Mayo Harrington Dissecting Scissors Straight 20cm J2

$3.25 per piece

Trade price from **$2.00**
Minimum order 1 piece

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Mayo Harrington Dissecting Scissors Straight 20cm J2 is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a straight working end for direct, in-line access.

The 20cm size shown is our standard; other sizes in the same pattern are made to order. The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation.

Listed at $3.25, falling to $2.00 at 1 piece — about 38% off the single-unit price. Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

$4.50 per piece

Trade price from **$4.00**
Minimum order 50 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture Mayo Scissors-05 Hospital Surgical Mayo Scissors Straight Curved German for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a curved working end for reach around structures, and a straight working end for direct, in-line access.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $4.50, falling to $4.00 at 50 pieces — about 11% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

McPherson-Vannas Scissors 3" (8cm) Sharp 3mm Straight Blades 0.1mm Pointed Tips Micro Dissecting Surgical Ophthalmic Micro Surgery Instruments

Mcpherson Vannas Scissors are incredible surgical instruments used in ophthalmological procedures as well as other general surgical procedures. Mcpherson Vannas Scissors are suitable for incising tissues while performing the iridectomy. These fine micro dissecting scissors have very thin blades with long taper and sharp needle points.

The thin blades are ideal for working in narrow spaces like when reaching inside blood vessels to cut their walls. These scissors have a spring-loaded design and consist of a spaced handle to provide optimal control. Besides, it has a German stainless assembly, due to which it boasts high tensile strength.. Perfect for ophthalmologic procedures such as cataract surgery, capsulotomy and iridectomy (iris removal). Also used during neurosurgical procedures

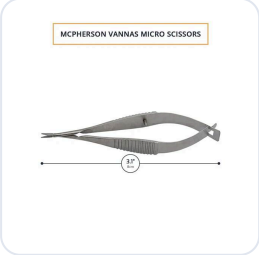

MCPHERSON-VANNAS SCISSORS FEATURES

- 3mm sharp blades.
- 0.1mm Tips.
- Spring-Loaded Design.
- 8cm overall length.
- Fine, sharp tips available in curved & straight.
- Lightweight and ergonomic design
- Made with surgical grade stainless steel.

ABOUT THIS INSTRUMENT

This is our pattern of Medical Student Surgical Scissors Dissection Kit, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. Supplied as a set — the contents can be adjusted to your list.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $55.00, falling to $32.00 at 10 pieces — about 42% off the single-unit price. Larger quantities are priced on request.

Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Medical TC Dissecting Scissors

$4.00 per piece

Trade price from **$2.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Medical TC Dissecting Scissors is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $4.00, falling to $2.00 at 10 pieces — about 50% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Metzenbaum Laparoscopic Scissors 5x330mm

$99.99 per piece

Trade price from **$91.99**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

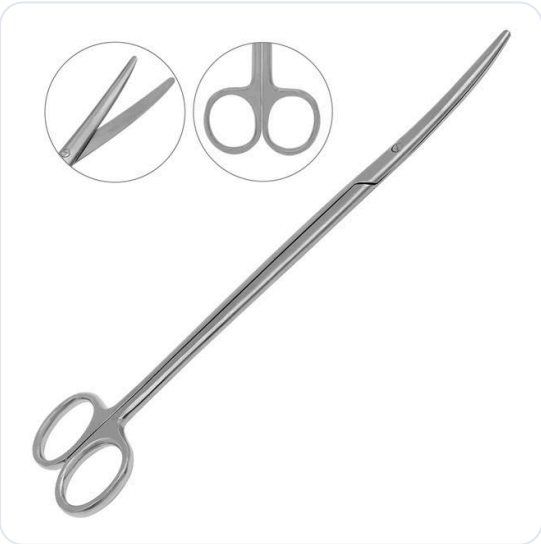

Metzenbaum Laparoscopic Scissors 5×330mm Stainless Steel Rotatable Laparoscopic Precision Scissor with Plastic Handle Laparoscopy Surgical Medical Instruments

Laparoscopic Metzenbaum scissors for long and fatigue-free surgery without instrument changes. The cutting motion is tactilely transmitted to the hand of the surgeon without any idle in the movement of the handles, whereby the dissection can be optimally performed. Specially designed equine laparoscopic instruments.

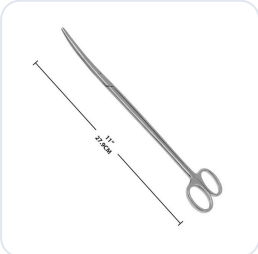

Laparoscopic Metzenbaum scissor handle is detachable from the shaft. The flat blades allow easy insertion between tissue planes and the curve allows better surgeon observation of the tips when looking down the shaft of the instrument through a laparoscope. It is used in virtually all specialties doing laparoscopic surgery. It is often used to coagulate tissue with monopolar electrocautery. These scissors also helpful Laparoscopic surgery, General Surgery, Onco Surgery, Urology, Gynaecology, Gastroenterology, Bariatric/Obesity Surgery, and Paediatric Surgery procedures.

METZENBAUM LAPAROSCOPIC SCISSORS FEATURES:

- 360° Rotatable
- Diameter: 5mm
- Ergonomic Designed Medical Grade Plastic / Polycarbonate Handles

Micro Scissors Stainless Steel Spring Action Surgical

$8.00 per piece

Trade price from **$2.30**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

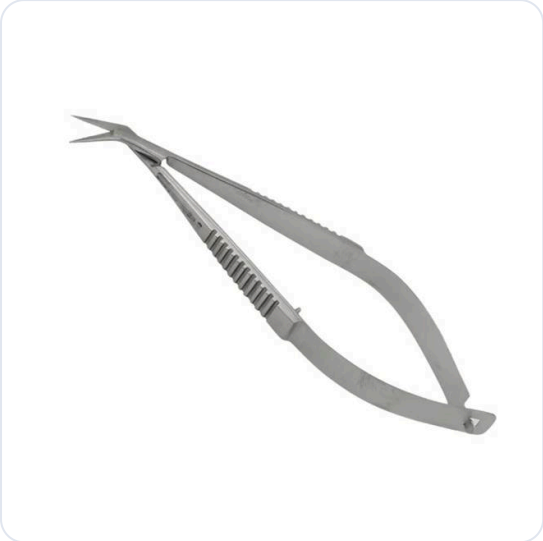

ABOUT THIS INSTRUMENT

We manufacture Micro Scissors Stainless Steel Spring Action Surgical for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a micro-scale working end for fine and delicate work, and spring action that returns the tips automatically.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $8.00, falling to $2.30 at 10 pieces — about 71% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Multipurpose Surgical Micro Scissors Spring Action Stainless Steel Instrument

$8.00 per piece

Trade price from **$2.30**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

We manufacture Multipurpose Surgical Micro Scissors Spring Action Stainless Steel Instrument for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a micro-scale working end for fine and delicate work, and spring action that returns the tips automatically.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $8.00, falling to $2.30 at 10 pieces — about 71% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Nasal Sinus Scissors Adult 5.5" (14cm) Working Length Straight Blades With Blunt Tips and Ring Handle Premium Quality Stainless Steel ENT Nasal Surgical Rhinology Instruments.

Nasal sinus scissors are specialized surgical instruments that ENT surgeons use for severing cartilages, polyps, concha, and other tissues in order to perform parasanal surgeries or to remove ostium obstructions. This sinus scissors with straight blades are designed to precisely cut nasal tissue and cartilage. Nasal straight blades scsisors are available in different configurations to accommodate a range of cases. With sharp, blunt blades, these nasal scissors ensure safe and efficient cutting of tissues inside the nasal cavity, where other scissors would struggle. The slim shafts with alligator-like jaws make nasal sinus scissors ideal for easily traversing the nostrils. Finger rings ensure an exceptional grip and excellent cutting pressure with minimal effort. Made with premium-grade stainless steel to ensure durability and exceptional performance over time, as these are fully autoclaved/reusable.

NASAL SINUS SCISSORS FEATURES

- Crafted with 5.5" (14cm) Long Working Shaft.
- Blunt Tip Straight Blades.
- Long Slim Shaf for easy traversing the nostrils.
- Alligator-Like Jaws Promoting Delicate Cuts.

1 Piece of Heavy Duty EMT EMS Utility Trauma Bandage Scissors 7.25" (Navy Blue) Shears Set First Aid Stainless Steel Blades and Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

NINJA SUPREME SUPER CUT HAIR SHEARS FEATURES

NINJA SUPREME 3 RING HAIR SHEARS: The Ninja Supreme 3 Ring Handle Bevel Edge Scissor is a premium quality professional pair of hair cutting shears. State of the art style that helps to create many types of high quality cuts that stand out from the rest.

PREMIUM QUALITY JAPANESE 420 GRADE STEEL: Stainless steel grade 420 is a high-quality corrosion resistant steel. It is known to possess outstanding strength and impact resistance properties when compared with 440 grades and other hair cutting scissors. Forged Japenese high end steel. Triple tempered stainless steel holds its superior edge. It boasts a high mirror finish, a durable body with a sleek look and is built to last many years.

ULTRA SHARP SUPER CUT BLADES: The Ninja Supreme Super Cut Scissors Measure 6″ from tip to hook end and 5.50″ from ring to point tip. They are well-proportioned with a beveled edge for high quality polished cuts. The ultra-sharp blades will not tug hair or cause split ends by cutting. The convex blades provide perfect cutting balance and stay sharp for a long time.

North Bent Suture Stitch Scissors 4.5" (11.43cm) Curved with Multicolor/Rainbow Titanium Coating – Premium Quality Instrument- Delicate Hook – Perfect for Suture Removal, First Aid, EMS Training and More

Northbent stitch scissor is primarily used for suture removal. The tip of the scissor is angled upward allowing it to easily slide under and lift the sutures prior to cutting. It is used to isolate and dissect sutures in a variety of procedures. Cuts sutures, both superficial and deep. It has a special design which enables it to isolate and cut different types of sutures. With ergonomic ring handles, this scissor includes short blades and a hook tip cutting edge to efficiently remove sutures in a single action.

NORTHBENT STITCH SUTURE SCISSOR FEATURES

4.50" CURVED RAINBOW NORTH BENT SUTURE SCISSOR: The North Bent suture scissors are primarily used for suture removal for surgical, medical and veterinary applications. They measure 4.50" and have smaller tips designed to perfectly remove smaller sutures.

SMALL HOOK ON BLADE FOR EASY OPERATION: These rainbow color north bent suture scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. This effective design ensures that the suture does not slip off the scissors prior to cutting.

Noyes Micro Scissors Precision Microsurgical Instrument Fine Tip Surgical

$8.00 per piece

Trade price from **$4.00**
Minimum order 14 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Noyes Micro Scissors Precision Microsurgical Instrument Fine Tip Surgical — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a micro-scale working end for fine and delicate work, and a fine pattern for delicate tissue.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at $8.00, falling to $4.00 at 14 pieces — about 50% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

This is our pattern of Noyes Microsurgical Scissors Fine Blade Surgical Instrument, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a fine pattern for delicate tissue.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $7.00, falling to $4.00 at 50 pieces — about 43% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

This is our pattern of Operating Scissors Blunt Sharp Straight Surgical Instrument, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a straight working end for direct, in-line access, blunt tips for atraumatic handling, and sharp points for precise penetration.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $1.00, falling to $0.80 at 50 pieces — about 20% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

These scissors are made with high quality stainless steel and perfect for operating room applications available in curved and straight variants. The curved jaws allow better deep tissue access. whereas the straight jaws are ideal for superficial dissection. They are handcrafted with a flat blade including ergonomic ring handles for comfortable handling with less user fatigue. These surgical scissors useful to cutting both tissue and materials alike and are reusable after proper sterilization.

OPERATING SCISSORS FEATURES

- Durable with Long Lasting Cutting.
- Dual Tip Configurations For Sharp/Blunt Dissection.
- Sharp Blades.
- Comfortable Grip
- Resilient and Rustproof
- Reusable After sterilization

Operating Scissors-03 Surgical Scissors Blunt-Sharp Blade for Tissue

$0.69 per piece

Trade price from **$0.59**
Minimum order 500 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Operating Scissors-03 Surgical Scissors Blunt-Sharp Blade for Tissue is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: blunt tips for atraumatic handling, and sharp points for precise penetration.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at $0.69, falling to $0.59 at 500 pieces — about 14% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

1 Piece of Heavy Duty EMT EMS Utility Trauma Bandage Shears 5.5" (14cm) First Aid Scissors Stainless Steel Blades and Orange Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Ostomy Scissors Curved 4.5" (11.4cm) Round Blunt Tip Finger Ring Handle – Premium Quality Stainless Steel Ostomy Scissors for Cutting Stoma Bags and Other Colostomy Ileostomy Surgical Procedures.

Ostomy scissors are a convenient and effective care assistant for caregivers and patients with colostomy and ileostomy, offering smooth edges and a blunt round tip. Coloplast ostomy scissors have curved blades to make the circular cuts necessary when cutting the ostomy baseplate to the proper stoma size. These scissors are designed with a rounded lower blade to prevent damage to the pouch and an upper 'teeth' blade for smooth cutting. This blade ensures the baseplate stays in place without slipping, making it easy to control and cut smooth lines. This stoma pouch shears is ideal for double bandages, gauze and more perfect for Doctors, Nurses, Veterinary Home Nursing. Made with premium quality stainless steel ensures high durability and corrosion resistance. Fully sterilizable for reusable purposes.

OSTOMY SCISSORS FEATURES

- 4.5" (11.4cm) Overall Length.
- Blunt Tips
- Curved Blades to Facilitate Circular Cuts
- Upper Tooth Blades for Smooth Cutting.
- Lower Sharp Round End Blade Prevent Slipping and Demage to Stoma Pouch.
- Ideal for Precise Trims and Cuts.

Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

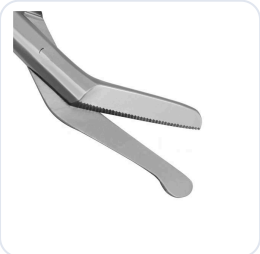

ABOUT THIS INSTRUMENT

This is our pattern of Ostomy Surgical Scissors 5-Inch Straight Precision Instrument, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: a straight working end for direct, in-line access.

The 5″ size shown is our standard; other sizes in the same pattern are made to order. Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $8.90, falling to $6.90 at 25 pieces — about 22% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Pack of 20 Pcs Curved Iris Scissor 4.5" (11.43 cm) German Grade Stainless Steel Dental Surgical Veterinary Instruments

Iris Scissor is a specialized instrument that was originally used to dissect the delicate tissues of the eye during ocular surgeries. It is now commonly preferred by surgeons for sharp dissection of sensitive tissue in Neuro, Plastic and general surgeries. Iris Scissor comes with pointy tips that are ideal for sharp dissection of tissues. Available in Straight and Curved variations.

IRIS SCISSORS FEATURES

IRIS SCISSORS CURVED: The curved blades are designed for better access to tissues. This scissor have 2 small curved jaws, adjustable screw, long body shank with big ring handles. They are great for sutures + dissection studies as well as for many other procedures like ophthalmic, often used in emergency rooms and for OB/GYN and dermatologic procedures as well.
STAINLESS STEEL CONSTRUCTION: The german grade stainless steel construction ensures maximum durability and dependability. You can reuse these scissors over time as they will not bend or tarnish on you. High quality stainless steel, excellent international quality standard.
ULTRASONIC CLEANED + AUTOCLAVABLE: To add even more value to our durable, long lasting iris scissors, they are ultrasonic cleaned and fully autoclavable. You can reuse these durable instruments for many

1 Piece of Heavy Duty EMT EMS Utility Trauma Bandage Scissors 7.25" (Red) Shears Set First Aid Stainless Steel Blades and Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Littauer Suture Stitch Scissors 4.5″ Size Multi Titanium Rainbow Stitch Removal Scissors with Hook Stainless Steel Medical Surgical Veterinary Instruments

Spencer Stitch Scissors are primarily used for suture removal. These scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. The hook also holds the suture so it does not slip off the blade of the scissors prior to cutting. This pair of Rainbow Spencer Stitch Scissors has a 4.5″ length, with smaller, more delicate tips that are perfect for removing smaller sutures. This product is straight with smooth, blunt/blunt tips. The stainless steel construction and OR quality make the Suture Scissors ideal for hospitals and specialty clinics.

RAINBOW SPENCER STITCH SCISSORS FEATURES

4.5″ RAINBOW SPENCER SUTURE SCISSORS: The suture scissors are primarily used for suture removal for medical, surgical and veterinary applications. They measure 4.5″ and have smaller tips designed to perfectly remove smaller sutures.
SMALL HOOK ON BLADE FOR EASY OPERATION: These suture scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. This effective design ensures that the suture does not slip off the scissors prior to cutting.
MADE OF HIGH QUALITY STAINLESS STEEL: Constructed of durable

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

Reusable 304 Stainless Steel Double Bow Handheld

$3.00 per piece

Trade price from **$1.50**
Minimum order 1 piece

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Reusable 304 Stainless Steel Double Bow Handheld is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: full reusability — clean, autoclave and use again.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at $3.00, falling to $1.50 at 1 piece — about 50% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

SPENCER STITCH SCISSORS FEATURES

5.5" SPENCER SUTURE SCISSORS: The suture scissors are primarily used for suture removal for medical, surgical and veterinary applications. They measure 5.5" and have smaller tips designed to perfectly remove smaller sutures.
SMALL HOOK ON BLADE FOR EASY OPERATION: These suture scissors have a small hook shaped tip on one blade that slides under sutures to slightly lift them before cutting for removal. This effective design ensures that the suture does not slip off the scissors prior to cutting.
MADE OF HIGH QUALITY STAINLESS STEEL: Constructed of durable

Stainless Steel 8-inch Silver & Black

$3.50 per piece

Trade price from **$2.50**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Stainless Steel 8-inch Silver & Black is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The 8″ size shown is our standard; other sizes in the same pattern are made to order.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $3.50, falling to $2.50 at 10 pieces — about 29% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

WI-27188946

Stainless Steel Bandage Scissors Smooth/Serrated Foldable Design

$1.86 per piece

Trade price from **$1.00**
Minimum order 3 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture Stainless Steel Bandage Scissors Smooth/Serrated Foldable Design for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: serrated jaws for grip that does not slip under tension.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $1.86, falling to $1.00 at 3 pieces — about 46% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Stainless Steel Embroidery Scissors Tailor Shears Rubber is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $6.80, falling to $4.90 at 10 pieces — about 28% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Steel Micro Vascular Scissors Crown Angled — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: an angled shank that keeps the hand clear of the sightline, and a micro-scale working end for fine and delicate work.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $1.30, falling to $0.90 at 10 pieces — about 31% off the single-unit price. Larger quantities are priced on request.

Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Steel Tenotomy Scissors with Fine Curved Blades for Eye

$8.00 per piece

Trade price from **$3.50**
Minimum order 50 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Steel Tenotomy Scissors with Fine Curved Blades for Eye is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a curved working end for reach around structures, and a fine pattern for delicate tissue.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $8.00, falling to $3.50 at 50 pieces — about 56% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable

ABOUT THIS INSTRUMENT

Steven Tenotomy Instrument Fine Curved Scissors Ophthalmology Surgery Tool is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. From the pattern: a curved working end for reach around structures, and a fine pattern for delicate tissue.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $9.00, falling to $6.00 at 50 pieces — about 33% off the single-unit price. Larger quantities are priced on request.

SuperCut Stevens Tenotomy Scissor 3.5″ (8.9m) Straight One Sharp & One Micro Fine Serration Blade Premium Quality Stainless Steel Narrow Blades Dissection Scissors for Ophthalmic, Neurosurgery and Plastic Surgery Procedures.

Stevens Tenotomy Scissor is a specialized surgical instrument used for dissecting delicate tissues. Commonly used to dissect tissues during neurological, ocular, and plastic surgeries. With round, pointy tips and narrow blades, the micro-serrated blade grasps tissues firmly and the razor sharp blade of the scissor slices through tissues with ease.

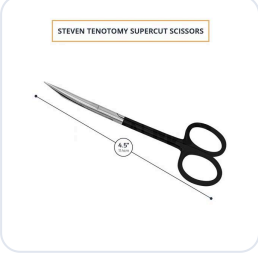

The short blades to shanks ratio help with increasing precision, accuracy and less user fatigue. Stevens supercut tenotomy scissors are in black color coded handle for easy identification and available in several variations and lengths. The straight version is ideal for superficial dissection while the curved blades help with deep dissection. Made with premium quality stainless steel ensures maximum durability and dependability. You can reuse Stevens tenotomy scissors over time as it is sterilizable and will not bend or tarnish on you.

STEVENS SUPERCUT TENOTOMY SCISSOR FEATURES:

- Staright Narrow Blades.
- One Razor Sharp Blade For Effortless Dissection
- One Micro-Fine Serrated Blade For Secure Grip
- 3.5″ (8.9cm) Overall Length.

Surgical Bandage Scissors Serrated

$1.86 per piece

Trade price from **$1.00**
Minimum order 3 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Surgical Bandage Scissors Serrated is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: serrated jaws for grip that does not slip under tension.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $1.86, falling to $1.00 at 3 pieces — about 46% off the single-unit price. Larger quantities are priced on request.

We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

WI-32026461

Surgical Dissecting Instrument Kit Stainless Steel A+

$7.00 per piece

Trade price from **$4.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Surgical Dissecting Instrument Kit Stainless Steel A+ is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. Supplied as a set — the contents can be adjusted to your list.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $7.00, falling to $4.00 at 10 pieces — about 43% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Surgical Scissors For General Surgery

$7.90 per piece

Trade price from **$1.90**
Minimum order 50 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

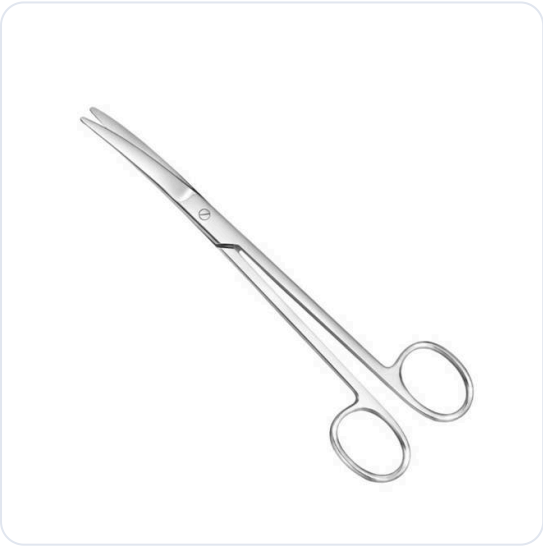

ABOUT THIS INSTRUMENT

Surgical Scissors For General Surgery is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $7.90, falling to $1.90 at 50 pieces — about 76% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

ABOUT THIS INSTRUMENT

TC La Grange Scissors Stainless Steel Tungsten — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $6.00, falling to $4.50 at 10 pieces — about 25% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

TC Metzenbaum Scissors Stainless Steel Surgical Dissecting Instrument Set

$10.00 per piece

Trade price from **$5.00**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

This is our pattern of TC Metzenbaum Scissors Stainless Steel Surgical Dissecting Instrument Set, made for general and specialty operating theatre use. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

Supplied as a set — the contents can be adjusted to your list. Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $10.00, falling to $5.00 at 10 pieces — about 50% off the single-unit price.

Larger quantities are priced on request. Tell us the quantity you actually need and we will price it, including quantities below the listed minimum.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

WI-44941185

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture TC Metzenbaum Scissors Stainless Steel Tungsten Carbide for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: tungsten carbide inserts for a longer cutting life.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at $7.00, falling to $4.90 at 10 pieces — about 30% off the single-unit price. Larger quantities are priced on request.

Samples go out on request so you can check the steel and the finish before you place a real order.

1 Piece of Heavy Duty EMT EMS Utility Trauma Bandage Scissors 7.25" (Teal) Shears Set First Aid Stainless Steel Blades and Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

Umbilical Cord Cutting Scissors Stainless Steel Obstetric is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at $1.50, falling to $0.90 at 10 pieces — about 40% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Lead time	Typically 15–30 days depending on quantity and marking

ABOUT THIS INSTRUMENT

We manufacture Umbilical Cord Scissors Stainless Steel Obstetric for general and specialty operating theatre use — made from bar stock to finished instrument in house. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at $1.50, falling to $1.30 at 10 pieces — about 13% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Umbilical Cord Scissors Stainless Steel Surgical Delivery Scissors Medical

$1.50 per piece

Trade price from **$0.90**
Minimum order 10 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Umbilical Cord Scissors Stainless Steel Surgical Delivery Scissors Medical — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Each unit is inspected by hand for alignment and action before packing, and we can photograph your actual pieces before they ship. Listed at $1.50, falling to $0.90 at 10 pieces — about 40% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Universal EMT Utility Scissors 5.5" Stainless Steel Serrated Edge

$0.88 per piece

Trade price from **$0.60**
Minimum order 50 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Universal EMT Utility Scissors 5.5" Stainless Steel Serrated Edge is part of our surgical instruments range, produced start to finish at our Sialkot facility. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line. The name tells you what you are getting: serrated jaws for grip that does not slip under tension.

The steel is heat treated and passivated for corrosion resistance, then each instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at $0.88, falling to $0.60 at 50 pieces — about 32% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Universal Wire Cutting Scissors 4.75″ Angled with Notch

$9.99 per piece

Trade price from **$9.19**
Minimum order 21 pieces

✓ Surgical-grade stainless steel ✓ Reusable, autoclavable
✓ OEM / private-label marking

Universal Wire Cutting Scissors 4.75″ (12.1cm) Angled with Notch One Serrated and One Sharp Blades Dental, Orthopedic & General Surgery Instruments.

Universal wire cutting scissors also know as Roger Wire Cutting Scissors used to cuts all kinds of wires associated with medical devices as well as fibers. Wire Cutting Scissors 4 3/4″ (12.1cm) angled with notch are crafted from top-grade stainless material which increases their durability. They are used to cut k-wire, cerclage wire, and steinmann pins. The surgeons can use these scissors to cut wires, pins, rods, and cables.

They are perfectly angled to make the cutting process easy for the surgeons. This scissor especially includes the single toothed edge which enhances cutting performance. The force evenly distributes along an extremely thin edge for better cutting and short blades to shanks ratio allow better control. The universal wire cutting scissor comes with round tips to prevent injures to surrounding tissue. These scissors can easily be reused after cleaning and sterilization.

UNIVERSAL WIRE CUTTING SCISSORS FEATURES

- Roger Wire Cutting Scissors 4.75″ (12.1cm) Overall Length.
- Angled Blades for Better Access.
- Notched Blades to Hold Wires.
- One Heavy Serrated Blade Edge for Enhanced Cutting Performance.

1 Piece of Heavy Duty EMT EMS Utility Trauma Bandage Scissors 7.25'' (White) Shears Set First Aid Stainless Steel Blades and Plastic Handles Paramedic Nursing Tools

EMT SCISSORS/SHEARS FEATURES:

HEAVY-DUTY CONSTRUCTION: The EMT Shears feature high-quality stainless steel blades with razor-sharp edges and milled serrations for cutting through the toughest materials over and over. Great for medical emergencies or any situation where heavy cutting strength is needed.
SUPER SHARP: These medical scissors are sharp and durable for fast removal of clothing from patients, dressings, and other restrictive items. The blades are not only 3x harder than Stainless Steel but also the blades have a non-stick surface that resists the stickiness of tape, glue, etc. Enhanced serrated lower edge cuts through the toughest materials. Effortlessly cuts through materials such as bandages, clothing, vinyl, leather, multiple layers of thick fabrics, or even a penny!
PREMIUM PERFORMANCE: The soft-grip, non-slip contoured handles with large finger openings are specially created to stand up to rough treatment and autoclave temperatures to 290 F/143 C. The bandage shears have an ergonomic handle design that makes these heavy-duty scissors comfortable to hold and easy to operate in both the right and left hand. Designed with a safe blunted tip to easily remove bandages and dressing without
