $0.80 at 10 pieces — about 58% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

ABOUT THIS INSTRUMENT

Curved Utility Scissors Medical Cutting Tool for Surgical Procedures — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a curved working end for reach around structures.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $4.90, falling to $1.40 at 50 pieces — about 71% off the single-unit price. Larger quantities are priced on request.

Samples go out on request so you can check the steel and the finish before you place a real order.

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Heavy Duty EMT/EMS Utility Trauma Bandage Shears 5.5" (14cm) First Aid Scissors Stainless Steel Blades and Dark Green Plastic Handles Paramedic Nursing Tools.

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

ABOUT THIS INSTRUMENT

DIY Dressmaking Scissors 10 Inch Heavy Duty Industrial is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a heavy pattern built for load.

The 10″ size shown is our standard; other sizes in the same pattern are made to order. Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $3.50, falling to $2.50 at 10 pieces — about 29% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Duckbill Scissors Surgical Instrument Sharp Cutting Blades — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: sharp points for precise penetration.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $3.90, falling to $2.50 at 500 pieces — about 36% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Duckbill Surgical Scissors Precision Cutting Instrument Curved Blade Medical

$4.00 per piece

Trade price from **$2.00**
Minimum order 100 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture Duckbill Surgical Scissors Precision Cutting Instrument Curved Blade Medical for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a curved working end for reach around structures.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $4.00, falling to $2.00 at 100 pieces — about 50% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Electrician Scissors 5.25" for Cutting & Stripping Wires Electrical Repair Tool

$9.99 per piece

Trade price from **$9.19**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Electrician Scissors 5.25" for Cutting & Stripping Wires Electrical Repair Tool is an instrument we forge, grind and finish in our own Sialkot workshop. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for action and finish.

Listed at $9.99, falling to $9.19 at 21 pieces - about 8% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation

Electrician Stainless Steel Smooth Serrated Edge Locking

$1.86 per piece

Trade price from **$1.00**
Minimum order 3 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Electrician Stainless Steel Smooth Serrated Edge Locking is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: serrated jaws for grip that does not slip under tension.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $1.86, falling to $1.00 at 3 pieces — about 46% off the single-unit price. Larger quantities are priced on request.

Samples go out on request so you can check the steel and the finish before you place a real order.

ABOUT THIS INSTRUMENT

This is our pattern of Electrician's Bandage Scissors Stainless Steel Smooth Serrated, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: serrated jaws for grip that does not slip under tension.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $1.86, falling to $1.00 at 3 pieces — about 46% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

$8.99 per piece

Trade price from **$8.27**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Paramedic Utility EMT Trauma Shears Bandage Scissors 7.25" (18.4cm) Stainless Steel Paper Coated Printed Blades with Purple Plastic Handle Medical First Aid Tool.

These heavy-duty safety medical scissors with a blunt tip and serrated blades are tough to meet first responders, survivalists and hunters' needs. These scissors are lightweight and durable enough to cut through materials comes with a comfortable grip.

EMT UTILITY SCISSORS FEATURES:

HEAVY DUTY PAPER COATED EMT TRAUMA SHEARS: The EMT Utility Scissors feature high-quality stainless steel paper coated printed blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.

SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!

Enterotome Surgical Scissors Gastrointestinal Intestinal Operating Scissors

$12.00 per piece

Trade price from **$6.00**
Minimum order 50 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

This is our pattern of Enterotome Surgical Scissors Gastrointestinal Intestinal Operating Scissors, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $12.00, falling to $6.00 at 50 pieces — about 50% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

1 Piece of Heavy Duty EMT EMS Utility Trauma Bandage Shears 5.5" (14cm) First Aid Scissors Stainless Steel Blades and Gray Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

Half Gold Bandage Cutting Dressing Scissors Stainless Steel Surgical

$1.60 per piece

Trade price from **$1.30**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

This is our pattern of Half Gold Bandage Cutting Dressing Scissors Stainless Steel Surgical, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at $1.60, falling to $1.30 at 10 pieces — about 19% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Heavy Duty Lister Bandage Scissors 9" (22.9cm) Angled Blades Blunt Safety Probe Tip Round Pattern Shank with Finger Ring Handle – Premium Quality Stainless Steel Nursing Paramedic Medical Surgical Scissors.

Lister Bandage Scissors are a durable and stylish choice for many daily tasks for medical students or professionals. Bandage Scissors are stainless steel shears made with blunt end probe tip and sharp cutting blades for cutting gauze bandages and medical tapes. The ergonomic design allows them to glide easily along with the fabric, without cutting the patient. They are comfortable for the operator to use and easy to clean. High mirror finish Lister Bandage Scissors are perfect for veterinarians, medical students, hospitals, or professional medical office/clinics. Durable stainless steel construction suitable for medical and first aid use.

HAEVY DUTY LISTER BANDAGE SCISSORS FEATURES

- Size: 9" (22.9cm).
- Rounded Knob Blunt Lower Blade for Safe Insertion Between Skin and Bandages.
- Angled Shape Design Enhances Access and Visibility During Use.
- Sharp Upper Blade for Cutting Tough Materials Such as Gauze, Tape, Fiberglass, and Clothing.
- Ergonomic Finger Ring Handles Provide a Comfortable and Secure Grip.
- Rounded Pattern Straight Shanks.

Heavy Duty EMT EMS Utility Trauma Bandage Shears 5.5" (14cm) First Aid Scissors Stainless Steel Blades and Hunter Green Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

Iris Scissors 3.5" Curved Surgical Dental

$8.99 per piece

Trade price from **$8.27**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Curved Iris Scissor 3.5" (8.89 cm) German Grade Stainless Steel Dental Surgical Veterinary Instruments

Iris Scissor is a specialized instrument that was originally used to dissect the delicate tissues of the eye during ocular surgeries. It is now commonly preferred by surgeons for sharp dissection of sensitive tissue in Neuro, Plastic and general surgeries. Iris Scissor comes with pointy tips that are ideal for sharp dissection of tissues. Available in Straight and Curved variations.

IRIS SCISSORS FEATURES

IRIS SCISSORS Curved: The curved blades are designed for better access to tissues. Scissor have 2 curved jaws, adjustable screw, long body shank with big ring handles. They are great for sutures + dissection studies as well as for many other procedures like ophthalmic, often used in emergency rooms and for OB/GYN and dermatologic procedures as well.
STAINLESS STEEL CONSTRUCTION: The german grade stainless steel construction ensures maximum durability and dependability. You can reuse these scissors over time as they will not bend or tarnish on you. High quality stainless steel, excellent international quality standard.
ULTRASONIC CLEANED + AUTOCLAVABLE: To add even more value to our durable, long lasting iris scissors, they are ultrasonic cleaned and fully autoclavable. You can reuse these durable instruments for many years, as they are extremely hygienic.

J2 Japanese Stainless Steel Mayo Dissecting

$3.25 per piece

Trade price from **$2.00**
Minimum order 1 piece

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

J2 Japanese Stainless Steel Mayo Dissecting is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at $3.25, falling to $2.00 at 1 piece — about 38% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

WI-36003362

J-2 Scissor Stainless Steel Surgical Instrument

$9.00 per piece

Trade price from **$5.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

J-2 Scissor Stainless Steel Surgical Instrument is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $9.00, falling to $5.00 at 10 pieces — about 44% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

J-2 Scissor Stainless Steel Surgical Scissors Medical Surgical

$9.00 per piece

Trade price from **$5.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

J-2 Scissor Stainless Steel Surgical Scissors Medical Surgical — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $9.00, falling to $5.00 at 10 pieces — about 44% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Laser Applique Scissors

$3.50 per piece

Trade price from **$2.50**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Laser Applique Scissors is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at $3.50, falling to $2.50 at 10 pieces — about 29% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Left Handed Suture Removal Scissors Hemostatic Forceps

$1.86 per piece

Trade price from **$1.00**
Minimum order 3 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Left Handed Suture Removal Scissors Hemostatic Forceps is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $1.86, falling to $1.00 at 3 pieces — about 46% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item

1 Piece of Heavy Duty EMT EMS Utility Trauma Bandage Shears 5.5" (14cm) First Aid Scissors Stainless Steel Blades and Light Green Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

Lister Bandage Scissors Stainless Steel Surgical Instruments Multi-Color

$2.25 per piece

Trade price from **$0.99**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture Lister Bandage Scissors Stainless Steel Surgical Instruments Multi-Color for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at $2.25, falling to $0.99 at 10 pieces — about 56% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

This is our pattern of Lister Bandage Scissors Surgical, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $1.30, falling to $0.90 at 1 piece — about 31% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Littauer Spencer Stitch Scissors 5.5" (14cm) Round Pattern with Stainless Steel Hook Tip & Ring Handle Premium Quality Suture Removal Scissors in Medical Surgical Veterinary Procedures.

Littauer Spencer scissors are specialized surgical instruments designed for the safe, precise, and efficient removal of stitches (sutures). This scissor featuring a specialized hook tip for easy sliding beneath suture loops. Their blunt hook prevents puncturing the skin, making them ideal for delicate work in tight areas or small incisions, particularly in general surgery, dermatology, and plastic surgery. Made of stainless steel, are autoclavable for sterilization. Suitable for Veterinary clinics, Medical / Surgical practices, hospitals, EMT emergency + medical kits and many more.

NOTE: This scissor does not use for cutting thick tissues, only for suture material and stitch removal.

LITTAUER SPENCER STITCH SCISSORS FEATURES

- Size: 5.5 Inches (14 cm).
- Round Pattern.
- Small Hooked Tip on One Blade.
- Straight, Blunt Tips.
- Notched Blade for a Sure Grip of the Suture to Cut.
- Ring Handle for Comfortable Grip.

ABOUT THIS INSTRUMENT

Littler Surgical Scissors Precision Cutting Instrument for Fine Tissue — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a fine pattern for delicate tissue.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $8.00, falling to $3.00 at 25 pieces — about 62% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

1 Piece of Heavy Duty EMT EMS Utility Trauma Bandage Shears 5.5" (14cm) First Aid Scissors Stainless Steel Blades and Magenta Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without
