1020ml Reusable 304 Stainless Steel Veterinary Feeding Syringe

\$3.00 per piece

Trade price from **\$1.50**
Minimum order 8 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

1020ml Reusable 304 Stainless Steel Veterinary Feeding Syringe is a veterinary instrument we forge, grind and finish in our own Sialkot workshop. The name tells you what you are getting: full reusability — clean, autoclave and use again.

Every piece is hand-finished and inspected before it leaves the bench:

joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$3.00, falling to \$1.50 at 8 pieces — about 50% off the single-unit price.

Larger quantities are priced on request. Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item

13 Piece Stainless Steel Surgical Instrument Set Forceps Scissors

\$50.00 per piece

Trade price from **\$18.00**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

13 Piece Stainless Steel Surgical Instrument Set Forceps Scissors is part of our veterinary instruments range, produced start to finish at our Sialkot facility. Instruments of this type grip a suture needle firmly through the full arc of a stitch. Supplied as a set — the contents can be adjusted to your list.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$50.00, falling to \$18.00 at 10 pieces — about 64% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

2 Tartar Removing Forceps 4.5" & 7" Dental Veterinary Instruments

\$19.99 per piece

Trade price from \$18.39
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Pack of 2 Tartar Removing Forceps 4.5" and 7" Small & Large Set- Professional Dental Tartar Scraper and Remover Premium Quality Stainless Steel Dental Veterinarian Instruments.

Tartar remover forceps is an oral instrument to remove and scrape tartar on the teeth. Dental tartar forceps specially designed for removing an excessive amount of tartar buildup on canine teeth. Primarily, these are used to remove the tartar before scaling. Our tartar removal forceps are ideal for removing large bits of tartar and not for basic buildups. The tartar forceps feature a curved beak to allow for the easy removal of heavy calculus from the tooth surface before scaling the teeth. The long tip is placed behind the tooth, while the curved portion is

placed at the top of the tooth on the front side. The clinician will then apply gentle pressure and pull down the front of the forceps. Tartar will then be chipped off by this movement. This tartar remover scraper is user friendly and easy to clean as it is autoclavable.

Professional dental tartar scraper is ideal for hospitals and specialty clinics. This tartar remover scraper will last and remain dependable for medical personnel, thanks to the durable surgical steel construction.

TARTAR REMOVING FORCEPS FEATURES

- Comes with 4.5" & 7" Overall Length.
- Flat on One Side and Curved Shaped Beak on the Other End.

Pack of 3 Burdizzo Style Castration Plier 12", 16", 18" Long with Wooden Handle Stainless Steel Castration Forceps Veterinary Instruments – Livestock Lamb Cattle Goat Emasculator Banding

BURDIZZO Castrator invented by Italian Dr Burdizzo, also known as Bloodless Castrator, a device that uses a large clamp to break blood vessels in the testicles, leading to testicular necrosis. Burdizzo castration plier is a highly advanced pincer for bloodless castration of farm animals like cattle and sheep, reducing bleeding and infection risks. This emasculator tool is used in livestock castration to crush and cut the spermatic cord simultaneously, preventing hemorrhaging and detaching the testis,

while maintaining blood flow. Burdizzo Castration Pliers manufactured with premium quality stainless steel under high quality control to ensure performance and function effectiveness. Fully autoclavable for repeated use.

BURDIZZO CASTRATION FORCEPS FEATURES

- Crushes the Spermatic Cords.
- Does Not Cut the Skin or the Arteries to the Scrotum.
- Strong & Precise Action.
- Use for Castrating Bull Calves and Other Livestock.
- Less Painful, Most Humane and Expedient.
- Safe & Fast.

Burdizzo Style Castration Plier 12" (30.5cm) Long with Wooden Handle Stainless Steel Castration Forceps Veterinary Instruments – Livestock Lamb Cattle Goat Emasculator Banding

BURDIZZO Castrator invented by Italian Dr Burdizzo, also known as Bloodless Castrator, a device that uses a large clamp to break blood vessels in the testicles, leading to testicular necrosis. Burdizzo castration plier is a highly advanced pincer for bloodless castration of farm animals like cattle and sheep, reducing bleeding and infection risks. This emasculator tool is used in livestock castration to crush and cut the spermatic cord simultaneously, preventing hemorrhaging and detaching the testis, while maintaining blood flow. Burdizzo

Castration Pliers manufactured with premium quality stainless steel under high quality control to ensure performance and function effectiveness. Fully autoclavable for repeated use.

BURDIZZO CASTRATION FORCEPS FEATURES

- Crushes the Spermatic Cords.
- Does Not Cut the Skin or the Arteries to the Scrotum.
- Strong & Precise Action.
- Use for Castrating Bull Calves and Other Livestock.
- Less Painful, Most Humane and Expedient.
- Safe & Fast.
- The Cleanest Way to Castrate Male Livestock.

Veterinary Instruments – Livestock
Lamb Cattle Goat Emasculator Banding

BLOODLESS CASTRATOR

BURDIZZO Castrator is invented by Italian Dr Burdizzo. Bloodless Castration Burdizzo is a castration device that employs a large clamp designed to break the blood vessels leading into the testicles. Once the blood supply to the testicles is lost, testicular necrosis occurs, and the testicles shrink, soften, and eventually deteriorate completely.

This emasculator tool is used in the castration of livestock. Its function is to simultaneously crush and cut the

spermatic cord, preventing hemorrhaging while still detaching the testis from the animal. When the device is used, the operator crushes the spermatic cords one at a time, leaving a space in between in order to prevent an interruption of blood flow to the scrotum.

The Burdizzo castration plier is used primarily on farm animals such as cattle and sheep, for example, pampered cattle, used for Kobe beef, are often castrated by this method because of the reduced risk of bleeding and infection. Burdizzo Castrator is the most advanced pincer for bloodless castration of bulls, calves, rams, pigs and colts. Burdizzo Castrators are manufactured under high strict quality

Calf Dehorner Horn Cutter 13" (33cm) Sharp Blades with Wooden Handle
Highly Durable Livestock Veterinary Instrument.

Barnes type dehorner has an ergonomic wooden handle and a strongly built set of sharp hinged jaws. These dehorners have a robust structure and are ideal for use in cattle such as cows, etc. This horn cutter is uniquely designed to dehorn cattle animals aged 2 to 6 months. They have a closed sharp set of two scoops which is placed over a horn. It slices through the skin under the horn effectively. This high quality livestock veterinary tool does a clean job of dehorning calves and would last long.

CALF DEHORNER HORN CUTTER FEATURES

- Small Size: 13" (33cm) Overall Length.
- Approx. 3" x 2" Cutting Area Width.
- Wooden Handle.
- Stainless Steel Sharp Scoops Shaped Blades.
- Robustly Built.
- Reusable.

Color Stainless Steel Foot Rot Shear Goat Hoof

\$4.00 per piece

Trade price from \$2.50
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Color Stainless Steel Foot Rot Shear Goat Hoof is a scissor we forge, grind and finish in our own Sialkot workshop. Instruments of this type cut tissue, suture or dressing material cleanly along a controlled line.

Every piece is hand-finished and inspected before it leaves the bench:

joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$4.00, falling to \$2.50 at 10 pieces — about 38% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order

**WI-34866348****Debakey Forceps 12 Degree Tip Angled 90 Degree****\$17.00** per pieceTrade price from **\$11.00**
Minimum order 25 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Debakey Forceps 12 Degree Tip Angled 90 Degree is part of our veterinary instruments range, produced start to finish at our Sialkot facility. Instruments of this type grasp, hold and transfer tissue, dressings or small components without crushing them. The name tells you what you are getting: an angled shank that keeps the hand clear of the sightline.

Every piece is hand-finished and inspected before it leaves the bench: joint action, tip alignment and surface finish are checked on each unit, not on a sample. Listed at \$17.00, falling to \$11.00 at 25 pieces — about 35% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Dog Ear Cropping Scissors 5.5" Curved Blunt/Blunt Blades

\$8.99 per piece

Trade price from \$8.27
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Dog Ear Cropping Scissors 5.5" (14cm) Curved Blunt/Blunt Blade with Finger Ring Handle Premium Quality Stainless Steel Surgical Veterinary Instruments.

Dog ear cropping scissors are specialized surgical tools used to cut and shape a dog's ears, typically on young puppies (6-12 weeks), to achieve a desired upright or stylized appearance. The ear cropping scissors feature a curved design with sharp blunt/blunt blades and rounded tips to safely reshape dog ears, minimizing injury. They are designed with larger finger ring and a robust structure, allowing veterinarians to select the appropriate tip design for surgical needs. They are handcrafted with a flat blade including ergonomic ring handles for comfortable handling with less user

fatigue. These surgical scissors are reusable after proper sterilization.

DOG EAR CROPPING SCISSORS FEATURES

- 5.5" (14cm) Overall Length
- Curved Profile.
- Dual Sharp Blunt/Blunt Blades
- Large Finger Ring Handles.
- Comfortable Grip
- Durable with Long Lasting Cutting.
- Reusable After sterilization.
- Made with Premium Quality Stainless Steel.

Ear Cropping Clamp 13cm "C" Type Shaped with Teeth – Stainless Steel Professional Veterinarian Ear Trim Clamp Retractor Livestock Medical Surgical Veterinary Instruments.

These ear cropping clamps are specially designed for the individual shape of each breed. This allows for better cosmetic and more consistent ear trims. "C" shaped pattern ear cropping clamp comes with overall length of 13cm (5.12") ensuring exceptional strength and longevity. Type C is suitable for short-eared dogs. Such as Du Gao, Castro, Stafford, American bullies, etc. This ensures that veterinarians can maintain control and maneuverability throughout tasks, minimizing hand fatigue even after an extended amount of time.

This ear cropping clamp retractor is constructed from premium-grade materials. Equipped with meticulously crafted tiny serrations. It confidently grips the ear, ensuring precise cuts resulting in aesthetically pleasing ear shapes that meet breed standards. Not only does the clamp streamline the process for veterinarians, but it also minimizes discomfort leading to a smoother and quicker recovery. Highly resistant to corrosion and rust. Precisely crafted for accurate use.

EAR CROPPING CLAMP "C" TYPE FEATURES:

- Crafted with 5.2" (13cm) Overall Length.
- "C" Shaped Ear Trimmer Clip.
- Tiny Serrations For Secure Grip.

"L" shaped pattern ear cropping clamp comes with overall length of 18cm (7") ensuring exceptional strength and longevity. Type L models are suitable for sharpening and long ear type, mainly used for the Doberman. This ensures that veterinarians can maintain control and maneuverability throughout tasks, minimizing hand fatigue even after an extended amount of time.

This ear cropping clamp retractor is constructed from premium-grade materials. Equipped with meticulously crafted tiny serrations. It confidently grips the ear, ensuring precise cuts resulting in aesthetically pleasing ear shapes that meet breed standards. Not only does the clamp streamline the process for veterinarians, but it also minimizes discomfort leading to a smoother and quicker recovery. Highly resistant to corrosion and rust. Precisely crafted for accurate use.

EAR CROPPING CLAMP "L" TYPE FEATURES:

- Crafted with 7" (18cm) Overall Length.
- "L" Shaped Ear Trimmer Clip.
- Tiny Serrations For Secure Grip.

Equine Dental Wolf Tooth Extracting Forceps
11" Hook Handle

\$22.99 per piece

Trade price from **\$21.15**
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Equine Dental Wolf Tooth Extracting Forceps 11" (28cm) Curved Tip for Incisor Cap Extractions with Hook Handle Premium Quality Stainless Steel Veterinary Extraction Forceps

Veterinary extracting forceps with 11" overall length smooth grip and one hook handle is great for wolf teeth and incisor cap extractions, fragment removal, as well as removing plaque from the canines. Wolf Tooth Forceps have concave jaws that are excellent for grasping a variety of sizes and shapes of equine wolf teeth as well as incisor teeth. Hooked handle provides improved leverage when approach is from behind the head. American pattern veterinary extraction forceps have a smooth hinge so no pin is visible. You can reuse these wolf tooth

extracting forceps over time as they will not bend or tarnish on you.

WOLF TOOTH EXTRACTION
FORCEPS FEATURES

- Crafted with 11" (28cm) Overall Length.
- Concave Jaws.
- For Incisor Cap Extractions and Fragment Removal.
- Longitudinal Serrations Improve Grasp.
- Non-Slip Grip Hook Handle.
- American Pattern.
- Made With Premium Quality Stainless Steel.

Hauptner Dosing Syringe 30cc with Glass Barrel

\$49.99 per piece

Trade price from \$45.99
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Premium Quality Hauptner Dosing Syringe 30cc with Glass Barrel for Accurate and Correct Dosing with Hard Carrying Box Animal Feeder for Veterinary Ranch Farm Livestock.

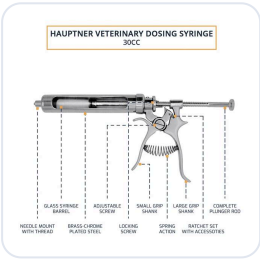

Hauptner syringe used to inject fluids into animals. This automatic multi-dosing syringe 30cc with glass barrel chrome plated for veterinary ranch farm livestock use. The dosing steps of a revolver syringe can be adjusted gradually from 1, 2, 3, 4, 5 to 6cc. Hauptner multidose syringe is for use in administering multiple doses of the same medication in horses, cattle, swine, sheep and goats. Features a glass barrel with a luer lock hub and lightweight aluminum cover to help prevent breakage. The barrel holds up to 30 cc of the same product and the

dosage can be adjusted to easily administer 1cc to 6cc. The Hauptner syringe makes it easier to fill the syringe with each injection when all of the animals being vaccinated receive the same dosage and treatment.

HAUPTNER DOSING SYRINGE FEATURES

- Glass Barrel Cylinder Capacity: 30cc
- Dosing Steps: 1, 2, 3, 4, 5 & 6cc
- Luer Lock Needle Connection
- Easy Gradual Dose Adjustment
- Perfect for Accurate Dosing
- Ergonomic and Easy to Handle
- Durable and Reusable
- Made With High Quality Material

This is our pattern of Kerrison Punch Rongeur Forceps Veterinary Instrument Set, made for veterinary practice and animal surgery. Instruments of this type bite away bone and dense cartilage in controlled pieces. Supplied as a set — the contents can be adjusted to your list.

The steel is heat treated and passivated for corrosion resistance, then each

instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at \$70.00, falling to \$35.00 at 1 piece — about 50% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Kerrison Rongeur 90/110/130 Degree Training Instrument 230mm

\$46.21 per piece

Trade price from \$44.24
Minimum order 1 piece

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Kerrison Rongeur 90/110/130 Degree Training Instrument 230mm — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type bite away bone and dense cartilage in controlled pieces. The 230mm size shown is our standard; other sizes in the same pattern are made to order.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$46.21, falling to \$44.24 at 1 piece — about 4% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order

Pack of 2 OB Calf Pulling Strap 30" with OB Hook Handle for Aid in Difficult Births Cow, Goat, and Cattle Delivery on Dairy Farms Highly Durable Veterinary Calving Supplies.

Nylon OB Calf Strap & OB Hook Handle used in the cow-calf industry for difficult births especially for use with goats and cattle delivery on dairy farms. OB Calf Pulling Strap with stainless-steel D rings made with soft yet sturdy, washable nylon. This obstetrical strap is 1" wide and spreads pulling tension over a wider area of the calf's legs to help prevent bone fractures and soft-tissue injury.

Calf strap has a hand loop that allows the user to apply pressure with Hook Handle, an ideal instrument for birth assistance in calves and other cattle

animals. The robust and strongly constructed calf strap with handle provides years of service with an easy and strong grip while calving.

OB CALF PULLING NYLON STRAP WITH HANDLE SET FEATURES

- **Calving Strap with Hook Set:** Nylon Calf Pulling Strap with OB Hook Handle are ideal cattle delivery supplies for aid in difficult births.
- **Spreads Stress:** Wide strap distributes pulling tension over calf's legs, reducing risk of injury.
- **Attaches to Calf Puller:** Metal loops allow attachment to calf puller or traction device.
- **Hand Loop:** Allows pressure application.

Pig Rabbit Body Tattoo Pillar Small Animal

\$8.99 per piece

Trade price from \$5.75
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Pig Rabbit Body Tattoo Pillar Small Animal is a pliers & cutter we forge, grind and finish in our own Sialkot workshop. Instruments of this type grip, bend or cut wire, pins and hard material.

Forging, milling, heat treatment, hand finishing and passivation all happen

under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$8.99, falling to \$5.75 at 10 pieces — about 36% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

Plaster Distractor Spreader Retractor Tool
Reusable Stainless Steel Autoclavable

\$22.99 per piece

Trade price from \$22.96
Minimum order 1 set

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Plaster Distractor Spreader Retractor Tool Reusable Stainless Steel Autoclavable is part of our veterinary instruments range, produced start to finish at our Sialkot facility. Instruments of this type hold a wound or cavity open so the operating field stays visible. The name tells you what you are getting: full reusability — clean, autoclave and use again.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$22.99, falling to \$22.96 at 1 set — about 0% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Polansky Vaginal Speculum 17" (43cm) 3 Blades With Butterfly Screw For Large Animals Premium Quality Stainless Steel Surgical Veterinary Instrument.

Polansky veterinary vaginal speculum is a gynecological instrument used for mares, cattle, cow ranch dilator equine instruments performing pelvic examinations and examining the cervix. It holds the labia open so the vaginal vault can be viewed for swabs taking or direct medication to the uterus. This makes diagnosing problems less complicated and aids in surgical procedures.

for large animals, It is used for diagnostic examinations and other procedures. It holds the labia open so the vaginal vault can be viewed for swabs taking or direct medication to the uterus. It can also be used during the urinary catheterization of a female.

ERGONOMIC DESIGN: This speculum has butterfly screw with 2 blades on top for wide exposure & 1 down blade. It is very simple to operate, simply turn the hand screw to open the speculum.

EASY TO USE: This veterinary speculum is user friendly, easy to clean, and autoclavable.

SURGICAL GRADE STAINLESS STEEL: Forged from corrosion-resistant surgical stainless steel it can be processed for frequent sterilizations and long life.

GUARANTEED SATISFACTION: We

Premium Quality Reimer Emasculator 12.5 Inches Castration Clamp Double Crush with Ratchet Bar Lock Mechanism Equine Castration Surgery Stainless Steel Veterinary Instruments

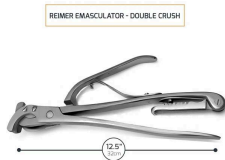

Reimer emasculator clamp is specially designed for effortless castration. This is a very popular emasculator has a double crushing part with promising results. This tool has three actions: clamping, crushing and cutting. As the jaws are closed on the spermatic cord it is gripped by the clamping part. Back-lock retains the clamping part closed unless unlocked. The cutting lever works independently. This allows extra time for crushing action and diminishes bleeding. Separate crushing and cutting actions. The cut is performed using a separate lever when

the surgeon is ready to keep you in control.

REIMERS EMASCULATOR FEATURES

REIMER EMASCULATOR: Reimer emasculators have double crush jaws and three arms for holding & adjusting on position. The Ratchet handle has seven locking bends on different positions for locking and using high quality stainless steel. Reimer Emasculator is 12.5" (31.75cm) in length.

STAINLESS STEEL CONSTRUCTION: The stainless steel construction ensures maximum durability and dependability. You can reuse these emasculator over time as they will not bend or tarnish on you. High quality stainless steel, excellent international

**Reusable Stainless Steel Veterinary Syringe
50ML Lab Sampler**

\$3.00 per piece

Trade price from **\$1.50**
Minimum order 8 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Reusable Stainless Steel Veterinary Syringe 50ML Lab Sampler is a veterinary instrument we forge, grind and finish in our own Sialkot workshop. The name tells you what you are getting: full reusability — clean, autoclave and use again.

Forging, milling, heat treatment, hand finishing and passivation all happen

under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$3.00, falling to \$1.50 at 8 pieces — about 50% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Rodent Molar and Premolar Cutting Forceps 6.3"

\$10.99 per piece

Trade price from \$10.11
Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Rodent Molar and Premolar Cutting Forceps 6.3" (160mm) Sharp Blades for Excessively Long Cheek Teeth Surgical Veterinary Instruments.

Oral and dental care for rodents requires specialized equipment and instrumentation. The rodent molar cutting forceps used to trim very long molars and premolars before using a rasp or bur to smooth the cut edges. This will help protect your bur or rasp and prevent damage from excessive heat with prolonged rasp or bur use. Caution must be used with molar and premolar cutters as the risk of tooth fracture or soft tissue damage is increased. Usefull for rabbit, rodent, chinchilla and more. The unique shape enables the surgeon to see what is being cut.

RODENT MOLAR AND PREMOLAR CUTTING FORCEPS FEATURES:

- Overall Lenght 6.3" (160mm).
- Sharp Cutting Blades.
- Unqiue Shaped for Improved Access to the Cheek Teeth.
- Non-Ratcheted Finger Ring Handle.
- Reusable.
- Made with Premium Quality Stainless Steel.

PACKAGE INCLUDE:

- 1 Pc Rodent Molar & Premolar Cutting Forceps 6.3" (160mm) – Sharp Blades

Rodent Molar and Premolar Forceps 5.2\"/>

These handheld forceps are specially designed for the removal of premolar and molar teeth in rabbits and rodents, with serrated teeth for maximum grip. The forceps jaws are narrow and angled to improve access to the cheek teeth.

The forceps are designed to grip teeth without crushing. The rodent molar and premolar forcep is used to lift out the molars, after cutting the ligaments with an elevator. Once the tooth periodontal ligament has been broken down and the molar/premolar is sufficiently loosened, these extraction forceps will grasp the tooth and provide sufficient

grip to gently apply force and remove the tooth. The forceps are slim and angled to help reach the molars/premolars without excessively obscuring the surgeon's view. Care must be taken to ensure the tooth is sufficiently loose to prevent fracturing the root.

**RODENT MOLAR AND PREMOLAR
EXTRACTING FORCEPS
FEATURES:**

- Overall Length 5.2\"/>
- Serrated Jaws for Strong Grip.
- Narrow and Angled Jaws for Improved Access to the Cheek Teeth.
- Non-Ratcheted Finger Ring Handle.

ABOUT THIS INSTRUMENT

This is our pattern of Stainless Steel Foot Rot Hoof Cutter Veterinary Instruments Livestock, made for veterinary practice and animal surgery. Instruments of this type grip, bend or cut wire, pins and hard material.

Forging, milling, heat treatment, hand finishing and passivation all happen

under one roof, which is why we can change a dimension or a finish without a tooling charge. Listed at \$19.00, falling to \$13.00 at 10 pieces — about 32% off the single-unit price.

Larger quantities are priced on request. Order it on its own or as part of a mixed shipment; we do not insist on a full container.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

WI-27467665

Stainless Steel Hospital Veterinary Hoof Knife
and Dehorner Set

\$3.00 per piece

Trade price from \$1.50
Minimum order 1 piece

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Stainless Steel Hospital Veterinary Hoof Knife and Dehorner Set — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type make precise incisions and separate tissue planes. Supplied as a set — the contents can be adjusted to your list.

The steel is heat treated and passivated for corrosion resistance, then each

instrument is checked by hand for jaw meet, smooth action and finish. We state the grade we used on your quotation. Listed at \$3.00, falling to \$1.50 at 1 piece — about 50% off the single-unit price.

Larger quantities are priced on request. We ship door to door worldwide, and can quote DDP if you would rather not handle the import yourself.

Tartar Removing Forceps 4.5\" (11.4cm) Curved Beak – Professional Dental Tartar Scraper and Remover Premium Quality Stainless Steel Dental Veterinarian Instruments.

Tartar remover forceps is an oral instrument to remove and scrape tartar on the teeth. Dental tartar forceps specially designed for removing an excessive amount of tartar buildup on canine teeth. Primarily, these are used to remove the tartar before scaling. Our tartar removal forceps are ideal for removing large bits of tartar and not for basic buildups. The tartar forceps feature a curved beak to allow for the easy removal of heavy calculus from the tooth surface before scaling the teeth. The long tip is placed behind the tooth, while the curved portion is

placed at the top of the tooth on the front side. The clinician will then apply gentle pressure and pull down the front of the forceps. Tartar will then be chipped off by this movement. This tartar remover scraper is user friendly and easy to clean as it is autoclavable.

Professional dental tartar scraper is ideal for hospitals and specialty clinics. This tartar remover scraper will last and remain dependable for medical personnel, thanks to the durable surgical steel construction.

TARTAR REMOVING FORCEPS FEATURES

- Crafted with 4.5\" (11.4cm) Overall Length.
- Flat on One Side and Curved Shaped Beak on the Other End.

Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Veterinary Burdizzo Castration Clamp
Stainless Steel Livestock Castration — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type occlude a vessel or duct, or hold tissue and drapes securely in place.

We work the instrument by hand at the finishing stage — box locks, hinges and

tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$22.00, falling to \$12.00 at 10 pieces — about 45% off the single-unit price.

Larger quantities are priced on request. Samples go out on request so you can check the steel and the finish before you place a real order.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

WI-00898231

Veterinary Ear Retractor 5.5" (14cm)

\$14.99 per piece

Trade price from \$13.79

Minimum order 21 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

Veterinary Ear Retractor 5.5" (14cm)
Premium Quality Stainless Steel Pitbull
Ear Cropping Clamp Livestock Medical
Surgical Veterinary Instruments

Veterinary ear retractor is designed with the veterinarian's comfort in mind. The 5.5" (14cm) veterinary retractor features an ergonomically crafted handle that fits the hand, providing a comfortable and secure grip. This ensures that veterinarians can maintain control and maneuverability throughout tasks, minimizing hand fatigue even after an extended amount of time.

This ear cropping clamp retractor is constructed from premium-grade materials. Equipped with meticulously crafted tiny serrations. This allows for better cosmetic and more consistent ear trims. It confidently grips the ear,

ensuring precise cuts resulting in aesthetically pleasing ear shapes that meet breed standards. Not only does the clamp streamline the process for veterinarians, but it also minimizes discomfort leading to a smoother and quicker recovery. Highly resistant to corrosion and rust. Precisely crafted for accurate use.

VETERINARY EAR RETRACTOR
FEATURES:

- Crafted with 5.5" (14cm) Overall Length.
- Tiny Serrations For Secure Grip.
- Ergonomic Design For Superior Control.
- Reusable.
- Made with Premium-Grade Stainless Steel.

Veterinary Equipment Syringes Stainless Steel Color

\$35.00 per piece

Trade price from **\$22.00**
Minimum order 10 pieces

- ✓ Surgical-grade stainless steel
- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Veterinary Equipment Syringes Stainless Steel Color is part of our veterinary instruments range, produced start to finish at our Sialkot facility. Forging, milling, heat treatment, hand finishing and passivation all happen under one roof, which is why we can

change a dimension or a finish without a tooling charge.

Listed at \$35.00, falling to \$22.00 at 10 pieces — about 37% off the single-unit price. Larger quantities are priced on request.

Order it on its own or as part of a mixed shipment; we do not insist on a full container.

ABOUT THIS INSTRUMENT

Veterinary Syringes Hoof Cleaning Buffer Clinch Cutter — one of 4,770 instruments we manufacture ourselves rather than buy in. Instruments of this type grip, bend or cut wire, pins and hard material. The steel is heat treated and passivated for corrosion resistance, then each instrument is

checked by hand for jaw meet, smooth action and finish.

We state the grade we used on your quotation. Listed at \$6.00, falling to \$3.00 at 10 pieces — about 50% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
Lead time	Typically 15–30 days depending on quantity and marking

- ✓ Reusable, autoclavable
- ✓ OEM / private-label marking

ABOUT THIS INSTRUMENT

Veterinary Tattoo Pliers Stainless Steel Reusable Adjustable Animal is a pliers & cutter we forge, grind and finish in our own Sialkot workshop. Instruments of this type grip, bend or cut wire, pins and hard material. The name tells you what you are getting: full reusability — clean, autoclave and use again.

We work the instrument by hand at the finishing stage — box locks, hinges and tips are set individually, which is what separates a good instrument from a cheap one. Listed at \$8.99, falling to \$5.75 at 25 pieces — about 36% off the single-unit price. Larger quantities are priced on request.

Small trial orders are welcome — most buyers start with a sample or a single carton before committing.

Material	Stainless steel — we state the grade on your quotation
Reusable	Yes, autoclavable
Finish	Satin, mirror or black — your choice at order
Marking	Your logo or part number can be applied — ask us what is possible for this item
